THE FRUT.—A correspondent, writing from the Southern part of our county says: "The fruit crop in this section looks quite promising, and our people expect a good yield. The blossoms have been nu-merous, and it is not now probable that the fruit can be injured by unseasonable frosts. Our farmers generally flatter thomselves that present prospects indicate an improve-ment in quantity, and, perhaps quality, over the fruit produced here last year." -----

FATAL ACCIDENT. The Columbia Her An exchange says: To make a littl and says: On Sunday morning, the 15th inst., George Walforth, an employee of the Susquehanna Iron Company, was found in front of his residence, in Hichtor's Alley, with a terrible gash cut on his head. Med-ical aid was summoned, but the injuries received were sufficient to cause his death in a chart time. It who alware of Domitr ice last a long time, get a double pocket o strong woolen cloth; have a space of two inches or so between the inner and outer ockets, and pack this space as full as pos-ible with feathers; hen's feathers will do With a pocket thus constructed and kept closely tied at the mouth, a few pounds of ice may be kept a week. As ice will be pretty dear this summer this knowledge may prove important.

received were sufficient to cause his death in a short time. In the absence of Deputy Coroner Fraley, Samuel Evans, Esq., held an inquest, and after hearing the testimony of the attending physician and other wit-nesses, the jury rendered as their verdict, "That the decensed came to his death from compression of the brain, caused by a fall from the door of his residence." Goorge served several years in the army and his employers speak well of his con-duct, saying he was one of the most indus-trious men about the works. SHAD FISHING.-The Wrightsville Star SILAD FISHING.—The Wrightsville Star says: "The fisheries are still having a good catch of shad. The daily average catch at the different fisheries is larger than it has been for a number of years past, yielding a handsome income to owners of batteries. The shad taken now are much larger than those caught earlier in the season, and are not so high in price. Good shad can be purchased at sixty cents per pair or twenty-five dollars per hundred."
