### RUSSIAN WARSHIPS DRIVE TURK CRAFT **BACK TO SHELTER**

Black Sea Fleet Makes Speedy Dash at Foe, Who Refuses Fight-Petrograd Charges German Treach-

PETROGRAD, Nov. 5. The Russian Admiralty announced today that the Turkish fleet had been driven from the Black Sea and had taken refuge at its base in the Bosporus, refusing to give battle to the Russian war-

b- This statement was issued at the Ad-"miralty:

The Admiralty has ascertained that the Turkish fleet has concentrated on its base in the straits and refuses to fight the Russian Black Sea squadron.

"It is plain that the Old Turk party and the Sultanate are utterly dismayed by the promptness of Russia's military campaign.

"From Information that has reached Odessa from Constantinople it appears that the German cruiser Goeben sent a radiograph to Constantinople asserting that the Russians had made a treacherous attack upon Turkish ships. The Turkish Ministers, not suspecting that they were being entrapped into action by the Germans on the Goeben, held an immediate council and approved the defensive action which the Goeben reported it had taken on the following day. "When the ships returned to the Bos-

porus the whole fraud of the Goeben's report was established. "Jena! Pasha, the Turkish Minister of "Jena! Pasha, the Turkish Minister of Marine, examined the commanders of the ships separately. Their versions as to the place, time and number of the Russian ships during the alleged attack were contradictory. Meanwhile news arrived that the Bedouins had entered Egypt and the Forte fell into confusion.

"Late Friday evening the Grand Vizier summoned another council and put for-ward a proposal to remove the Germans and offer compensation. He suggested that they should maintain diplomatically that the Turkish Government believed that the Russians had begun the attack. His proposal was never carried into effeet, as Russia had already withdrawn its Ambassador."

Asiatic Turkey. PETROGRAD, Nov. 5.
Additional victories for Russian troops in their invasion of Asiatic Turkey were

announced in an official report from the General Staff issued here today. The Cossacks are advancing rapidly and inflicting sudden blows upon the Turks. The official report says:

"In the Caucasus, one of our columns suddenly attacked the enemy near Ardost, 15 miles south of Kars, near the Armenian frontier. The Turks fled, deserting their wounded. "Dislodging the Turks from their posi-tions at Id (about 58 miles west of

Ardost), the Russian troops took a large quantity of food supplies. Our troops captured Khorasan (southeast of Id in Armenia), after a sharp fight. The Russian force there consisted of 100 Cossacks. They attacked the enemy's trenches and sabred the Turkish infantry.
"Another Russian column, traveling 56

miles in 30 hours over difficult roads, and Diyadin (about 65 miles west of the frontier). Our troops dispersed a large force of Kurds and occupied Diyadin, where we took a large quantity of munitions of war and numerous prisoners.
"On November 3 we captured Bayasid after routing the Turkish troops, who offered strong resistance."

## **ELABORATE GOWNS** OF AMERICAN MAKE **CHALLENGE PARIS**

Fifth Avenue Bid for Rue de la Paix's Place in Fashion World Made at Ritz Parade.

By MARGARET MASON

NEW YORK, Nov. 5,-"Made in United States, America" fashions for the United States America maiden are being formally presented today to some of our leading multi-millionairesses, who until last night had never given a thought to the possibility of a gown daring to hall from any other place than dear "Paree," with the accent and father's thoughts on the dear. The coming out party for American fashions started last night at the Ritz, and, judging from some of the exhibits in "and out" of the new evening gowns, is good, although perhaps the past tense

sons who create styles have gone on de-veloping and creating on their own hook.

One hundred and twenty-five gowns with accompaniments calculated to put As a result, there is the shoulder rose, skirts that seem to be bagging at the ruptcy court, and each one guaranteed to have been designed and executed right on the Island of Manhattan, were exhibited the mannequins being volu homes of some of New York's and New-

port's idlest rich.

The entire affair was given a red, white and bluish Cohanesque atmosphere-even to the point that no flowers but American Beauties were shown. The intensity of the patriotism was manifest when a Russian wolf hound, used in one tableaux, was given the gate and took it.

GREAT NIGHT FOR FIFTH AVENUE Last night's parade of "home-made" frocks nailed to the mast 5th avenue's right to a permanent place in the sun of fashion. To be sure, Poiret, Worth, Redfern and Doucet for the nonce can worry to better advantage over the designs of German Zeppelinists than over the designs of American couturiers, but a start has

In all seriousness the present exhibit seems certain to lead to a state of affairs where the effects of the Rue de le Paix may be obtained by the American woman of fashion without the necessity of suf-fering either from mal de mer or an import duty. If nothing else has been ac-complished it will be possible after the present exhibit for American designers o sew their own labels on their frocks and sell them on their own merits. Heretofore it took an imported label to

command a desirable price on any American-made garment, no matter what its artistic worth. According to the Fifth avenue designers they have no desire to get beyond the bounds of the Monroe Doctrine, and the most they hope to accomplish for the immediate present is to be able to make their sales talk plain English without the necessity of using a French accent.

DIDN'T LOOK LIKE HARD TIMES. New York's social register has been depleted by the list of patronesses for the fashion fete, and the turnout at the Ritz last night, with its accompaniment of jewels and finery, seemed to bear out President Wilson's ideas relative to the psychological hard times.

Gowns valued at \$70,000 (correct) in good round figures-some of them "on" round figures not so good-and \$809,000 worth of jewelry designed and loaned by worth of jewelry designed and loaned by New York jewelers, were exhibited. In consequence there were probably more fine-looking young men in the crowd than have been seen at a New York society gathering in many moons, the added touch being given by a flock of fault-lessly attired fly-cops detailed to guard the loaned jewels.

The buils in the fashion shop were not meant to be distinguished from the others of New York's smart set, but class will tell, and the cops seamed to be the class. The fact was that despite the success of the fete, it must be admitted that the New York designers are working under handicap. Whereas the Parisian designers have the pick of the peach crop of La Belle France from which to saleot their mannequins, the exhibitors at the Rits are forced to display their artistic effects on the backs of more million. efforts on the backs of more million

#### JERSEY FORESTS FIRE SWEPT | HELD FOR FLEECING FARMERS

Losses in Several Sections and 400 Men Fighting the Flames.

TRENTON, Nov. 5 .- Governor Fielder has received reports that forest fires are raging in several sections of the State, particularly in Warren and Sussex Counties, and in parts of South Jersey. At a conference of the Governor, State Geologist Kummell and State Forester Gaskill to day it was decided to issue a varning to the people.

The appeal, after explaining that the drought has increased the danger of fires, says most of those now raging appear to have been started by careless hunters. It has been necessary to appeal for help, and through co-operation with the New York, Susquehanna and Western Rall-road and the Delaware, Lackawanna and Western Railroad, 400 men are now at the fire lines. The situation is critical and cannot be relieved until after rains fall, but the starting of the fires can be prevented through the observance of care. The appeal concludes: "We, therefore, warn all hunters and others to be careful not to start fires that are liable to get beyond any force that could be raised to fight the same and might lead to great property destruction."
