# FOOD PRICES SOAR AS WINTER DRAWS ON; MEATS LOWER

Butter, Eggs, Fish and Vegetables Higher-Fruits Continue Firm-Peaches and Plums Disappear.

Although there has been no real win ter weater as yet, the approach of that season is heralded by a decided advance in the prices of all market goods with the exception of meat. The most notable changes have occurred by such farm products as butter, eggs and poultry.

Strictly fresh eggs are quoted at from 48 to 50 cents a dozen, although dealers expect that with the arrival of Southern drop to 45 cents, where the local poultry dealers will be able to hold it when the end of the moulting season brings an increase in the supply of eggs from the help who are now enjoying a vacation. Colustorage eggs continue to sell for 28 o 33 cents a dozen.

Print butter has increased in price by 8 cents and is now quoted at from 42 to 48 cents a gound, while creamery roll butter is bringing from 38 to 40 cents a

CHICKEN CONTINUES HIGH. Chickens continue plentiful, although the price of stewing chickens continues at the high mark of 24 cents a pound, owing to the fact that dealers are holding their older chickens for laying purposes in anticipation of a shortage in the egg market. Broilers are quoted at 25 cents a pound and ducks at 25 cents. Turkey continues to be scarce thus far, although dealers differ as to whether or not this is to be a "good" season. At present spring turkeys are bringing from 32 to 35 cents a pound.

VEGETABLES SCARCE. In the vegetable market, corn and tomatoes have almost disappeared, the little remaining selling at extremely high prices, corn bringing 50 cents a dozen and tomatoes 35 cents a till. Sweet potatoes have increased in price from 25 cents a half peck to 40 cents and string beans from 25 cents a half peck to 35 and 40 cents, while lettuce is bringing from 5 to 12 cents a head. Other vegetables continue firm in price, potatoes bringing from 40 to 50 cents a basket, celery from 20 to 50 cents a bunch, according to size, and cauliflower from 15 to 25 cents each.

SEA FOOD HIGHER. The fish market has seen an increased price in certain kinds of sea food, or ing to the great number of severe storms that have been experienced by the fishermen of the Atlantic coast during the last 10 days. Weakfish are reported temporarily scarce and are selling at 18 cents a pound. Bluefish are selling at 20 cents and haddock at 12 cents a pound, while codfish has increased to 18 cents and rockfish to 28 and 30 cents a pound. Span-ish mackerel is bringing the unusual figure of 30 cents a pound and fresh mackerel 50 cents. Oysters are selling at from 60 cents to \$1 a hundred for stewing purposes and from 80 cents \$1.50 a hundred for frying. Lobsters are 35 cents a pound and scallops are quoted at \$1.25 a quart.

FRUITS STILL FIRM. Peaches and plums have disappeared from the market, but other fruits continue firm in price and of a good quality. Grapes are bringing from 15 to 20 cents a box, oranges from 25 to 40 cents a dozen grapefruit from 75 cents to \$1.25 a dozen, and the better qualities of seckel pears 35 cents a quarter peck. Apples are quoted at 75 cents to \$2 a basket.

NO CHANGE IN MEAT. No change has occurred in the meat market with the exception of hams. which have dropped in price until they are now selling at the unusually low figure of 21 cents a pound. No bad effects have been observed in Philadelphia as yet resulting from the quarantining of the Chicago stock yards, following the continuation of the hoof and mouth disease among the cattle, and it is thought that no increase in price will result if the hold-up lasts but four or ave days, for this city is well supplied at present.

Treasurer Reeves Reports Increase of \$975.26 Since Last Statement.

Contributions to the European war re-Hef fund totals \$20,229.37, an increase of \$975.36 since the last statement. While eash contributions are diminishing, women, old and young, and in clubs, are working with double interest in making garments.

By permission of the treasurer, Francis B. Raeves, branch societies have been spened in Johnstown, Newtown, Atlantic City and several other cities in this State and New Jersey, and reports show they are actively at work. A Red Cross branch has been formed in the Emergency Relief Committee and is doing splendid work. The Main Line Committee, which meets weekly at the home of Mrs. Daniel McQuillen, reports these meetings are snthusiastically attended.

