FINANCIAL AND COMMERCIAL SITUATION AT HOME AND ABROAD—MARKET REPORTS

GERMAN SUCCESSES INFLUENCE BEARISH SENTIMENT IN STOCKS

Reported Fall of Antwerp, Bankers Say, Sets Back Date of Exchange Reopening-Trading Not Active.

News of the German occupation of Antwerp had an unfavorable influence on both private and public trading in Stock both private and public tracing in store Exchange and financial circles today, and sentiment showed a substantial degree of depression over this event. This change was most marked in the dealings in con-tinental exchange. Reichsmarks which, at the end of last week were offered at #1% without a nearby bid, were today in demand at \$2%, the offerings by foreign bankers having been withdrawn. there was an absence of supply of Dutch

Wheat on the Chicago Board of Trade was also strong. May option moving up over I cent and fractional gains were

made in corn and oats.

The demand for short term notes which was the most favorable feature during the past week flattened out, and there was also a cessation of buying of longtime listed bonds.

Most of the dealings in bonds has for some time been in the listed bonds, sales on some days through the clearing house amounting to about \$800,600, or about one-third the normal volume. New York city new loan issues were also easy, the 1917 bonds which on Saturday sold as high as 10314 yielding to 103.

It was general comment that the loss of Antwerp had set back the probable date of the reopening of the New York Stock Exchange. There was a fairly large gathering of members on the floor of the exchange, constituting what the brokers called a "clearing house of ideas," and some of the views expressed in that gathering were of an insurgent

One proposed scheme was that the exchange should open for two hours daily for cash trading, and a few of the mem-bers advanced the idea that the matter of resumption of business should be taken out of the hands of the governing com-mittee. These suggestions were ridiculed by the majority of those joining in the discussion, who insisted that the governors were working for the best interests of all, and there is little doubt that nine of ten members of the exchange approve all steps so far taken by that

Prices in the trading group on New street were at lower levels, with some pressure against Southern Pacific and free offerings of United States Steel at about the lowest praces so far reached in these outside dealings.

Business in stocks and bonds, listed and unlisted, was reported as fairly brisk in this city today, after the three-day holi-day. The business was chiefly in shortterm bonds and equipment trusts, as was the case during last week. In the stocks, Pennsylvania, Lehigh Valley. Philadelphia Electric and United Gas Improve-ment predominated. These stocks have been traded in more than any others for

the last ten days.

Banks are again getting back into the market for securities. This was noted the latter part of last week, but this week it is more pronounced, brokers say. Thus far the issues asked for by the Thus far the issues asked for by the banks are Pennsylvania convertible 3½s of 1915 and New York city notes. The former sold in this city today for 57½, up ½ from the last previous sale. There is no demand for local traction issues. The banks making the majority of the inquiries and doing the larger part of the business are country institutions.

Another indication of the better feeling

Another indication of the better feeling that is every day becoming more appar-ent is the easing up of the money market, principally in commercial paper, being the only branch in which any business is done to any large extent. Call loans are only made, generally, to brokers when their time loans have expired and

they desire to renew.

Good name commercial paper, with maturities of four and five months, has changed hands this week as low as 6% per cent. Last week paper bearing the same names brought 7 per cent, and in some cases 7th per cent., the former figure being the one at which the most business was done, however. Inquiries are being received daily from country banks, who desire to buy paper.

Opinions are advanced in banking cir-cles that the New York bank statement on Saturday will show a surplus instead of a deficit, as has been the case since the outbreak of hostilities abroad. Last week the deficit was cut down \$10,195,300, leaving a deficit of \$7.791,350. The preweek the item was reduced

Cash has been flowing from the interior into New York and this week the movement is continuing. This is what leads bankers to believe that the bunks will regain their surplus. If this is done will be the first week since the European war began that they have had a

WHEAT OFFERINGS SMALL. BUT MARKET STAYS FIRM

Developments in Europe Favor Heavy Requirements. CHICAGO, Oct. 13 .- Offerings of wheat

this morning were small and the market was firm. There was moderate buying by a few commission houses. The receipts at spring wheat points showed a further falling off, which gave promise of a let-up in the huge pressure, while developments in Europe were in favor of heavy requirements. Wheat at Paris was ic, higher and flour 1/2c, up. No quotations for futures were posted

at Liverpool today, but spot wheat showed an advance of 1d, to a decline

Corn was stronger on wet weather and lack of offerings. There was scattered purchasing by commission houses.
Oats were firmer with the other grains.
Offerings were light.

