THREE FOOTBALL GAMES WILL GRIP INTEREST SATURDAY

Dartmouth and Penn Clash on Franklin Field - Big Green Team Is Strong Fa-

By EDWARD R. BUSHNELL Football interest will be divided be Ann Arbor. Each fight will have something of the tragic element in it. Pennsylvania will make one final effort to save something from the wreck of this season by defeating Dartmouth. Princeton ends an unsatisfactory season and will at tempt to raise her final rating by a vic tory over Yale, and with the fervent hope that Yale will be able to overcome Har vard a week later. Out at Ann Arbon Michigan will try desperately to main tain the reputation her team made in the Harvard and Pennsylvania games by winning decisively from Cornell.

YALES ADVANTAGE, Just now it looks as though both teams sould out loose with all they have of open ootball. And in this kind of attack it is gothall. And in this kind of attack it is believed that Yale has built upon a sounder basis than Princeton. Yale has met a class of apponents this year quite as uniformly strong as Princeton, yet only once has Yale sailed to gain ground consistently. That exception was the Washington and Jefferson game. In which Bob Folwell's toam won by laif. But even against W. and J. Yale scored. Yale's attack promises to be of a dual nature. First, there is the wide, lateral passing game, which Yale has used effectively, and this, comminds with a good forward passing game, which with a good forward passing game, and the proposition of the princeton defense. Then if Yale has used effectively, and this, comminds with a good forward passing game, ought to weaken the Princeton defense. Then if Yale has a good like-plunging attack for variation, the fills should be mighty strong offensively. Princeton coaches may think they have a girong defense, but Harvard made it look prefly weak. Against Princeton the Harvard team princeton has met this year has gained ground consistently by yushing, so Tale ought to delikewise.

Firedeca's attack is an enigms. In all of Princeton's hig games it has secured to lack direction and sustained power. There are flashes in inlinery in the furward possing, end running and even the plunging, but it doesn't stor together. Against flasvard, Princeton had the ball in the Crimson's territory only twier, so there was little opportunity for the affense to dis anything. The kind of game takes to dis anything. The kind of game an opportunity to secure possession of the ball. This will add to the uncertainty of the outcome.

THACANE TEAM STRONG. It will require Corneil's game against Michistrangth of Cornell this year. The libacans have made a most unusual record to data. The serain started disastrously for them, with a sepann started disastronally for them, with service defeats at the hands of Pittsburgh of Colgate, but since them the cloven has a whiriwind progress, and, judged by computive acures looks to be not only the mixest learn in Cornell's history, but one in peat in the cultre East. The team best in come after the Colgate defeat, and it made founding progress since them Brown a teader 25 to 7, and the Providence mentage their cultres against the Cornell subtilled. This same Brown team held Vale, was tracked by the absence of veterans, and it weakened by the absence of veterans, and it is weakened by the absence of veterans, and it is weakened by the absence of veterans, all the cornel subtillate, after heating Cornell 7-3, was ampeat by Vale, \$7-5.

This afternoon's practice consisted of the usual preliminary drill with particular attention to drop and place kicking. The men seemed to be in the best spirits, and the coaches are confident that whether they win or lose temorrow they will do much to redeem

There is the greatest speculation about the university as to what the team will do tomorrow. The presence of Tucker means that the Quakers should outpunt Dartmouth, while in the line the two Dartmouth, while in the line the two Dartmouth. Dartmouth are about even. Dartmouth has Dartmouth, while in the line the two teams are about even. Dartmouth has had the more success with the forward pass and is better at end running and line bucking.
