

CHARGE OF TURCOS AT CHARLEROI LIKE "HELL LET LOOSE"

Germans Fall Like "Suffocated Wasps" Before the Terrible Onslaught of Africa's Dark Warriors.

PARIS, Sept. 17.—The reckless bravery of the Turcos, the black troops that France has called to the front from Africa, is the theme of many a thrilling tale.

An officer of Zouaves, who took part in the magnificent charge of the dusky African warriors at Charleroi and was badly wounded, thus refers to the fight: "You could not if you tried exaggerate the amazing bravery our fellows showed right up to the jaws of death."

"Suddenly our colonel cried, 'Give the Turcos free rein.' The avanguard began to move like hell. For hours they tore along the enemy's batteries for a full mile. The Prussian guard was extended over about a thousand yards. As the charge continued the bayonets of the 'Marseillaise' but one command could hardly hear the other. On they dashed, however, till they were within perhaps fifteen yards when the batteries in the second column fired, and they would have mowed down their own guards."

"Then the bloodiest of all bayonet charges began. While one man was trifling with a huge Prussian and could not for the moment release his bayonet he would cut with his pistol and shoot another. While a comrade by his side would be hesitating his foe with the butt end of his rifle. So mad was the combat that many of our men got hold of the noses of the Germans with their teeth. Giants though these picked warriors of William are, they are little children before these terrible men. They fell like suffocated wasps. Dead splashed everywhere. I think I shot a hundred with my own revolver. In the end, as you know, the remnant, utterly exhausted, lay on their backs, arms and legs for their lives. You can guess how many escaped."

Another Frenchman, who is with several Englishmen in the hospital at Charleroi, tells the following story: "It was in the battle in the woods of Charleroi. This is sure death and may as well as the bullets struck the ground from above. It was raining from heaven. We were out of our senses. I saw sharpshooters who kept a whole regiment of Germans at bay. They are like as devils, and when the Germans see them with their eyes blazing from their rifle faces they take to their heels like rabbits."

