# NEW STREET UNIMPORTANT

Few Banks in Trading Group There Today.

NEW YORK, Nov. 30.-The open market on the New street curb, which had been used all through the suspension of the Stock Exchange as a channel for trad-ing in securities listed on the Stock Exchange, is apparently approaching its end. Only a small number of brokers were gathered in that trading group today, and these brokers had few selling orders at or near recently prevailing prices, and many of those have been active in this trading were today without occupation.

No importance was attached to the quotations made there because of the ability to make sales at better prices in a large number of stocks through the Stock Ex-change Clearing House. Union Pacific was traded in through the Clearing House today at a figure substantially above the final price on July 20. There was a de-mand for Brooklyn Bapid Transit at higher figures than that stock sold at long before the closing of the board.

PRICE OF LEAD REDUCED The American Smelting and Refining company has reduced the price of lead 0 points, from \$50c. to \$30c.

It is expected that some agreement will be reached by this committee this week, and that next week will see a new statement.

Chief Davis will recommend the final day for setting meters next year October 31, instead of November 30. That plan will allow two months for final testing and installing the meters and making the necessary changes in the accounting rec-ords of the bureau and tax office before the first day of the ensuing year.

A decrease of about \$150,000, it is estimated, will result from the meter installation this year and last year.

"This is the busy season in the men's tailoring and dress and waist trades, and so far very little of this work has been given out. Efforts of Nine Directors to Avoid Trial on Anti-trust Law Overruled in U. S. Court.

NEW YORK, Nov. 30.-Efforts of nine directors of the New York, New Haven and Hartford Railroad to escape trial on indictments charging them with violation of the Sherman anti-trust law were vigorously opposed today before Federal Judge Sessions on arguments presented by Deputy Attorney General F. W. Swacker.

The directors had entered a plea in abatement to the effect that the indictments were illegal. These directors are William Rockefeller, W. F. Brooker, William Rockefeller, W. F. Brooker, William Skinner, D. Newton Barney, Bobert W. Taft, J. E. Elton, Frederick F. Brew-ster, George F. Baker and Henry Mc-

Mr. Thacher followed, presenting arguments in behalf of the plea that the indictments be squashed. His chief grounds were that the indictments had been returned after the legal life of the Grand Jury had expired; that Alexander Glichrist, clerk of the court, was absent when the Federal Grand Jury in question was drawn, and that two outsiders were in the Grand Jury room during the deliberation.

At the time the Grand Jury was drawn William Tallman was acting for Mr. Glichrist, but Mr. Thacher argued that he law was very plain in such cases, and

The case was appealed to the Supreme Court by George Demming, of Philadelphia, representing the plaintiff. Bridget McGovern.

This is the first decision of its kind on the subject and is of great interest to the railroads of the country. In case the Supreme Court overrules Judge Thompson, the railroads will be forced to pay heavy dafnages to nonresident allens. It is estimated that fully 500,00
