DEFEAT OF PENROSE URGED AS AN ISSUE ABOVE PARTY LINES

Popular Government League Says \$1,000,000 Has Been Raised to Send Him and Sullivan to Senate.

grats in the United States Senate, is urged in a statement issued last night by the National Popular Government teague, the president of which is Senator Robert L. Owen, of Oklahoma, chairman of the Banking and Currency Committe, and an Administration leader in

the Senate. The two men are derignated in the state ment as "a menace to popular government, State and national."

The league's manifesto, based upon representations made to it by dependable

citizens, declares: eitisens, deciares:

That the success of both Penrose and gullivan at the primaries was promoted by defective machine-made primary laws which deny the secrecy of the Australian ballot, militate against the freedom of the voters and permit skillful frauds to the voters and permit skill frauds to the voters and permit skill frauds to the voters and permit skill fra "That the success of both Penrose and be perpetrated.

"That if Senator Norris' resolution is assed by the Senate and an investigaon of these two primaries takes place, results will shock the nation.

"That an enormous sum of money, mated to be \$1,000,000, is ready to be ent if necessary to elect them to the mate, where, because of the peculiar rganization of the Senate, the rules would give each of them enormous in-"That both had behind them the sup-

ort, direct and indirect, of the special sterests in these States.

"That they both have been persistent emies for years of the popular govment system.

"We shall oppose Penrose and Sullivan cause we believe the election of these on, representing as they do in the pubmind the most typical and conspicuus examples of the sinister partnership etween bipartisan politics and the speial interests, would prove a most serius national blow to the doctrines of a overnment by the people.

"We, therefore, are of the belief that he issue transcends all party lines and but it is the duty of all good citizens to regard party prejudices and to unite opposition to all the alliances between soked business and crooked politics, which today threaten the very foundaons of government by the people. We at the moral and financial support of nds of progress throughout the nation we may be able successfully to aid people in their efforts to overthrow Micanism' in Illinois, 'Penroseism' in Pensylvania and the influence of the system at Washington."

In April, 1895, St. Luke's Church was in need of an endowment fund, and under the deed of trust then created the Pennsylvania Company agreed to invest all the trust funds in securities, and to pay the income in accordance with the directions of the vestry. At the time of the execution of the deed the church paid over to its trustee a United States bond for \$1000, \$335.35 in cash and later \$200 in cash. In 1898 St. Luke's was merged with the Church of the Epiphany. merged with the Church of the Epiphany.

By virtue of the consolidation the petitioner became possessed of a large endowment, amounting to almost \$600,000 and vested with the church building, real estate and other physical property, the latter formerly belonging to the corporation known as St. Luke's Church.

The court was informed by Attorney Roberts that the endowment fund is amply sufficient to insure the maintenance of the chruch and parish buildings on Thirteenth street, below Spruce.

James Wilson Bayard, who appeared for the trustee, submitted an answer, admitting the averments of for the trustee, submitted an answer, admitting the averments of the petitioning church, and Judge Ralston directed counsel to formulate a decree in accordance with the petitioners' requests for the court's approval.

A demand to order the unloading of A demand to order the unloading of the Norwegian trump steambouts Fram and Sommerstad, now lying in the Dela-ware River, has been filed with the United States District Court today by Ralph M. Bullowa, a New York atterney, representing the owners of the vessels, who do not propose to have them selved by warring powers by carrying supplies to German men of war off the American coast. The court has reserved an opinion. to German men of war oft the American const. The court has reserved an opinion. The dictagraph exposure of the destinations of the Norwegian steamsniph. Fram and Sommerstad, now at anchor in the Delawars fliver, has disclosed the system which made the violation of neutrality possible. Owners, agents and others are now rushing to cover. The expose was due to the efforts of Christian Moe, Norwegian Consul at this port, and Raiph M. Bullowa, a New York attorney. It was in Mr. Bullowa's office the dictograph was installed, prior to a conference between the mosters of the vessels, representatives of the Hamburg-American Line and officials of the Inter-American Company. Mr. Bullowa declares that the Inter-American Company had chartered the vessels and then rechartered them to the Hamburg-American Company. This is denied by Julius P. Meyer, director of the latter company, who asserts that his company has chartered vessels at various times to study stills of the line, but never has chartered vessels at various times to supply ships of the line, but never German cruisers.

German cruisers.

Upon the advice of Mr. Moe, Captain Axelsen, of the Sommerstad, and Captain Grinheim, of the Fram, consulted Mr. Bullowa, after notifying their owners, the A. F. Klaverness & Co., of Haugesend, Norway, and H. M. Wrangell & Co., of Christiania, Norway, Consul Moe's suspicion was first aroused by Captain Ayelson and Captain Grinheim.

consul Moe's suspicion was list aroused by Captain Axelsen and Captain Grinheim. They told him they were to sail under scaled orders and "things didn't look just right." They said that they were in duty bound to the steamship owners to carry the cargoes to their destinations, but they did not believe the owners knew anything about the shipment of supplies to German warships.

A few days later the captains told Mr. Moe that agents of the Hamburg-American Line had sent them offers of big bonuses for immediate sailings. This was during the time the masters of the steamships were awaiting advice from home. The advice came and told them to consult an attorney. Then the conference with the dictograph as a witness was ar-

action at the office of William J. Grand-field and Company, 308 Walnut stret, to-day. They are the local agents for the steamships. They declined to give the name or names of the persons for whom they were acting and further refused to affirm or deny that they knew the cartoes were meant for German cruisers. We will not discuss the transaction in anyway," was all that was said. The Sommerstad and Fram are two of

ix vessels with similar cargoes on lared from this port by Grandheld & Co. The first one was the Heina. which left on August 6 estensibly for La Guayra. It was reported that she had been captured in the act of delivering her cargo to a German warship. The Nepos sailed on August 22, the John Ludwig Nowinckel on September 2 and the Units on September 8. On their clearance papers their destinations were given as