McCORMICK IN HIGH SPIRITS OVER HIS INDORSEMENT

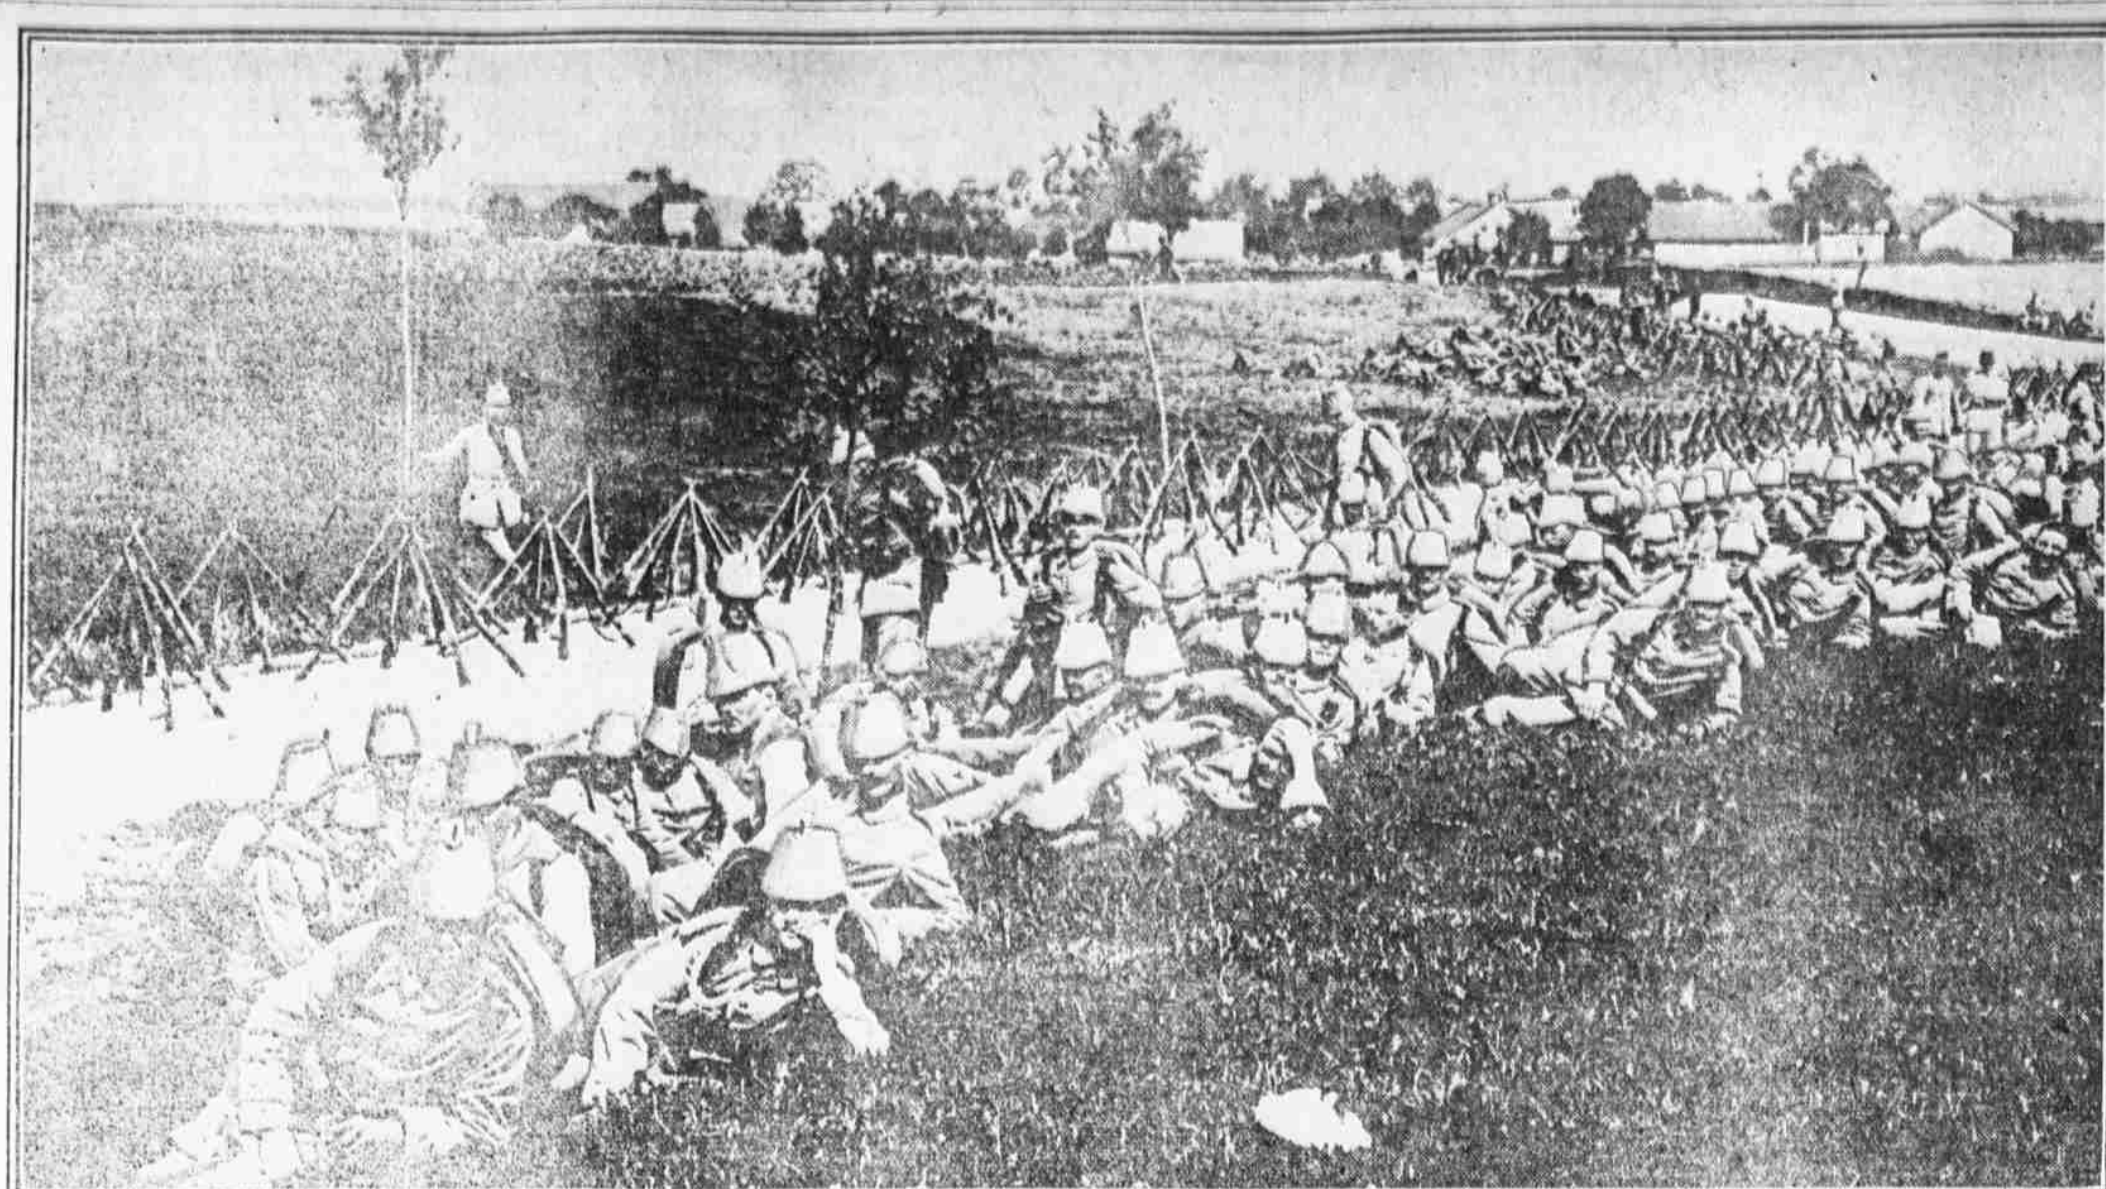

Fusion Candidate for Governor Believes Chances of Election Improved.

HARRISBURG, Sept. 17.—Mr. McCormick, more confident than ever of his success in November now that he is the gubernatorial nominee of the Democratic and Washington tickets, left here this morning for Scranton to be present at the meeting of the State Federation of Democratic Clubs.

Mr. McCormick received a rousing cheer of welcome when he began his speech of acceptance with the word "Fellow Progressives."

GERMANY'S FLEET AND HER HARBORS IN THE NORTH SEA

Unsuitability of Coast Main Obstacle to Naval Development of Kaiser's Nation. Many Strong Fortifications.

In the task of building up the formidable fleet which is now being assembled in the immediate neighborhood of the sea, Germany has encountered no more serious and costly obstacle than the unsuitability of her North Sea coast for the use of a modern navy, except the naval aspect of the London Treaty.

Ships themselves were small, constructed by primitive standards, and the necessary separation of policy. "The Kaiser's fleet was not built on a policy of modern naval science," says a recent volume, however, and notably the advancement of the admiralty has led to a displacement of 20,000 tons or more, have thrown a very considerable strain upon the German finances available for naval expansion.

