notes, we fear greatly to the satisfaction of our oppressed readers. We have striven to give you facts as we saw them, and im-pressions as they were made upon us; sour of our ideas may have been wrong, and some of our statements made with uninten-tional inaccuracy, but as our judgment and our memory served us, we have written unto you. We advise all who can do so, to go in the pleasant Spring time, and see this country for themselves; and we wish you wnile traveling through it, an experience as pleasant as that with which we were fa-vored, in our "Trip to the South." Lancaster county, Pa. It is strange to see with what carelessness some invalues abound in their health. They which orgit to be used us invalues the theory of the days they have used only two or three bottles. Some days they have used it according to the direc-tions, and others have not touched it. The whole trial has been irregular, and of conree a less favorable result has come from their use. If it be true that "what is worth doing at all is worth doing well," how emphatically is it true in matters relating to the health. A few bot-tless of PLANTATION BITTERS have often wrought wonders, while in other instances discase has only been subdued after weeks of resistance.
