TALK OF EXCHANGE OPENING STRONGEST SINCE WAR STARTED

Conditions So Much Better That Six Weeks Hence May See General Resumption of Active Trading.

With the passing of another week there has come a brightening in the financial skies which forecasts resumption of normal conditions earlier than has been generally looked for. The most important step in this direction, and one which has had a material effect in strengthening the situation everywhere, was the decision of the New York Stock Exchange Committee to permit trading in unlisted securities at moderate con-cessions from the closing prices as of July 30, the last day on which the ex-changes of the country were open. The original restriction about not per mitting sales under those prices was made so as to prevent, as far as pos-sible, the liquidation which, it was generally believed, was to be expected be-cause of the war situation abroad. This rule continued in force for more than six weeks. In the meantime, there has come a satisfactory clearing of the foreign debt situation and danger of liquidation, while it is still apparent, is not so pronounced as it was when the order to close the exchanges was given. A wave of optimism said to be develop-ng throughout the United States gave rise today to the impression that the way is being cleared for the reopening of the New York Stock Exchange, the

institution, by November 1, provided the Federal Reserve Bank is working by The announcement that dealings in untisted stocks at moderate concessions is believed as the first step that ultimately may lead to the resumption of regular business on the exchange.

esolidated Stock Exchange and also the Cotton Exchange. It may be possible to reopen them, especially the first named

Officials of the exchange are feeling out the financial sentiment of the country. are also sounding the loan situation and testing the investment demand It is said the financial machine is beginning to move, and that the situation is beng developed under careful treat-

Bankers here today expressed the opinion that the steps taken by committees here and in New York that have been formed to supervise the trading situa-tion would do much to afford relief to financial conditions generally. The fact that trading may now be done in stocks and bonds not listed on the exchange at prices a few points below the July clesing, when approved by the commit-tees, makes it possible for issues to seek the new level bases that must be ex-pected when full resumption of trading takes place.

No one denies the possibility of a heavy offering of European securities as soon as the necessary mediums are made available for their disposal. Each day that the exchanges are closed, however, lessens the amount of foreign selling that may

The present war crisis is teaching Americans the advantages attached to a central bank in a country's financial system. The efficiency and resources displayed by the Bank of England, in handling the situation in Great Britain, commands admiration everywhere.

FINANCIAL BRIEFS

scribed. This statement was made today by Levi L. Rue, chairman of the Clearing House Committee. Mr. Rue said that re-plies were still coming in from institutions to which the letter of the Clearing House had been sent asking subscriptions and that more replies were expected, as in some cases the directors of the institu-tions had not yet met to act on the C. A. Highee, secretary of the Tonopah

Mining Company of Nevada, today sent a letter to stockholders explaining the company's interest in the Panama Mining Company. The letter says that the Tonepah Mining Company has an option on the property of the latter company, which is located in Nicaragua and has until next February to decide whether it will take the property. In case the option is exercised a new company, to be controlled by the Tonopah Mining Company of Nevada, will be formed to take title to the property and operate it.

W. L. Abbott, of Pittsburgh, has been elected president of the Southwark Feundry and Machine Company, at 430 Washington avenue. Mr. Abbott suc-ceeds H. DeH. Bright who resigned several months ago. The company is operating about 25 per cent. of capacity at

Holders of the collateral trust 41/2 per-cent, bonds of the International Morchantile Marine Company, interest on which has been deferred, have formed a protective committee. The committee is beaded by Otto T. Bannard, president of the New York Trust Company. The trust company has been named as depository.

The Bank of England bought £14,000 in ber gold and £746,000 in United States

The date for the second payment amounting to \$67 on Southern Pacific subscription receipts has been extended from October 2 to November 30.

e rates for money at financial centres to-were quoted as follows:

RAILROAD EARNINGS ARE SMALLER THAN YEAR AGO

Decrease for First Two Weeks of September Was 6.3 Per Cent. Railroad gross earnings continue to show a falling off from a year ago, the total of all roads making weekly returns

on which there is sill a substantial increase. In the West and Southwest there is, however, some evidence of improve ment, although most of the leading sys-tems continue to make smaller returns than in 1912. The losses in many in stances, however, are much smaller than a short time ago, and in several instances moderate gains are reported.

BANKERS PROTEST SECRETARY M'ADOO'S CHARGES OF 'USUARY

Criticise as Unfair His "Blacklist" Enumerating Banks Charged With Hoarding of Currency Re-

Protests from bankers against being held up before the country as "usurers" and as being guilty of wilfully creating financial stringency by alleged hoarding of currency reserves began to reach the Treasury Department today. Some of the letters used vigorous terms in criticising Secretary McAdoo's campaign against hearding and his publication of so-called "blacklists" enumerating banks having surplus of legal reserves.

That they would be subject to sever criticism had they failed to maintain ample reserves under present conditions was the tenor of the bankers' protests. For protection of themselves and their depositors, the protesting bankers contend. it is only prudent to maintain more than the minimum legal reserves during the war situation.

