

San Domingo Job Again.

When Grant's friends were informed that he would have no policy, and for some time he seemed likely to keep his promise. He accepted presents, rewarded his benefactors by clearing them out of the treasury, and provided fat offices for all his numerous relations. The very first intimation which the country had of the departure of the President from his policy, of having no policy, was a very earnest recommendation for the ratification of a treaty which had been prepared for the purchase of San Domingo. At first this scheme excited no opposition within the ranks of the Republican party. The President at once began to solicit support for it among the members of the Senate, and among others whom he approached was Senator Sumner.

Believing that the election yesterday in the First District was one of the most important in the history of the Commonwealth, we determined to lay before our readers a full and complete account of the same. Securing the co-operation of the gentlemanly telegraph operator here, we were enabled to obtain a full and complete account of the same.
