PULITZER ESTATE

SHOWS INCREASE

OF TWO MILLION

NEW YORK, Sept. 23 .- The report of the reappraisal of the estate of Joseph Pulitzer, ordered by Surrogate Cohalan, was submitted yesterday to the Surrogate's Court by Transfer Tax Appraiser Josoph I. Berry.

The report shows that the gross valuation of the estate has been increased from \$18,526,116 to \$29,355,985, and the net from \$15,543,484 to \$18,637,545, a net increase of \$1,791.061. The estimated amount of the total tax is \$335,000. Before the first appraisal \$410,000 was paid into the State Treasury in order to take ad-vantage of the 5 per cent. rebate, so there will be a refund of approximately \$75,000. In order to get at the actual value of the Associated Press franchises held by the Press Publishing Company (the New York World) and the Pulitzer Publishing Company (the St. Louis Post-Dispatch), and to estimate the good will of these two

newspapers, owned by Mr. Pulitzer, much testimony was taken. After showing that there had been no chauge in the appraisal of the real estate fixed in the original report at \$3,278,000, Mr. Berry placed the value of 3900 shares of the Press Publishing Com-pany stock at \$3,267,681, or \$654.73 a share, and the value of 9164 shares of the publics. Publishing Company stock at Pulltzer Publishing Company stock at \$2,677,252, or \$202.15 a share. In thus ap-praising the stock, Mr. Berry states, he has added to the appraised value of the corporation's tangible property a "good will" value consisting of the value of Associated Press memberships will. In the original report the franchises were not valued as such. The appraisal is arrived at in part by

taking the average annual earnings for four years preceding Mr. Pulitzer's death as a basis for capitalization.

One hundred and twenty thousand dollars is allowed as an expenditure for bonuses to employes. The appraiser also considered the restrictions upon the sale of the stock of the Press Publishing Com-pany inserted by the decedent in his will. In appraising the value of the Press Publishing Company the average an-nual net earnings are set at \$541,330. These deductions are allowed: Sixty per cent. of increase in the cost of white paper, \$219,609: allowance for decedent's services, \$100,000; 6 per cent. on capital invested, \$121,350, and 6 per cent. on value of Associated Press franchise, \$25,800. The total reductions are thus \$460,150, and the average net earnings as a basis for 10 per cent. capitalization, \$\$1,150. The good-will, originally appraised at \$1,900,000, is brought down to \$\$11,802. The

appraised value of assets over liabilities is \$2,622,514, as in the original report. This \$1000 par value, and makes the total value \$3,207,671 gross and \$3,267,081 net. The appraiser states that the average annual net earnings of the Pulitzer Pub-lishing Company for four years were

\$408,450. The average net earnings, less deductions, are \$196,411. Under the new appraisal the total personal property is valued at \$17,077,985. This, with the real estate, valued at \$3,278,000, makes the total \$20,355,985 gross.

CENSORSHIP ORDER

tion, Which Sent Message to Belligerent.

MARCONI TO TEST

WASHINGTON, Sept. 23 .- Secretary of the Navy Daniels today faced an injunction suit from the Marconi Wireless Telegraph Company to test the naval wireless censorship. Officials believed a test suit in the Federal courts of authority to invoke wireless censorship was inevitable. They were also confident that the result would be favorable to the Government.

Secretary Daniels' ultimatum to the Marconi Company, with a threat of seizure of its Sinsconset, Mass., high-power transatlantic station, expired today. Failing to receive an explanation demanded from President John W. Griggs, former United States Attorney General, of transmission through the station of an alleged partisan message ten days ago to the British cruiser Suffolk for provisions, Mr. Daniels today planned an order of seiz-

ure by navy wireless officers, possibly reinforced by marines, of the Massachusetts plant. Whether the Marconi company would anticipate the selzure order by filing an injunction suit and prevent closing of

the station, pending hearing on an application for a temporary restraining order, was the technical legal doubt in the situation today. It was also undetermined whether the suit would be brought here, or in the New York or Massachusetts Federal courts."

Before taking final action today, the Secretary conferred with Attorney General Gregory and State Department officials regarding a request by the Marconi company to suspend action until the legal papers can be filed for the court test. The case of the Government rests upon the contention that, during the war, this is a "time of public peril," when the President as commander-in-chief of the army and navy, may issue and enforce such neutrality regulations as he sees fit. That of the Marconi company is that there is complete absence of law giving the navy censorship authority. It also denies that the message to the cruiser Suffolk violated neutrality

NEW YORK, Sept. 23.-The Marconi Company today announced it is preparing papers for a suit in the Federal courts to determine by judicial decision the contro-versy between the Navy Department and the Marconl Company over the Slasconsett station.

In a statement issued today, the Mar-coni Company contended that it has in no way attempted to evade the neutrality laws. The statement, in explaining the controversy, says:

controversy, says: "The message from the British cruiser Suffolk, so much criticised by the Navy Department, was one addresses to a pri-vate person in New York asking that fresh beef, potatoes and newspapers be sent to the Suffolk on the high seas. This would be no more a violation of neutrality than would the hipment of guns

ammunition, powder, flour and wheat to any of the countries at war." The Marconl Company emphasized the fact that it is "an American corporation and that for the Navy Department to Baptist Church, hamper its commercial business is to deny Americans of their constitutional rights."

WASHINGTON, Sept. 23. - When the Federal Reserve Board met today it was with the confident expectation that the so-called gold fund circular would finally be approved and ordered to be sent to the clearing houses in reserve and central resorve cities before night. The circular calls for subscriptions to

a gold fund of \$100,000,000, to be deposited with the branch of the Bank of England at Ottawa, Canada, in order to relieve the foreign situation. It had been intended to mail this out

the clearing houses yesterday, but it was necessary to make some changes h phraseology.
