MEXICO HAS FOURTH PRESIDENT IN LESS THAN FIVE MONTHS

Installation of Gutierrez Said to Exile Carranza—Report That Huerta Has Offered Him Home Abroad.

WASHINGTON, Nov. 7 .- Four Presidents in less than five months is the record of Mexico today. With the swearing into office of General Eulalio Gutierrez by the Aguascalientes peace conference the Provisional President who succeeded General Huerta is virtually made an exile. The latest reports say Carranza has departed from his temporary capital of Puebla to Soledad, in the State of Vera Cruz, and within the shadow of the American army. Another report says Huerta has offered him a "comfortable

chronology of the recent Presiential succession is as follows: Huerta abdicted July 18. Carbaial deported August 18.

Carrama entered Mexico City Aug . 20.
Guiterrez named President November 5.
It is believed the Administration, while
still watching every development closely,
is nevertheless breathing a sigh of relief and that it has confidence that the peace conference at Aguascalientes will restore satisfactory conditions south of the Rio

Grande. Agents of the State Department, if they have not already received instructions, probably will be asked to negotiate with the new President to Insure the safety of foreigners at Vera Cruz when the American troops leave, and to make some satisfactory agreement with respect to the large collection of duties by General

Funston at that pert.

The removal of the American troops is one of the big problems, and no action will be taken until assurances are given by the new Administration that property and life will be respected.

Carranga is expected to resign and go to Vera Cruz, according to latest advices here. Since it has been impossible for him to carry the Aguascalientes conference, he has been moving his capital gradually toward Vera Cruz. The convention has fixed November 10 as the day for Carranza's retirement, Carranza is reported to be working for the retirement of General Villa.

Studies International Laws in Move to Guard Interests of American Trading—Announcement of Policy Soon

WASHINGTON, Nov. 7. President Wilson is spending many hours in his library the present week, 'brushing up' on international law, so as to inform himself on the many complex neutrality questions which already have arisen in connection with the European war. He is co-operating with Acting Secretary of State Lansing in shaping a definite policy on the shipping questions involved in the detention of American oil and copper ships by Great Britain, and it is expected that an announcement will be forthcoming in the near future.

The President is determined that American foreign trade shall be aided as much as possible during the present conflict, and is concerned over the growing tendency of the beiligerents to interfere with the commerce of neutral bottoms with neutral ports. He will safeguard American interests in this connection as far as possible.
