Bough, of Harrisburg. In his address at the meeting Dr. Bough said: "While the present war in Europe is said beyond description, yet I trust you sad beyond description, yet I trust you will not allow it to divert your attention from your duties as ministers. The crowned heads in the war zone believe in the supremacy of Christ, but they have a wrong conception of his religion. nust come to see that the victory of Thrist's Kingdom is not achieved through human might, or by the sword or can-non, but by preaching of energized morals through the Holy Spirit. When the war is over there will be but two great powers in Europe-one for aristocracy one for democracy. One will stand for the empires and the other for republic One will demand increased armament and the other will demand disarmament. Let the people rule-for if the people's will is carried out there will be no war. "I am thankful that President Wilson a man of peace and against armed con-let. The peace treaties recently signed

by the United States, England, France and Russia will consequently make war impossible. It is only a question of time when all the great Powers will enter into the same compact. afternoon by Secretary of State Bryan. Treatles of peace already have been signed with Great Britain, France, Spain and China and a score of other nations during the Wilson Administration. Secretary Bryan, in his talk with the EVENING LEDGER correspondent, added:

"It may also interest the public to know that Greece and Sweden have agreed to sign similar treaties, and I am hopeful that these new pacts, bringing the total up to 28, will be signed by early next week." Russia's manifestation of friendship for the United States expressed by the

signing of the peace treaty tomorrow

may lead to negotiations for a new treaty

f commerce and navigation between the two countries to replace the one abro-gated during the Taft Administration. This was the view of many diplomat ists and officials. The treaties provide for the submission of all disputes that cannot be settled by diplomacy to a per-manent commission for investigation during a period of one year, and are re-garded by the Washington Government as a practical safeguard against any sud-

en outbreak of war. Officials expressed the view that Rusia's reported modification of stringent egulations against the Jews because their loyalty to the Government in its struggle in the present European war might pave the way for an understanding or a new treaty. The former treaty was nounced by Congress and became inoperative January I, 1913, because it was interpreted by Russia as permitting the exclusion of American Jews from her dominions.

Neither Germany nor Japan has signified a willingness to sign similar pacts as yet, but the subject is under consid-

ELEVATORS DEFECTIVE, CITY INSPECTORS SAY

Thirty Owners and Agents of Proper-

ties Must Answer Charges. Thirty owners and agents of properties in various sections of the city have been notified to appear before Magistrate Elsenbrown Monday morning at 11 o'clock to reply to charges of operating defective and unsafe elevators in their buildings. The summonses have been issued as a result of inspections made by the City Burcau of Elevator Inspection, under the direction of Chief John R. Wolter. Wellknown business establishments are in-cluded in the list of alleged violators of the elevator regulations. Fines of \$50 and costs may be imposed on sub-stantiation of the charges. Since last spring 407 passenger and freight elevators have been condemned by the bureau inspectors. In some instances the elevators were allewed to re-

sume service after designated repairs were made.

The 30 sulfs that have now been instituted are declared by Chief Wolter to result from continued disregard of warnings on the part of the persons notified to place the elevators in safe condition. Consequently Chief Wolter submitted the list of owners and agents to City Solicitor Ryan to start action against them. The Law Department was also re-quested to take action for the Elevator Bureau against 103 persons alleged to be operating elevators without certificates. The fine in that case is \$50. Effort will