NOTES OF THE RAIL

Adams, sitting in St. Louis, has ordered the receiver of the Wabash Railroad to apply to the Interstate Commerce Com-mission and to the various State public service commissions for authority to in-crease freight and passenger rates.

Before the consolidation of the New York Central and Lake Shore can be con-summated the authority of several State commissions in western States is necessary, and it is the belief that the favorable action of the New York commission will lead other commissions to take similar action. Nothing can be done toward carrying the plan out until permission has been obtained from the commissions.

The Supreme Court of Michigan has upheld the right of the Michigan Rallroad Commission to fix the time when de-murrage charges on intrastate shipments shall begin and the regulation of the

A reduction of 81/2 cents per 100 pounds has been made in the rail rate on fir lumber from mills on the Pacific coast to nearly all common point territory in Texas. The new rate is 62½ cents per 100 pounds. 100 pounds.

The Illinois Public Utilities Commission has authorized the Illinois Central to is-euc \$13,348,100 joint refunding 5 per cent. bonds to refund money spent in the pur-chase of the Chicago, St. Louis and New Orleans Railroad.

FINANCIAL BRIEFS

Lumbermen in this city were notified officially today that the National Lumber Manufacturers' Association, at a meeting in Chicago, decided to establish a new department of interinsurance, to which members of the organization throughout the country will be asked to subscribe.

The Bank of England bought £20,000 in gold bars and £49,000 in United States

The issue of \$1,000,000 5 per cent. five-year notes of the Province of Ontario, dated October 1, are going well, according to reports from Montreal, where the loan is being handled by brokerage houses.

The underwriting syndicate which handled the New York Central refunding and improvement mortgage, series "A" 4'4 per cent. bonds, due 2013, are offer-ing the unsold balance of about \$8,000,000 at 89% and interest, yielding 5.03 per cent. The original price of the first block of \$40,000,000 in April was 95% on a yield basis of 4.70 per cent.

The plant of the Pittsburgh Plate Glass Company, at Sandusky, O., has been re-opened, a wage scale providing for an in-crease of 5 per cent, having been agreed on. Men were thrown out of employment

The output of the Rand Mines, in September, was 702,170 fine ounces, valued at £2,982,630. This compares with an output temper, was 702,170 fine ounces, valued at £2,982,630. This compares with an output of 711,917 fine ounces, valued at £3,024,037 in August and with 728,096 fine ounces, valued at £2,989,686 a year ago.

A sale of International Mercantile Marine 445s., on which interest was passed on October 1, was reported in this city today as having been made in New York at 29. This compares with the closing price of 43.

The gross earnings of the Keystone Telephone Company in September were \$111,125, increase \$3825; net \$56,772, increase \$4275; nine months' gross \$991,297, increase \$46,580; net \$500,582, increase \$38,470; net surplus \$369,610, increase \$33,464. 8. Pemberton Hutchinson and William

Fitler were elected directors at the Pennsylvania Company for Insurances on Lives and Granting Annulties today, suc-ceeding George F. Baer and William W.

Ivy L. Lee, executive assistant Pennsylvania Railroad, addressed the Pitts-burgh Chamber of Commerce this after-noon on the subject: "How Can We Re-store the Health of the Railroads?"

The seat of Alexander L. Crawford, on the Philadelphia Stock Exchange, hus been posted for transfer to Wilson Wolep-per. Both are members of the firm of Wolepper, Crawford & Co.

BETTER BUSINESS OUTLOOK

Bankers in Convention Believe Depression Is Disappearing.

RICHMOND, Va., Oct. 11.—Members of the American Bankers' Association, gathered here today for the annual con-vention, regard the business outlook as most encouraging, and believe that the financial depression due to the war is

disappearing
Cotton planters are urged to diversify
their crops by raising grain, berf, hogs,
cattle and sheep, so that they will not

CAR-RIDERS WOULD SAVE \$38,000,000 BY BETTER TRANSIT

Director Taylor Says Time Saved, Capitalized at 5 Per Cent., Would Net This Sum Yearly.

Director A. Merritt Taylor, of the Department of City Transit, has figured that one of the big assets that would follow inauguration of an improved transit system in this city, such, as is now planned in the proposed agreement between the municipality and the Philadel+ phia Rapid Transit Company, would be a saving of time to car-riders here, which, capitalized on a basis of 15 cents an hour at 5 per cent., would amount to \$38,000,000 a year.

"The program, as a whole," says Director Taylor, in an article in this week's Electric Railway Journal, "assures to the people of Philadelphia a splendid modern rapid transit system, operated in con-junction with the existing lines as one great unit, in a manner which will ren-der the public the greatest service at a

minimum reasonable cost. "It provides that the city is to own the new facilities and all their future net carnings excepting such reasonable payments as are allowed the operator, includ-ing 6 per cent. on the operator's invest-

ment.

