At Jeremie a large number of those unfortunate people have been put to death, and at Jacmel more than forty of them are in prison, doomed to die on an early day. SCOVILL, is the inventor of several medical preparations which have become very popular, and have been liberally used. Among his inventions are "Hall's Ralsam for the Lungs" and "Liverwort and Tar." For the past-sky years a better Lung remedy has been offered to the public. Read the following letter from DR. Scovill referring to it:

Messra J. N. HARRIS & CO.,

Gents:—I make the following statement from a perfect conviction and knowledge of the benefits of Allen's Lung Balsam in curing the most deep-scated Plimonary Consumption! I have witnessed its effects on the young and on the old, and I truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs, and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the Lungs, there would be very lew cases of fatal consumption. It causes the phicgm and matter to raise, without irritating those delicate organs (the Lungs,) and without producing constipation of the Bowels. It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

And besides the local and other business thus assured, there wil be attracted to this road the considerable traffic [already springing up "From the Lakes to the Gulf;" as with its "From the Lakes to the Gulf;" as with its Southern Connections it forms a Trunk Line 15 miles shorter than any other route from Chica-ge to Nashville.
