of provender, can be better kept on three-fourths of the hay they would re- quire without the provender, and in the sping look much better. Milch cows a sy sately be made to give a good flow of milk down to within six weeks of calving by feeding once or twice a day with warm swill; stir in shorts of some kind. Indian meal is good as is wheat tran. It is a mistaken idea many farmers have of selling off their potatoes in the tatt and not feeding them out to young stock. Potatoes, next to hay, are indis- prousible as feed for nearly all kinds of stock; coits, will thrive much better with a few potatoes now and then; and boiled potatoes should be fed to sheep, in small quantities, in early winter. Study well the many ways and methods of caring for stock in winter, when it is the time for the improvement of what will prove so beneficial to brother farm- ers. Do not look upon caring for stock as a light, uprofitable business, for if farmers wish their stock, which they are so dependent upon, to do well, they must first pay good and careful attention to it, and in the end they will be re- warded for so doing. <i>Boston Cultivator</i> . Take one pound of bittersweet root, one and one-third pounds of tobacco bod in chamber lyc; add one pound of 1 od; simmer down to a salve. Shave t.e hair off between the horns; apply on the head, rubbed on well; put two thicknesses of woolen cloth from hornto horn. Have cured cattle that had not been able to get up in four days; also garget in cow's udders, chapped teats for any kind of sores. Apply a little to horses' ears, and the fires will be re- gress ming to a stable, or where it can be held, and take a mid dle-sized ginhet and bore through both horns on the under side, about two inches for where it can be held, and take a mid dle sized in the more to cases : My	g through of claims in the mannier in they are put through, without the itselfknowing what it was doing. above is the regular Associate Press at of what was said and done by Mr. in exposing this gigantic swindle.— in exposing this gigantic swindle.— is additional light in upon the dark it appears to be one of the most glar- ing the experiment of the swindle.— is the closer of last session Mr. Cessma, Member of Congress from its the close of last session Mr. Cessma, Member of Congress from its the close of last session Mr. Cessma, Member of Congress from its the close of attorney.