### M'CORMICK OFFERS AID TO THE NEW GOVERNOR

Defeated Candidate's Newspaper Supports War "for the Right."

HARRISBURG, Nov. 5.—Vance McCor-mick will support Doctor Brumbaugh in his fight for a better government of Pennsylvania.

The Patriot, the newspaper of the de-

cated candidate for Governor, says in an oditorial today that it will "gladly sup-ort Dector Brumbaugh, as it would any ie in every sincere effort to secure loca ption, to clean out the Highway Depart ment, to enact a just workmen's compen-sation act, to provide laws that will do away with the curse of child labor and to secure the other needed reforms to which he is pledged,

'After My Vacation, I'll Be Back,' Replies Tammany Chief. NEW YORK, Nov. 5,-Charles F. Mur-phy, the Tammany chieftain, is not going

quit.
"Tell Mr. Mitchel I have my health and that after my vacation I'll be back," was his reply to the Mayor's comment that Mr. Murphy had nothing, politically

speaking, to live for.
"The result of the election furnishes proof that Murphy must go," said Mr. Mitchel. 'That has been a cumulative fact that ought to be plain to every one by now, I ascribe-the Democratic defeat to two things-first, the strong feel-ing on the part of the Democrats generally against the autocratic rule of the Democratic party in this city, and second, the division in the Democratic party in

the Sinte which resulted in the absence of leadership or of any clear program."
"Mr. Mitchel says that I am response that I am sible for the defeat in the State," said Murphy. "I said some time ago that my leadership was confined solely! to Nev York County. I accept full responsibility for what Manhattan did yesterday, but I won't accept responsibility for the State. While he is at it, why doesn't the Mayor hold me responsible for the defeat in the entire naetlon?"

# SIX LODGERS BURN, MANY SAVED WHEN FLAMES GUT HOTEL

From Upper Floors-Persons Leap From Windows. Some Reported Missing.

NEW YORK, Nov. 5.-Bix men were ourned to death and many were saved through thrilling rescues by firemen and police today when fire gutted the Waverly Hotel, a lodging house at 352 8th avenue. The six who lost their lives were burned to death in their beds or caught in the hallways as they rushed through flames in futile effort to reach safety.

The fire had swept away the stairways to the top floor of the structure before it was discovered and an alarm sent in. Firemen from hook and ladder company No. 12 performed gallant work in bringing a number of unconscious persons from upper floors down their ladders.

There seems small hope of ever identifying the dead. They are burned beyond recognition. Several are reported to have been injured leaping from windows. Fifty lodgers are thought to have been sleeping in the place. Some are reported missing.

Fire Chief Kenlen, who directed the fight against the flames destroying the lodging house, declared it was a veritable fire trap. It was a four-story building built 41 years ago and when the stairways were burned, the occupants had no chance to escape except by jumping.

The fire is believed to have been started by a cigar or cigarette "butt" thrown carelessly away by one of the lodgers The fire broke out on the second floor and was discovered by watchman Peter Kelly. He gave the alarm immediately, but before the occupants of the building could be aroused, the hotel was a fur-

"This was a typical New York lodging house," said the fire chief. "They call the sleeping quarters rooms, but they are nothing but stalls, even unfit for animals. A fire starts and within two minutes a whole floor is a furnace. The wooden partitions go up like tinder and the men have little chance for their lives. There are a lot of other lodging houses in the city just as bad. It is a wonder more not killed." were not killed."

#### **BRYN MAWR STUDENTS** APPEASED BY NEW RULING

Co-eds Can Now "Cut" Eight Classes Without Paying Penalty.

