able, for the reason that he holds a Gov-ernment position which pays him more than the coaching job would. Some interesting facts have been brought out by the letters. One is the charge that the poor showing of the team was due to the refusal of the coaches to let Glick, last year's quarterback, run the team. It is claimed that Glick did not get the position at the start because he wouldn't take orders from the coaches sent in during the game by substitutes. It is also said that he was responsible for Princeton's two touchdowns in the inst quarter of the Yale game because during the final rally he declined to lis-ten to instructions carried in by other substitutes.