"It assures to the city and the people the added prosperity and comfort which every such great constructive enterprise and added convenience brings; the cost will be slight, and furthermore the cost will be more than completely and generously offset by the 1-mill tax on personal property which has been turned over by the State to the city as a practical subthe State to the city as a practical subthe great increase in property values and therefore in tax returns which will accrue to the city treasury, and by the cancella-tion of the present exchange ticket charge on the public of \$800,000 per annum, which amount would have increased from year

to year.
"The indirect advantages must not be overlooked. Present and ever-increasing congestion will be eliminated. The city's growth will be accelerated. The efficiency of the population will be increased by time saved, which capitalized on the basis of 15 cents per hour at 5 per cent. would amount to upwards of \$35,000,000. would amount to upwards of \$35,000,000. The city's areas available for development will be so enlarged as to make comfortable and economical homes readily available to all, and undue congestion of population will be prevented.

"There has been a great world-wide awakening to the view that communities must collectively, for the good of all, undertake wider spheres of service, and that the community itself should retain.

that the community itself should retain, to a greater degree, the unearned increment in values which is created by the concentration of its own population and by its own activities. In Philadelphia there is an undoubted urgent need for additional and better transportation feeligations. ditional and better transportation facilities. Private interests cannot handle this proposition without municipal aid. No one can reasonably doubt that the comprehensive transportation system proposed will, in time, develop ample direct earning capacity, not only to carry itself, but actually to relieve taxation for other

PERU WANTS COAL

Consul Says Country Is in the Market for \$1,000,000 Worth.

Eduardo Higginson, Consul General of Peru, announces that his country is in the market for \$1,000,000 of American coal.

The fuel supply of Peru usually comes in great part from Australia and England, but export from these countries is now prevented on account of the war; hence Peru is compelled to turn to the United States.

Financially, Peru has been very close to England, her monetary and currency sys-tem having been patterned after England's. Senor Higginson urges American bankers to establish branches in his country, so as to facilitate the contemplated purchase by the creation of direct Peruvian credits here.

PROPERTY VALUES GREATLY CHANGED BY PARKWAY WORK

Neighborhood of 15th and Arch Streets Displays Ups and Downs in Assessments and Business Worth.

The neighborhood of Arch street from 15th to 17th has been a very busy locality in the year 1914 up to this date, the Parkway from City Hall to Logan Square, as plotted, 140 feet wide, passing Arch street at this point.

The operations take in the block from the north side of Filbert street to the south side of Arch street, also the south side of Arch street from 15th to 16th, then cluding the northwest corner of 16th street to 1613 Arch street, and portions of proper-

As the final line was only settled upon banker-William A. Law, vice presi- after many lines had been proposed, propdent of the First National Bank-is erty was held down in this locality ever expected to be made president of the since the matter came to the attention of the public Conditions made buyers unproperty owners, with a few exceptions, did not wish to spend money upon their holdings surely marked for destruction.

PIFTEENTH AND ARCH STREETS A notable example, however, to the contrary, was property at the southwest corner of 15th and Arch streets, No. 1500, which sold March 23, 1912, lot 22x143, for \$90,000. It was assessed in 1909 at \$55,000, and it is now only assessed at \$65,000. It has since been greatly improved, and from bringing in practically nothing, is now rented at about \$11,000 and is held at more than \$150,000. Other properties in the 1500 block on the south side, which will be entirely taken by the Parkway, have the same assessments today that prevailed in 1909.

The north side of Arch street, from 13th street to 16th, shows a very different situation. Properties assessed at \$50,000 in 1905 are now \$80,090; those at \$42,000 are now \$74,500, such as 1507-9 Arch are now \$14,000, such as 1507-9 Arch street. These two properties were owned by J. Clifford Wilson, who, May 18, 1914, also purchased 1505 Arch street, assessed at \$80,000, for about \$100,000. The three properties gave him a frontage of 74 feet 5 inches by a depth of 188 feet. He removed the steps and dwelling house features, and by three browners. He removed the steps and dwelling house features, and by three brownstone steps, a neat landing and steps inside, the floor is reached very easily. No fronts were put in and all arranged to conform; the interior adjusted to the needs of an office building which is called The Plaza, and is now a most satisfactory investment and increases the value of surrounding property besides showing what can be property, besides showing what can be done without pulling down or going to enormous expense.

On the north side of Arch street, be-tween 16th and 17th, a glance at the as-sessments will be quite worth while. The