Modification of the "no-cut" rule re cently made by President M. Carey Thomas, of Bryn Mawr College, has been announced by the president as the result of a petition from the Undergraduate Association. Under the modified rule no penalty will attach to the first eight unexcused "cuts" of classes with certain provisions. The rule, in part, follows: "Cuts in excess of eight shall reduce the grade for the course in which they

are taken by two points for each such out. When the unexcused 'cuts' exceed 0 per cent, of the semester's scheduled lectures of any course, the penalty shall be four points for each additional cut." The new rule was preceded by a state-ment that "the faculty, after carefully considering the petition of the undergrad uate association, continues of the opinion that it is inexpedient to leave the regulation of attendance at classes to the student body." It then announces that for the year 1914-1915 the rule has been modified "in the hope that no large per-centage of the undergraduate body will avail itself of the number of cuts men-

Students are said to have declared their willingness to accept a cut rule similar to those at Harvard, Princeton and Yale. To this the faculty objected on the ground that Bryn Mawr is on a higher plane than the men's universities.

The undergraduates carried their trou-bles to the New York Alumnae, in annual meeting at the Bryn Mawr Club, New York city, last night.

> CHICAGO, Nov. 5.-The Union Stock Yards, the largest live stock market in the world, will be closed tomorrow afternoon at 5 o'clock and remain closed until Monday, November 15. The closing, which the Federal authorities have been trying to bring about for a week because of the possibility of the spread of foot and mouth disease, was finally agreed to last night by Governor Dunne. As the cattle, sheep and hogs now on hand are disposed of by the packers, the empty pens will be thoroughly scoured and disinfected.

### RIGID STEPS TAKEN HERE AGAINST CATTLE DISEASE

Infected Animals in West Chester Herd Will Be Destroyed.

To stamp out the threatened epi-demic of hoof and mouth disease among cattle in Philadelphia, United States Inspector C. A. Schaufler today went to West Chester, where infected cattle will be destroyed.

Rigorous precautions are being taken in the stockyards here, which are being cleaned and disinfected daily. The 42 carloads of cattle which arrived at the West Philadelphia Yards yesterday were examined today for traces of the dis-ease by Dr. E. C. Dingley and his as-sistants. As the Federal authorities have quarantined all cattle in Pennsylvania, as well as in Illinois, Ohio, Michigan and Indiana, no cattle are being shipped out of the State. Shipments within the State and consignments from States which are as yet free from the disease are sanctioned, but as an extra precaution the Government has ordered all stockyards disinfected and has pro-hibited shipments, except for immediate slaughter. CHICAGO, Nov. 5 .- An official count

Nevada have granted women the right of franchise, while Missouri, Ohio, Ne-braska and North and South Dakota refused to grant equal suffrage. In Montana, where workers of the

American Woman Suffrage Association made heroic efforts to win the ballot, the vote was so close that the official count will be necessary to decide the outcome, but the women have a slight lead on incomplete returns. Returns have been received from all towns where suffrage encountered opposition, and the measure is running behind less than 500 votes.
Only one-seventh of the total vote has

been heard from, leaving the result of about 60,000 votes still to be received. Miss Rankin, chairman of the Montana Suffrage Association, says the measure will carry by a comfortable majority. VOTE IN OTHER STATES.

The vote against suffrage in Ohio is estimated at 60,000. In Missouri suffrage was beaten by four to one in the cities and three to one in the rural districts.

In Nevada, which seems won to the cause of equal suffrage, 105 precincts out of 240 gave 3619 votes for woman suffrage and 2508 against.

The ratio of the female vote on the subject of prohibition in California and Washington has not been tabulated yet. Both these States voted for the first time to oust saloons. The California proposed amendment would have prohibited the manufacture of wines, an important industry in the State. The severeness of the proposed law is given by leaders of the Anti-Saloon League as a possible reason for the defeat of the nensure.

In Illinois the proportion of female to male voters in the Democratic, Republican and Progressive parties was about the same. The woman political leaders were mostly identified with the Progressive party. Figures in many precincts showed, however, that the percentage of vomen to men was larger in the Demoratic party than in the Progressive.
"The victory in Montana is highly

couraging: the defeats in the other States are not discouraging," said Mrs. Medill McCormick, who, as chairman of the Conressional Committee of the National american Woman's Suffrage Association, has headed the campaign. "Our success in Montana is due to our fine organization in that State. Lack of organization is largely to blame for our fallures."

