The Philadelphia Tost has been interviewing the Virginia raider Mosby, who is now in Philadelphis. He said:

Having the precedent of Marion before him, he felt that if a body of bold, fearless cavalrymen could be gathered together, an immense amount of annoyance could be given the Union force, at a comparatively little risk. For this purpose his troop was organized, and from the commencement acted in consort with the immediate command of General Robeit E. Lee. The principal object in yiew was the neutralizing of the Federal posts.

"I calculate," said the Colonel, "that with my average force of about three hundred men—and it never exceeded that—I neutralized the operations of at least fifty thousand men on the Federal side; and the reason for this is plain. The Federal Generals were compelled to guard the whole line of the Potomac and the Baitimore and Ohio Railroad. I therefore had before me an unbroken line of some bundred miles in

Grain and Grass.—The wheat presents at this time only a tolerably favorable appearance. It has a very green and health look but is rather more backward, than other years. That which was sowed early has put forth a large number of new shoots from around the stalks and looks well, but that which was sowed late is not much more than out of the ground, and some little is not upyet. The cold weather setting in earlier than customary is the cause of the grain being more backward than usual.

The hartman Case.—Gov. Geary, who some days ago granted the requisition of the Governor of Indiana for Dr. S. B. Hartman, charged with certain offences in that State, on Saturday revoked his action and rejused to give the doctor up, much to the disgust of Mr. Langsdale and Constable Baker, who look upon Governor Geary's action as an insult to the Governor of Indiana. Dr. Hartman on Saturday again entered bail in \$5,000 before Commissioner Reigart, with the same sureties as before, for his appearance in the whiskey case.