To take only one instance, the Kiel Canal is used but little by large ocean-going liners, or large passenger liners, or other putting them into business of the world. The West coast of Germany is not a peninsula, but a narrow strip of land, and the only other naval base on the North Sea coast is at Brunsbüttel, at the entrance to the Kiel Canal.

The Kiel Canal confers certain strategic advantages on the German navy, but its existence is a constant reminder of the fact that a minority of the German people would not support a policy of naval expansion.

The money spent on the German navy has not been used in the most judicious manner. The British services these services are invariably referred to as "unconquerable navies" and the reason is that the largest concentration in the town has been very largely increased, while the railway communication with the military centers has been neglected.

Further, moorings for a number of torpedo craft have been laid in the river, and although a fleet is not ordinarily stationed there it is obvious that the harbor could be transferred from Wilhelmshaven, swimming either behind the Prussian islands or through the Ems-Jade Canal, connecting the two places, which is believed to have been enlarged quite recently so as to admit the easy passage of torpedo craft.

WAR WILL EXPAND U. S. INDUSTRIES, LANE BELIEVES

Direct Benefit to the United States From the European Conflict Is Seen by the Secretary of the Interior.

WASHINGTON, Sept. 17.—A direct benefit to the United States from the European war will be the effect in making the people of this country realize to a greater extent the value of their natural resources, said Franklin D. Lane, Secretary of the Interior, in an interview today.

