MCHAL INSURANCE COMPANY, for the year now approaching its termination the Directors find less cause for congratulation than on any similar occasion for years past. For, although the Company has been steadily increasing in strength and efficiency the losses have been more serious and the consequent demand upon Individual contributions more onerous, than at any former period since the organization of the Company, with perhaps, one or two exceptions. The aimost entire exemption from losses during the last six months of the present and and the first four months of the present and and the first four months of the present year, indicated the loger that the year might pass without any resonated by a disastrious fire that occurred the support of the company with the 23d of April last, entailing on the Company the heaviest loss it has ever sustained by a disastrophic.
