## The Fifteenth Amendmen Lancaster Intelligencer.

DZIEDSETEX DO HEAD

Lancaster Intelligencet. WEDNESDAY, FEBRUARY 2, 1670. Our Congressman, Hon. O. J. Dickey, undertook, the other day, to reply to the speech of Mr. Dawes, of Massachusetts, which we publicling also where. The Fifteenth Amendment has haun-ted the Republicans a long which i were given to the county by the war and which belong immediately to the per-atoms and rationale with war. The Rr publicans ought to their to have avery thing to gain from it as it stands. But when the Fifteenth Amendment be-Our Congressman, Hon. O. J. Dickey, undertook, the other day, to reply to the speech of Mr. Dawes, of Massachusetts, very grave character. THe shows most sively that the present administration has so far proven to be the most extravagant and costly one with which this country was ever afflicted in a time of peace. While the people are grean ing under the most burthens me taxation, with business of every description In advance?' is impossible in law. The very next step beyond is an invasion of human nature... Yet the more irrespon-sible of the Radical leaders will attempt in a declining condition, appropriations greatly exceeding those of any year of Andrew Johnson's administration are asked for by Grant's Secretary of the to force the Republicans to take it, and Treasury. Among other estimates for in doing so will divide their strength. the current year he calls attention to the Every one of the Southern States re item of \$800,000 for League Island, which would be in addition to the \$3,ment will, fall into the hands of the 000.000 to be obtained from the sale of Democratic party, and the Republicans can not risk a division in the North. the present Navy Yard at Philadelphia. denounced such expenditures as On suffrage they can hold together not \$577,850 for the Portsmouth Navy Yard on any other proposition concerning the negro. Suffrage being settled leaves the against \$50,000 expended last year; ultras nothing to do but to agitate for \$747,841 for the Navy Yard at Boston against \$100,000 last year, and so on social equality, which can not be made through the estimates of the Secretary to work as a political instrument. Be Treasury for Navy Yards alor sides, the disappearance of the negro until a total of \$3,607,394 is piled up against \$451,000 last year. He showed ment in our politics will that the appropriations for public works, alone, demanded by the pi esent Secre tary of the Navy, amount to \$24,625,173 against \$5,493,000 last year; and that the present year amount to \$28,441,761 cles over the Fifteenth Amendment is against \$15,965,666 appropriated last

In summing up Mr. Dawes shows that truth of this most thoroughly. As to the principle of State rights the estimates of the administration which came into power with professions of retrenchment and reform amount in the very first year to \$331,079,174.69, an increase of \$42,682,537.01 over the appropriations for the last year of Andrew ohnson's administration. Mr. Dawes confines his criticism to the estimates already made, for which the money is actually demanded. He did not take unt the millions which Grant proposes to spend for earthquakes and tornadoes in the tropical isles to off-set the icebergs of Alaska; nor the other which will be numerous millions more required to complete the vast public works which the administration proposes to commence in the very first months of a term pledged to retrenchpower. ment and economy in public expenditures. In their great readiness to respond to the request of the Postmaster General, the reques ner of the bill forgot a main point commendation. Mr. Cresswell in his reco took good care to make an exception in favor of county newspapers, which are now circulated within the different counties where they are published free ted under the Fifteenth Ame of postage. This is an accommodation to the people which the government ought to afford. The amount of trouble and annoyance saved to residents of the rural districts, who are the principal subscribers to county papers, more than compensates for the sum which might be saved by renewing the postage on such journals. In his report Mr. Cresswel aid :
