Use Lime,

Use Line. The action of lime is two-fold : First, physical, and second, chemical. As a mechanical agent opens still clays, ren-dering them friable, mellow, and more easily to be worked ; chemically, it acts upon the vegetable matter of the soil and sets from those stores of valuable substances which, without the ac-tion of this agent, must have remain-ed inert and useless. If gulse enters di-reetly into the composition of plants and in many varieties forms a large propor-tion of the weight of their inorganic constituents. It neutralizes certain acids which are often present in soils, rendering them useful to vegetation in-stead of being positively injurious. The urowing removes of plants and the use of his horse was soized with a trembling, and fell dead in the shifts be-try. The use of his horse ship's death is a mys-try. The use of his horse ship's death is a mys-try. upon the vegetable matter of the soil and sets from those stores of valuable substances which, without the ac-tion of this agent, must have remain-ed inert and useless. It also enters di-rectly into the composition of plants and the receiver were sustained. The weight of their inorganic constituents. It neutralizes certain acids which are often present in soils, rendering them useful to vegetation which they are in the soil, how-ever, affects the action of lime very con-siderably. If the land is wet and influence which it would do in the case of land thoroughly drained. A greater quantity is necessary to produce a given effect, and thus the neglect of thorough drainage entails a considerable greater oxpenditure in liming than would have been necessary, if the land was either and thoroughly drained. A greater startally or artificially dry.

before a number of the bonds had been placed in circulation. They were so much like the genuine that the most expert bankers were deceived. The Government now intends entering suit against the bankers for the amount of the bonds which it redeemed, and the bankers intend to demand payment for the bonds they yet have on hand, as they claim they are not counterfeit, but a spurious or over-issue, for which the Government should be ro-sponsible.
