Lancaster Intelligencer. WEDNESDAY! AUGUST 10, 1870.

Let Us Have a Change in Congress. At the close of the last session of Congress an almost universal cry of congratulation went up from the press of the citizens, to approve of the substitution country because it had adjourned. It was not the Democratic newspapers which were most emphatic in their charges of incapacity and corruption. Independent journals, such as the Philadelphia Ledger, spoke out much more strongly than they are wont to do, and to show that Governor Holden has been we do not know a paper of that class in acting the part of an arbitrary despot, the land which had a good word to say on the departure of the Congressmen for outrageous conduct by the President of their homes. Very many of the strongest manifestations of popular discontent with Congress came from Republican journals. Some of these remained silent from party subserviency, but a large number of the best established and most prominent Radical newspapers in the ountry expressed their gratification at the adjournment, and congratulated the people upon the fact that there was to be little thing, as Republican newspapers naratives himself. short cessation of the evil and costly legislation which marked the last session of Congress. Republican newspapers freely charged that the legislation and was almost exclusively in the in terest of favored classes, that the interests of the country were neglected for private schemes, that special legislation occupied nearly all the time of the members,

was this the tone of the Republican

jority. That is a very significant fact when we remember that the Republican majority is entirely responsible for all that was done or left undone. The Democratic minority in both the House, and the Senate was so small that they could not make their opposition to obnoxious and improper measures effect five. Occasionally they respected to what is known as "Ribarsteing" in the House, but by that process they could only delay the passage of a bill for a little while. In the end the Radical only delay the passage of a bill for a little while. In the end the Radical majority always had their way. During the last hours of the session, when an objection to a bill was fatal, Hon. Samuel J. Randall, and a few other Democrat, who were skilled in partial mentary usage, took their stand in front of the Speaker's desk, and by the percentipory deckaration, "I object," stopped of the passage of many schemes of robbery, which would have cost a lax". than the exception. Never before in this country was any obbery, which would have cost a tax ridden people immense sums of money if they had been allowed to go through. Throughout the session the Democratic members offered amendments to greatly better, but almost invariably these amendments were summarily voted down. The Democratic members acquitted themselves creditably at the last session, and they showed an honesty of purpose, and an integrity of characte which should commend most of them o their constituents for re-election. It is not so with very many of the Re-

them correctly, and numbers of them have voluntarily announced their intention to retire, while others have been refused a renomination. In some districts old members have forced themselves upon the Radical ticket only to be defeated. There are several such in this State. Some two or three have a faint hope. that they may pull through in close districts by aid of the negro vote, but they The Democratic party has always been unalterably opposed to all that kind of legislation out of which the gross evils complained of in Congress have grown. It abhors class legislation, and has always been the foc of jobbery and corruption. To it individuals are nothing in compari-on with principle. If does not hesitate to excommunicate any one who may violate the fundamental principles upon which the or ganization is based. What this country most needs now is a change in Co gress. We want honest men sent to Washington to take the place of rogues, capable men to occupy the seats of incompetent members. The elections which have already taken place show that the people are determined to make The next House may be Democratic. If it is not so, the Radical majority will be so reduced as to insure better, wiser, more honest, and more economical legislation than we have lead. The best thing that could now happen this country would be the return of a majority of Democrats to the

Good News.
The news which we publish elsewher of the elections in North Carolina and Tonnessee will make glad the heart of every true patriot. Tennessee stands firmly in the Democratic ranks, having elected a full Bench of Conservativ Judges of the Supreme Court. That insures a fair and impartial administration of the laws.

In North Carolina the most desperate

efforts were made to overawe the white population, Holden turned out a horde of militia, put them under command of a brutal desperado, and gave them free license. Many prominent citizens were rudely seized without form or warrant of law, thrust into prison, tyrannized over by their tormentors, and hung up to make them confess crimes of which they were perfectly innocent. A subservient judiciary declined to enforce the laws of the State, and the Governor's militia captains tore up writs of habeas corpus, and thing the frag ments in the face of the officers. Instead of protecting innocent citizen who were thus grossly outraged President Grant sent United States troops t North Carolina, and put them at the command of the Radical outlaw who disgraces the Gubernatorial chair of th Vet in spite of all these things the gallant Democracy rallied to the polls, and won a great victory. All honor to them. They were no doubt joined by many who have heretofore voted the Republican ticket. If th whole country has good reason to re joice; for the defeat of Rudicalism in North Carolina is the downfall of incipi ent despotism.
