THE members of the Board of Censors that I pass on moving pictures in this city are still laughing over a joke at their own expense and, which, although it happened innocently enough, came very near interfering with the first performance of Dr. Raymond L. Ditmars' wild animal pictures, "Book of

Nature." When Doctor Ditmars and George Meeler, his manager, arrived here last Monday, they were met at the train by a wild-eyed operator, who said that the Board of Censors had demanded an immediate review of the pictures. Doctor Ditmars and Mr. Meeker had overlooked this technicality and were about to proceed to the Academy of Music when the operator declared in great excitement: "You got to cut out Venus,"

"And what do you mean we've got to cut out Venus?" said Mr. Mecker. "Well, the censors have heard something

about a diving Venus in this show," said the excited operator, "and they want to see what it is all about." Doctor Ditmars and Mr. Meeker in order to go through the formalities rushed the plctures up to the Board of Censors' headquar-

sit in judgment. It came to the sixth reel in the Jungle Circut, when Mr. Meeker, assuming his best attitude, declared: "We will now show the picture of the wonderful diving Venus. The first time that she has ever exhibited herself." The Board sat back in expectancy;