Despite the bankers' protests, Secretary McAdoo today evidenced strong inten-tions of continuing his campaign against money hoarding. Occasional additions to his "blacklist" are planned. He is re-ceiving many letters commending him for "showing up" the banks guilty of hoarding and demanding excessive in-terest. Some of the letters cite instances of alleged extertion and refusal of credit. State banking commissioners of many States are also promising co-operation. The list given out by Secretary McAdoo enumerated some of the national banks in each State of the Union which are

carrying reserves largely in excess of the legal requirements, as shown by their reports to the Comptroller of the Currency as of September 12.
"Each one of the bunks in this list is required by law to carry a reserve of only 15 per cent. The reserves they are holding range from 25 per cent. to 74 per cent. If the large amount of loanable funds that is kept from active employment, as indicated by these figures, was invested in commercial or agricultural paper, or loaned on proper security, the Philadelphia's share of \$8,000,000 to the present situation would be greatly improved," said Mr. McAdoo.

exchange situation has been oversub-

were included in the initial list. SENATE "SLUSH FUND" INQUIRY GOES OVER

Resolution Aimed at Penrose and Sullivan to Have Further Consideration.

WASHINGTON, Sept. 28.-The Senate Committee on Privileges and Elections today failed to reach any conclusion on the Norris resolution providing for an investigation of the expenditures in the recent senatorial primaries in Pennsylvania and Illinois, and took a recess until next Wednesday,

Carl S. Vrooman, of Illinois, Assistant Secretary of Agriculture, was again before the committee in connection with the charges which have been made against Roger Sullivan, the Democratic nominee for the Senate in Ilinois. It had been expected that some Pennsylvanians would be on hand to testify that Senator Penrose, the Republican nominee in that State, had spent an excessive amount in his campaign, but they did not material-

Following the meeting, Senator Kern said an opportunity would be given by the committee to persons making charges against these candidates to make good.
"We will hear any persons who wish to come before the committee," said Senator Kern, "though, of course, the committee at present is not making an investigation, but merely passing upon the desir-ability of making an investigation." Senator Hughes, one of the Democratic members of the committee, predicted that the committee would not recommend an

sented to the committee in support of the charges made," he said. "Unless we get something more the resolution will not receive a favorable report."

AMERICA OFFERS BEST TRADE EXPANSION MARTS

Bank Says Chances Here Are Better Than Those Abroad.

The Franklin National Bank, in its October disest of trade conditions, issued today, says: "The larger part of the newspaper space devoted to commercial possibilities has been given over to the prospective increase of our South American trade. South American trade. South America imports approximately \$1,000,000,000 worth of goods a year and it is unlikely that this round. a year, and it is unlikely that this country could get more than one-fourth of the total under any conditions.

"Leading business men are of the opin-ion that the great trade opportunity for American manufacturers and merchants is in North America. Trade possibilities in Canada and Mexico are sarge, but the greatest possibilities lie within the boundaries of the United States.

'The total volume of all crops is satisfactory, and practically all of them are

finding a ready sale except cotton. Re will be necessary to manufacture our cotton in order to sell it, although it will be possible to carry a few million bales over until next year, as manufacturing facilities can harmly be extended sufficiently to take care of all of it."

GULF OIL COMPANY ORDERS ANOTHER BIG TANKER HERE

Craft 406 Feet Long, With Capacity of 2,205,000 Gallons.

Despite the handlenps under which shipping is laboring because of the European conflict, the Gulf Oil Company conamounting for the first two weeks in September to \$1,210,205, a decrease of 6.8 per cent as compared with the earnings of the same roads for the corresponding period a year ago.

Almost all roads in the South report more or less contraction, one notable exception being the Chesapeake and Ohio, on which there is still a substantial instream, recently completed by the Camden shippard for the oil company. The vessel will cost about a quarter million

Like her sister ships the new craft, as yet unnamed, will be 406 feet 6 inches in length, 51 feet beam with a depth of 39 feet 2 inches. She will have a capacity for carrying 2,205,000 gallons of oil in her 22 tanks. Her engines will be fitted to burn either oil or coal. A powerful automatic machine will enable her to tow barges in safety whenever necessary. The officers of the tanker will have spacious quarters.

MORE DIVIDENDS PASSED

Depression Due to War Causes Curtailment in Payments.

Directors of the Aurora, Eigin and Chiago Railroad have decided to pass the quarterly dividend on the common stock, which is usually paid about October 10. The regular payments of 3 per cent. per annum were made from October, 1907, to July last, The regular quarterly dividend of 11/2 per cent. was declared on the preferred stock, payable November 1.

The Porto Rico Railways, Limited, has passed the quarterly dividend on its common stock. The company has been paying I per cent.

The Shattuck-Arizona Copper Company has passed the dividend usually paid in October. Three months ago 50 cents a

Charles M. N. Killen, who for more than 30 cars had been engaged in the wallpaper business, died yesterday at his home, 47% Hazel avenue. He was Myears old and had been ill since the first of August. The widow and a son, Charles M. N. Killen, Jr., survive. Limited Speculative Interest Also Affects Prices. Marked Lessening in Sales From the Interior.

CHICAGO, Sept. 26.-Lower Liverpool quotations and limited speculative interest more than any, particular selling pressure on the market resulted in lower wheat prices here today. There is a marked lessening in the sales of wheat from the interior, particularly in the Southwest and West, and a good export business at Gulf ports at least. Exporters here continue reticent.

Investigation discloses that on the days when the board was unable to get its Liverpool quotations this week they were suppressed by the British Government it also develops that on those days the British Government bought wheat freely

n the United States. 'Incidentally it is learned through com-mercial channels that the making of the future market at this time at Liverproof largely in the hands of one man, and that the spot prices are the best present criterion by which to go. The receipts of wheat at Minneapolis and Duluth today were 1050 cars, against 1077 cars a year ogo; at Winnipeg 986 cars, against 1414 cars; at Chicago 346 cars, agains
