THE TRUE DELLA DELPHIA. SATURDAY, NOVEMBER 28, 1914

KAISER HASTENS FORCE TO DEFEND POSEN AND THORN

Feverish Activity Displayed to Stem Russian Tidal Wave Into Silesia-Inhabitants in Flight.

PETROGRAD, Nov. 11. Reports to the War Office declare the Germans are rushing reinforcements toward Thorn and Posen. All railroad lines are given over to the fransportation of troops which are being concentratel in the line of the Russian advance. Russian columns, which have crossed and dislocated the outer line of the German strategic railways running around northern and central Poland, report feverish activity. They have been able to arrest the German movements on the railroads nearest the frontier, but farther back the German lines are crowded day and night by trains bringing troops and equipment, especially artillery, from East Prussia to positions

behind Thorn and Posen. The excitement among the German rallway staff has thrown the civilian population into panic. Many thousands of German families have hastily packed their portable belongings and fled behind Posen fortresses. Others, abandoning their homes, are making for Breslau and Dresden.

It is evident that the German General Staff feels again out-generaled. Their experts were convinced that when the Russians had repulsed the movement on Warsaw and the Vistula and had turned the Germans back as far as the frontier, the real campaign of invasion would be

conducted through East Prussia.

They considered it absolutely impossible for the Russians to bring a great combined army, with impedimenta for a winter campaign, across the salient of Poland in November.

This has been done already, hence the Germans are now concentrating at high pressure all their available forces from the fortress garrisons and reserves in Silesia, Saxony and Prussia. It is the confident belief here that the

great Russian army will crush its way through East Prussia, Galicia and Posen by force of its own weight of numbers. Reports from the front declare it is evident that the Kalser is rushing reinforcements to his eastern front from Belgium. Men of commands reported a week ago to be fighting in Flanders, have been taken prisoners in East Pruscia, it is declared.

SIEGEL'S CONFIDENTIAL MAN TO TESTIFY FOR STATE

Prosecutor Says Revelation of Financial Jugglery Will Be Made.

GENESEO, N. Y., Nov. 11.—Oscar A. Prail, treasurer of Henry Siegel's 14th street store and the merchant prince's confidential secretary, has turned State's evidence and will relate all the details of how Siegel and his partner, Frank Vogel, now dead, are said to have played sleight-of hand tricks with millions of dollars, according to an announcement made just before court opened today by Assistant

according to an announcement made just before court opened today by Assistant District Attorney Arthur Train.

Prail audited all the books kept by Slegel and Vogel in the running of their chain of department stores. As confidential man to the Siegel-Vogel partnership, he knew every detail of the actual conditions in the Boston, Chicago and New York stores.

"One of the conspirators," he was tarmed by Prosecutor Train. The prose-

termed by Prosecutor Train. The prose-cution contends that he is the one man who can explain the money juggling in simple terms to the farm jury.

Prail, according to Assistant District Attorney Train, was as fully cognizant of the insolvency of the 14th street store as Siegel when the latter borrowed \$100,000 from a big New York bank and gave the store as security after swearing the con-

cern was a richly paying one. In resuming his argument to the jury today Prosecutor Train said that through Prall and other witnesses he would prove that Siegel borrowed the \$100,000 from the National Bank of Commerce by repre-senting through a set of dummy books that the 14th street store was paying huge dividends, when, as a matter of fact, it was in debt to the extent of \$1,500,000 and had lest money at the rate of \$250,000 a. "Concerning Siegel's Boston enterprise,"

said the prosecutor, "this store was boosted higher than a kite. His original capital had been \$800,000, but since 1905. when it was started, it has lost \$2,000,000. In order to keep this store alive Siegel and Vogel poured a stream of millions into it from his other stores and from his private bank. It was the Niagara over which the money from the other enterprises was swept and lost-the Moloch into whose belly was thrown every-thing in reach. It was an empty shell, it was gutted out clean, a bottomless

PARIS THEATRES MAY REOPEN Managers Move to Start Again the Festive Life.

PARIS, Nov. ii.—A large meeting, attended by the representatives of all the theatrical associations and amusement organizations of Paris, and also of the provinces, held today, with the view of procuring the reopening of the theatres and other places of amusement, also discussed measures to relieve the dis-tress among actors and employes of the

The meeting drafted the principle of a manifeste, which will be further con-sidered on Friday before its submission to the authorities

Nothing in the nature of a theatre or music hall in Paris is now open with the exception of one. That is a concert hall devoted to a patriotic program. hall devoted to a patriotic program. Many moving picture shows still remain

COLLEGE MEN TO DEBATE

F. and M., Dickinson, Swarthmore and Penn State Will Contend. STATE COLLEGE, Pa., Nov. 11 -- The BTATE COLLECTE. Pa., Nov. II.—The Pennsylvania Intercollegiate Debating League, composed of Franklin and Marshall, Dickinson, Swarthmore and Pennsylvania State College, will this year debate the following question: "Resolved," That the United States should abandon the Monroe Dectrine." Each college submitted a question, the selection being made by a Franklin and Marshall representative.

Resentative.

It has been proposed by Prof. J. T. Marahman, the new instructor in public speaking at Penn State, that an effort be made in this State to work out a system of debating in high and normal solocia. For the last six years, said Professor Marahman, in the secondary schools of Ohio debating has been conducted on a high plane, so that by the schools of Obio debating has been con-ducted on a high plane, so that by the time a boy reaches college he is equipped with a knowledge of the fundamental petuciples. The high school debature in thite are coached by experienced college pless and Professor Marghman wants Family rante arheologys to take equal family pith their neighbors.

