Hon. Judah P. Benjamin, late of the Con federate Cabinet, but now of England, has, after two years appearance at the British bar, been made Queen's Counsel, an honor almost without meadout in the almost without precedent in the prompti-tude of its bestowal. Aside from making him senior counsel in whatever cases he may be employed, the promotion will con-siderably add to his emoluments. Being on the Liverpool and Munchester circuit, he will be retained in commercial litigations of

The Ohio Gubernatorial Canvass. The Cincinnati *Laquarcr* says the prospect for carrying Ohio, and electing Mr. Pendle-ton Governor, with a Democratic Legislat-ture to back him, is most excellent. Two years ago Hayes was only elected by 2,000 majority, and although last October, owing to the defeat of Mr. Pendleton in the New York Convention and the then great popu-larity of General Grant, the figures arose to 17,000, they can be easily overcome by a vigorous canvass. In 1867, without having as favorable issues as they have now, and with the public mind not as well disposed, the Democracy reduced 43,000 Republican majority to less than 3,000. That was cer-tainly a much greater task than it is to cut down 17,000 to nothing, which is the work we at present have before us. A change of two hundred votes in a county, on an aver-age, will do the business, and send Hayes into retirement. The gain in old Hamilton will be counted by thousands, and will amply make up for any of the counties that may fall short. within a fraction of eighty three millions of ten dollars greenbacks in circulation, of which, in response to the recent circular of the Treasurer recalling it, some twenty.