It is possible to go into these resources and expand our industries that the food supply of the world is now dependent upon the production of foodstuffs, and we have cause for self-congratulation in the United States that we are able to feed ourselves. What is possible to go into these resources and expand our industries that the food supply of the world is now dependent upon the production of foodstuffs, and we have cause for self-congratulation in the United States that we are able to feed ourselves.

Gridiron News

Harvard CAMBRIDGE, Mass., Sept. 17.—With the view to separating the varsity squad from that of the second team the Harvard coaches paid special attention to individuals yesterday. Unlike the varsity men will be picked, so that on Monday scrimmaging may start in earnest.

Princeton PRINCETON, Sept. 17.—A 2-minute scrimmage yesterday afternoon gave the Tiger football candidates their first lesson. Two teams were chosen by Coach Penfield and Captain Bell's seven was victorious by a score of 12 to 0.

Michigan ANN ARBOR, Sept. 17.—Half the Michigan veterans are on the second string at present. Captain Barnhart at center, Lyons at right end, Huggitt at quarter back and Galt at half are the only monogram men holding their old positions.

Cornell ITHACA, Sept. 17.—A series of hard scrimmages featured the Cornell football practice yesterday afternoon. One of the surprises of the day was Coach Sharpe's placing Shuler, who played at halfback a good share of the time last year, at quarterback on the second team.

Carlisle CARLISLE, Pa., Sept. 17.—The Carlisle Indians started their football training table yesterday afternoon. With the unexpected return to school of Captain Elmer E. Hines and the division of the squad of 20 men into the usual varsity and scrub teams, which, however, are not selected permanently, no completed plays will be used.

West Point WEST POINT, Sept. 17.—Though the Army's practice yesterday was by far the most strenuous yet held, the terrific physical training is not yet at an end. The West Point football squad is taking early chances that will tend to make early injuries. The line today looked good with Maclean and the new man, Humber, looking like they will be the mainstay of the team.

Annapolis ANNAPOLIS, Sept. 17.—The squad of new men who are out for the Naval Academy football team were increased to 25 yesterday and the pace was increased to some extent. 20 out of the time was devoted to sending the end-down under the line and other preliminary work.

St. Rita's ST. RITA'S, Sept. 17.—The St. Rita's basketball team has been called together, and a start for the coming season will be made in a few days. The club will have the entire line-up of last year, including O'Neill and Doners, forwards; Ward, center, and McBride and Sennion guards.

Chinese to Close Season Here Roy Thomas announced yesterday that the Chinese would appear again Saturday at the Stetson A. A. Ball Park. This will be the last appearance of the Hawaiians in this city this season, as they will be to move homeward within the next week.

INMAN SHOWS FINE FORM NEW YORK, Sept. 17.—Melbourne Inman, the champion at English billiards, showed that he is a master at the game in Maurice Daly's Academy last night when he played an exhibition match with the Canadian star, Pev. The Englishman ran out his 800 points while the Canadian was struggling 100. Inman completed the game with an unfinished run of 12 in the nineteenth inning.

STEEL MAKING GOOD MUELENBERG, Pa., Sept. 17.—The work of Steel, West Philadelphia High's prominent in yesterday's practice of the Muehlenberg team. Steel will get a thorough trial at the quarterback post, for his exceptional speed will be a big asset to the backfield.

BIG OIL TANKER GULFSTREAM JOINS MERCHANT MARINE

Launch at Yards of New York Shipbuilding Company Witnessed by Cheering Multitude.

Miss Agnes Haig, daughter of Robert Haig, representative of Lloyd's Shipping Registry in this city, smashed the ribbon bedecked bottle of wine upon the prow of a new oil tank steamship at the New York Shipbuilding Company's Camden plant shortly before noon today and christened it the Gulfstream for the Gulf Oil Company.

Chiefs of the multitude of employees perched in perilous position about the company's various shipways, and the applause of the assembled guests mingled with the shrieks of the sirens of vessels on the river and factories along its banks in welcome to the new addition to the American merchant marine.

ST. RITA'S FIVE READY Entire Team of Last Year Will Represent Club.

The basketball players of the St. Rita's Catholic Club have been called together, and a start for the coming season will be made in a few days. The club will have the entire line-up of last year, including O'Neill and Doners, forwards; Ward, center, and McBride and Sennion guards.
