MR. PENNYPACKER SNUBS IT. In an endeavor to find out just how badly such an association was needed in this city of Brotherly Love (and the other kind, too), a reporter went to Samuel W. Pennypacker, who, from the wealth of experience which he must have gained on the bench, at the bar and in the guber-national chair, is considered an authority

on all these matters.

The former Governor and ardent advo-cate of reform divorce laws, though imin of a Democratic House and Senate | mersed in the accumulation of several days' work, stopped to express his dis-approval of such an organization. He stuck his eye glasses on vigorously frowned across the top of them, and then rapped out starply:

"Tut, tut, there are some things that it is best for outsiders to let alone and the love affairs of a man and a woman is one of them."

And because he really was provoked at the thought of a cold-blooded association during to interfere with a matter that is the express business of a certain little blind boy who wears wings and not much else, he would not say another word. Judge Patterson, on the contrary, though he agreed with Mr. Pennypacker that the less outside interference the home is afflicted with the happier it will be, was pleased to put forth some epirams anent the idea of the newly pro-osed Society for the Promotion of Family Happiness, and after thinking a minute r two, he spoke:

JUDGE PATTERSON'S EPIGRAMS. "The best sort of love insurance that

He expressed the belief that the no-license or local option movement would sweep through the country from the Gulf to the Lakes this coming election, with Ohio getting into line with a large vote against the liquor traffic. The addition of Ohio, he said, would give a sufficient number of States to warrant the proposed arrendment to the Constitution. Public Service Companies-all over the country-have installed the L. B. "Automatic Index" method of filing.

Massachusetts! Connecticut! Illinois! Michigan! Missouri! New York! Ohio! Pennsylvania! Rhode Island! Wisconsin! Vermont! In towns with less than 5000 population; in cities of more than a million.
