A Radical Endorsement of Democratic Doctrine.

It is a significant sign of the times when we find Radical newspapers admitting the entire correctness of the political status which the Democratic party has occupied for several years We are encouraged when we find such Journals urging strongly, and with apparent zeal, the very same arguments which we have constantly addressed to the people. It confirms us In the settled conviction we have so long entertained that this Government can only be successfully conducted upon Democratic principles and by a Democratic administration. We find the following paragraph in the Harris-

In and a pleasant change, and a pleasant thing to think of, did we ask the Good Templars whether they lain of any kind, she could have had a trary power now claimed by Congress, we have asserted a thousand times. The Radicals denied it bitterly. They lauded Congress continually, and have done all they could to establish firmly the system which the State Guard now nounces as destructive to the Repub

The warning of Governor Geary's organ comes almost too late. It should have spoken out sooner. Surely it must long ago have seen how completely "the functions of the Executive and Judicial branches of the Government' were being usurped by Congress. The time to have attacked this great evil was in the beginning. That the Democracy did, but every Radical newspaper in the country, the State Guard not excepted, defended the repeated and alarming usurpations of Congress. The worst men of that body, those who led in the infamous legislation which destroyed the power of the Executive and muzzled the Supreme Court, were the idols of the Republican party. Every new assault which they made upon our Republican institutions was heralded as nother advance of liberal ideas. The masses were deceived by specious cries and deluded by cunning sophistry. The patriotic warnings of the Democratic leaders were denounced as the distoyal utterances of Copperheads. The passions of the people were excited by appeals to sectional preindice, and, while their attention was thus distracted from the real designs of the Radical leaders in Congress, one step after another was taken in the path of usurpation. In vain did the Democratic eaders lift up their voices in solemn warning. Their prayers and protestations were unheeded, and the revolu-

the full light of the only true political Sarbara Frietchie and the Flag. The Radical newspapers all over the country are making quite a row over the fact that the house in Frederick city, from which one Barbara Frietchie was reported to have waved the Star Spangled Banner in the very face of Stonewall Jackson and his men, has been demolished. According to the admission of the Radicals themselves the rebels respected womanhood too much even to insult one who defiantly flaunted the batter of their foes in their very fuels. When and where did our armies give such an exhibition of chivalrous courtesy. The less that is said about this Barbara Frietchie story the better. If true it only blazons forth our shame the more conspicuously. If our Radical cotemporaries in Lancaster and elsewhere would reflect for a moment they would hesitate before publishing items calculated to provoke such odious

comparisons. IT is rumored that Gen. Rawling intends to resign his position of Secretary of War and that Grant seriously contemplates the appointment of Joe. Holt to fill the vacancy. The officers of the army have already entered their protest against Holt, and there is not a decent civilian in the country who will not join with them in their remonstrafice. Holt was the jackal of Stanton, and his name was the synonym for petty tyranny and despicable meanness. He sank so low in public estimation as to become an object of contempt and scorn to all decent people. If Grant wishes to tie another millstone round his own

Good Friday as a Public Heliday. The action of our late State Legisla-ure in enacting that Good Friday shall nereafter be observed as a public holiday, was certainly one of its most unantable freaks. It puzzles us exceedingly to imagine what could have induced the passage of such a law. There is a marked difference in the

Grateful as the enact ment may be and will be to large bodies of our Christian edizens, it is clearly in conflict with the genius and theory of our political system, and betrays on the part of the legislators, an utter ignorance of our bistory and institutions. The New York Journal of Commerce, in giving particulars of the enormous imports of the last four months at that port, shows that of the \$\frac{8}{19.517,750}\$ to which they amount, only \$\frac{8}{38.12.61}\$ were of dry goods; that is, contrary to general belief, dry goods constitute only about one-third of all the foreign products for which we have to pay. Our legislators have made the United States the dearest market in the world; consequently we sell little and buy much. That proposition is so plain that the most illiterate reader can understand it. The theory of the protectionist is, that by making the home market dear, we encourage home production. The result, as shown home production. The result, as shown by experience, is that when our markets countries, our produce costing so much they can buy cheaper elsewhere; while everybody who can comes here to sell his