#### WINNING TWO STATES PLEASES SUFFRAGISTS

Seven Electoral Votes Great Victory for "Cause," Says Doctor Shaw.

NEW YORK, Nov. 5 .- "Well, we didn't get the seven States we wanted, but we got seven electoral votes," Dr. Anna Howard Shaw said when the revised refurns from the West showed that Montann and Nevada had voted "yes" on the

suffrage amendment. "Montana has four electoral votes and Nevada three. That is an addition not to be despised to the 84 electoral votes nossessed by the States where women have the franchise now. If we've won Nebraska, and it's an even chance we have, that means eight more electoral votes. I call our Western campaign a

Doctor Shaw declared the time had come for suffragists to protect themselves by "forcing the hand of the antis" in the matter of "co-operation between the antis and the liquor interests." The National American Woman Suffrage Asso-ciation, she said, was hot on the trail of the antis henceforth.

Mrs. Arthur Murray Dodge bet \$10 woian suffrage would be defeated in New York State next year by 150,000 votes. The anti-suffrage victories in the Western States were not alone responsible for Mrs. Dodge's optimism. She said she had talked with many political leaders of New York State, who placed the anti-suffrage najority at 250,000. The question will ome before the voters of New York at he regular election next November.

Mrs. Dodge, as president of the na-tional association, replied to the state-ments of suffrage leaders that the antisuffrage association had accepted money from liquor interests to help their cam-"I'd rather have suffrage come in this

General Villa Moves Army Into Aguascalientes, and Constitutionalist Chief Flees With Cabinet.

AGUASCALIENTES, Mex., Nov. 5 .-Moving his army into the neutral city of Aguas Callentes, General Francisco Villa established this place yesterday as the temporary capital of Mexico. Delegates to the peace conference who represented Carranza were arrested by Villa's orders and are held prisoners. Martial law has been declared and Villa troops control the city and dominate the delegates to the convention.

Ordered by the convention to carry out its orders, Villa began yesterday the movement of troops to the south to establish General Guiterrez as provisional President in the permanent capital. The troop movement already has resulted in skirmishes with Carranza forces moving to the north to invade Villa territory. several sharp fights having occurred.

EL PASO, Tex., Nov. 5.-General Caranza has fied from Mexico City, taking with him the Government funds and acempanied by his Cabinet, according to information received here last night from Mexico City. Carranza, the reports say, has established his capital in the ancient city of Puebla and has gathered there all troops he could persuade to accompany him. General Gonzales and General Jesus Carranza, two of General Carranza's chief commanders, whose armies jointly number 50,000 men, are in Puebla with Carranza, and the city is being fortified for a siege. Villa has 20,000 men moving n Puebla.

In a speech made Sunday by Carranza at Puebla, he said:
"If the chiefs of the army should abandon me in this case, as a representative of the army, I will go into exile. But should they support me, as I confidently expect they will, I will fight to the bitter end."

The convention sermon was preached at the afternoon session by the Rev. A. Norman Ward, vice president of the Western Maryland College. His subject was "Exalt the Christ."

A song service this evening will be directed by Jacob T. Clymer. In addition to the address by the Rev. Francis E. Clark, president of the World's Union. William F. Corkran, of Baltimore, will speak and the Rev. George W. Dawson, of this city, will conduct a devotional service.

### DUPONT BOULEVARD PLANS

Delaware Legislature Expected to Amend Measure for Thoroughfare. WILMINGTON, Del., Nov. 5.-As soon as the Legislature meets it is expected that an effort will be made to have the du Pont boulevard law amended so that General T. Coleman du Pont may be in-duced to resume the construction of the \$2,000,000 road which he intended at one time to build and present to the State.

It is generally understood that the action of the Supreme Court of the United States in dismissing the case merely disposes of the present difficulties and that the way is open for any one to enter pro-oeedings and further delay the construc-

tion of the road. ELIGIBLE DRAFTSMEN WANTED
