WEDNESDAY, JANUARY 11, 1871. The Governor's Message. We laid before our readers last weel the Annual Message of Governor Geary. It is a lengthy document, treating of a great variety of local affairs, and giv-

ing the views of its author upon national matters. The Governor shows that the finances of the State are in a sound condition. \$6,592,747 of the State Debt having been paid off since January 1st, 1867, the average annual reduction being \$1.648. 187. He suggests that the bonds now in the Sinking Fund, amounting to nine and a half million dollars, shall be sold and the proceeds applied to the speedy extinguishment of that amount of debt. The people of the State will approve of that suggestion, and will not receive with favor any attempt to transfer these bonds to the coffers of a gang of Railroad speculators. The Governor is likely to have a chance, this winter, to veto the nine million steal again, and he is pledged to do so by the language of his essage. A heavy pressure will be brought to bear upon him by the friends of the measure, but we hope he will prove relentlessly resolute. Should this be applied to the extinguishment of this amount of debt, the liabilities of the

State would be reduced about one-third. leaving \$21,500,000 still outstanding. Under the present rate of taxation and income, the whole State debt could be wiped out in eight years, or the rate of taxation for State purposes might be reduced if it should be considered desirable to relieve the people, and to extend the time of payment.

The Governor favors a Constitutiona Convention, and he adduces eleven consecutive and carefully numbered reacalled. We agree with him in most of his suggestions upon this subject. They are not new or original, having been al ready discussed in the newspapers, but they are none the less sound on that account. He urges the Legislature to make a fair and impartial apportionment of the State. If that is not done at the present session it will be the fault of the Radicals in the Lower House, any fair bill.

The Common Schools and the Soldiers' Orphans' Schools are spoken of at length. The Governor forgets, however, o inform the Legislature why he keeps Col. McFarland in the position of Su-

The Democratic party has made most valuable acquisitions in the past. Under its rule the vast region embraced under the title of Louisiana was purchased from France for the insignificant sum of fifteen mi lions of dollars. The Louisiana territory embraced not only the State of that name, but all French territory lying west of the Mississippi, The Democratic party annexed Texas and acquired at a omparatively small expenditure a vast Mexican war, embracing the great de posits of gold and silver in California and the adjacent regions. The Demoeratic party has always made good ns for the people when it went into the real estate business. Alaska with its icebergs and its few frostbitten savages is all the Radicals have acquired, and no one doubts that there was a huge job in that transaction. Grant is bent upon the acquisition of San Domingo, with its deadly climate and its sparse population of lazy neto make an immense sum of money out of the transaction. It is a pity the Democrats are not strong enough in the t once. The best they can do is to fillibuster against it with the hope of delaying a decision until after the end of the present session. If that can be accomplished, there will be an end of the dirty job.

Both branches of the Indiana Legis-

Authorities, is bold and uncompromising. He felt that the dignity of his office was lowered and the honor of the State and the rights of her people violently assailed, when United States troops were marshaled under arms at the polls in the city of Philadelphia.

What Governor Geary says upon this important question, is well said, and we repeat that we are glad to see certain of the more reputable Republican news, papers of the State, standing squarely by him. Few have dared to dissent from by him. Few have dared to dissent from by him. Few have dared to dissent from the views expressed in his message, and the Philadelphia Post, so far as we have seen, is the only journal in the Commonwealth which has had the hardihood to condemn him.

HARRISHURG, Jan. 5. There was little of interest in the proreedings of the Legislature to-day. Several veto messages from the Governor were read in the Senate and his vetees sustained. A resolution was adopted granting to each member Purdon's Digest and a copy of Zeigler's Manual, and to each new Senator Beltle's Digest. Several bills were introduced and laid on the table until the committees are formed. A special committee was appointed to determine where Rothermel's picture of the battle of Gettysburg should be placed. The Senate adjourned until Tnesday next at 3 o'clock P.