WORK OR STARVE, IS REPORTED GERMAN ORDER TO BELGIANS

Governor of Brussels Threatens to Block All Charity Aid, Unless People Return to City.

BRUSSELS, Belgium, Nov. 11. A proclamation issued by the German Governor of Brussels on November 6 re-Iterates the German statement that Belglum needs an active population to make money to keep it from starvation, but this time the order threatens that unless the people return immediately and resume their former activities the German Government will close all charitable organizations which now feed the idle populace. The chief organization now operating is the American Relief Committee.

Well-informed Brussels residents declare that the German contention that the Belgium people are unwilling to resume their activities is ungrounded. The Belgians, they say, are willing enough to work, but this is impossible since all their automobiles and horses have been taken by the German army, making it impossible for them to haul coal and raw material for the factories.

The Belgians, it is declared, pulled the half-blind horses out of the mines, fed them and set them to work, but no sconer were these horses strong enough to pull carts than the Germans confiscated them for the army. Now the factories are without coal and Iron or any raw ma-

terials. The beet industry, which was enormous in many parts of Belgium, has been ruined. The farmers have millions of beets rotting in the storehouses through inability to transport them to the factories. The workmen, Belgians maintain, are

willing to work for one-fourth of their ordinary wages, but the factory owners, unable to provide the necessary material, have been obliged to dismiss the men. There has been a great scarcity of gasoline since a British aviator dropped a bomb near the German main gasoline depot at Heren, north of Brussels, and the Germans are keeping their gasoline nearer home.

\$9,657,532 FOR SCHOOLS THIS YEAR, BUDGET DECLARES

ncrease of \$307,948.12 Shown, Exclusive of New Loan of \$2,000,000 Authorized by Board.

There will be \$9,657,532 available for ex-penditure by the Board of Education on the public schobls of the city during the present year, according to the budget of City Controller John M. Walton, which has just been made public. This is an increase over the budget for 1914 of \$307,-

This amount is exclusive of the money to be made available for permanent im-provements through the new school loan of \$2,000,000, which was authorized at the meeting of the board yesterday, and the

unexpected balances in the permanent improvement fund. The increase in the funds is the result of the increase in the value of real es-tate, an increase in the amount of de-linquent taxes expected to be collected, an increase in the State appropriation and an increase in miscellaneous re-ceipts. The estimated receipts from the four sources and the increases over those for 1914 are as follows:

Taxes, \$8,301,032; Increase, \$261,448.12. De-linquent taxes, \$350,000; increase, \$30,000. State appropriation, \$944,000; increase, \$3000. Miscallaneous receipts, \$62,500; in-

The indebtedness of the Board of Education shown in the budget, exclusive of the new loan authorized, is \$10,831,895.67, while the limit of indebtedness at 2 per cent, of the assessed valuation as the authorized limitation is \$33,839,320.54. This leaves the board with an indebtedness that is \$21,904,425.23 less than could legally

that is \$21,000,100.50 less than could legally be assumed.

The increased indebtedness that would be possible will be reduced by \$2,000,000 when the newly authorized bonds are issued. It is not probable that they will be sold before April 1. That was the time last year's issue of \$3,000,000 was disposed

BIBLE STUDENTS TO MEET

Philadelphia Conference Continued With Series of Meetings.

The second annual Philadelphia Bible Conference was continued today with noon-day services at 610 Chestnut street, and in Griffith Hall, 1420 Chestnut street The Rev. Dr. C. I. Scoffeld, of New York, gave a lecture in the Arch Street Presbyterian Church on the subject, "The Course and End of the Age," the third of his series on the general theme. "The World War in the Light of Prophecy."

The Rev. R. V. Miller, of Spartanburg. S. C., spoke at the meeting at 610 Chest-

nut street, and the Rev. Max Werthelmer of Ada, O., made the address at Griffith

Meetings arranged for tonight and the speakers follow: Arch Street Presbyterian Church, the Rev. L. W. Gosnell; Frankford Baptist, the Rev. R. V. Miller; First Baptist of Germantawn, the Rev. George Pentecost; Fourth Reformed, Roxborough, the Rev P. W. Philipott; East Montgomary Methodist Episcopal, Robert McMurdo; St. Faul's Reformed Episcopal, the Rev. Max Werthelmer; Bethlehem Presbyterian, the Rev. H. H. Gregg; Ebenezer Methodist Episcopal, the Rev. Dr. Charles Blanchard; Union Methodist, Wilmington, Del., the Rev. L. S. Chafer; Centenary Methodist Episcopal, Camden, the Rev. George L. Airtoh.

PROBLEM OF GREATER PRODUCT Experts Discuss Methods of Increas-

ing Food Supply. WASHINGTON, Nov. II.—How to produce more wheat, corn and other crops, and particularly meat, from American farms was the chief topic of discussion by about 1000 leaders of agricultural research and eclance who met here for the Sith annual convention of the Association of American Agricultural Colleges and Experiment Stations.

Secretary of Agricultural Colleges and Experiment Stations.

Secretary of Agriculture Houston welcomed the delegates. Dr. A. D. Melvin chief of the Bureau of Animal Industry, who investigated the Argentine beef supply for the Government told how argentine beef will compete with American. WASHINGTON, Nov. 11.-How to pro-

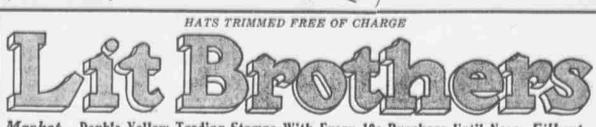

time beef will compete with American.
Most production can be made profitable
upon high-priced lands in the corn belt
by proper feeding. Frof. E. E. Mumford,
of the Missouri Experiment Station, teld
