WEDNESDAY, AUGUST 25, 1869. DEMOCRATIC STATE TICKET. FOR GOVERNOR:

FOR JUDGE OF SUPREME COURT: Hon, CYBUS L. PERSHING, of Cambria co. MEETING OF THE DEMOCRATIC

The Democratic County Committee will meet on MONDAY, the 30th day of AU-GUST, at 11 o'clock, A. M., at the Demoratic Club Rooms in the City of Lancaste for the purpose of organizat R. R. TSHUDY, Chairman

B. J. McGrann, Secretary. THE Headquarters of the Democratic State Central Committee have been established at the Rooms of the Democratic Association, corner of Ninth and Arch streets, Philadelphia. The new Chairman has entered upon the campaign with vigor, and with the brighthopes of success.

The Political Prospect. The Democracy of Pennsylvania have it in their power to redeem the State at the coming gubernatorial election .-Very many of the best Republicans, were bitterly opposed to the renomination of Geary. They had scrutinized his course as-Governor, and were deeply disgusted with him. His empty vanity, his conceited ignorance, his blundering stupidity, his want of truthfulness, and his utter lack of honesty, as displayed in his complete subservi ency to the infamous Legislative ring, turned many of the more honest, intelligent and conscientious members of his own party against him. Quite a number of Radical newspapers openly assailed him and predicted his certain defeat, if he should be renominated But, the voice of the honest and disinterested men of the party failed to be heard, and the warnings of its most sagacious politicians were unheeded.— Geary packed the State Convention by securing the active supports of all the corrupt legislators and lobby men who assembled at the State Capitol during his term of office. He was from the be ginning the willing and suple tool of the legislative ring, and of the crowd of greedy cormorants who hovered around the State Capitol. He was always ready to append his signature to the multitude of infamous bills which they put through the Legislature. In some instances he acted in defiance of the advice of Attorney General Brewster, and in others, (as the Herdic act and bills of similar character,) he hastened to append his official signature without nsultation with his chosen legal adviser. The "ring" could not afford to lose such a valuable friend as Geary, and so they packed the State Convention with their paid tools and hired pimps A nomination made under such cir cumstances could not fail to be unpopular, and it is not surprising that numbers of active and influential Republicans throughout the State should declare their determination to vote against Geary. He will not receive the united support of his own party. The borrowed plumes of military glory, in

Cape May aspires to be called a city, and in summer time at least, it has some claims to the title. It has a Mayor, a Jail, and Town Council, Police and other adjuncts of civilization. True it is that most of its population is merely migratory, as shifting as the sands on the sea shore, and that for inthe months of the year it is almost a deserted village. But, during "the season" it is full of life and bustle. It supports a daily paper called the Ware, edited by J. Travis Quigg, Esq., and flourishes in the gorgeousness of glittering fashion. Of course sea-bathing is the chief attraction at Cape May. The beach is very safe and the surf exceedingly fine. The guilf stream, which sweeps by at no very great distance from land, warms up the water to a temperature that is decidedly more agreeable than that enjoyed further north. rather than an expression of discomfort. Each breaker which dashes against the body thrills the system like an electric shock, and the sensation is infinitely supe rior to that ejoyed in a suit of flannel at midday.

Eleven o'clock is the fashionable hour for bathing, and so punctually are the rules of tiquette observed that thousands of people emerge simultaneously as it were from the multitude of dressing houses and make a rush all at once for the boiling surf. The beach, which was almost deserted a mo-ment before, is immediately covered for more than half a mile with a dense crowd of human beings, young and old, male and emale, tall and short, alim and stout, ull dressed in flannel drawers and backs or shirts. The costumes differ little in make we concluded to run down to Cape May and only vary in color. Straw hats are worn by all, and men and women are not ocean. A few notes of what we saw will to be distinguished from each other, except not be devoid of interest to our readers.

That is not a more caprice of fashion there is. As each rude breaker dashes shoreward a simultaneous shout goes up from voices as various as there are differen of summer. As a nation we are a set of hard | throats, and the hoarse shouts and laughter workers, and successful and professional of men and the shrill screams of startlets men among us greatly feel the need of and excited women and children rise above proper relaxation. The angles are clearly do fined, and impudent masculine eyes search in vain for the swelling busts which rise and fall with the voluptuous swell of cuningly contrived machinery as the fair whose life is bound up in dress and show, among the crowd who can stand the severe test of an ocean bath.
