CATHOLIC HIGH GAME WITH ST. JOE NOT ARRANGED Basketball Contest Hinges on Eligi-

stated. There is still a hitch in regard to the eligibility rules of St. Joseph's which the Catholic High officials wish to settle. St. Joseph's is a college at which students may attend for eight successive years, which gives them a decided advantage in building up athletic teams. Catholic High demands that no student play more than four years on an athletic team and places a miximum age limit of 19 years if the two institutions

The atudents at La Salle College are strongly in favor of instituting football as a sport next season. No action has been taken by the authorities, because they believe that the present material is incapable of playing a successful grid-Philadelphia syndicate. President Frank Farrell, of the New Tork Americans, denied Ris Highlanders produce in the line of football timber.

Several of Catholic High's football stars will enter college. Greer, the heavy centre, is going to Yale, Panzullo, a sterling end, will enter Catholic University, and Clavin, a tackle, will attend A. and M. College, of North Carolina.

War Prevents Event Which Has Been Held Annually Since 1856-Other Competitions Are Called Off.

Owing to the fact that so many students have joined the army there will be no intervarsity contests between Oxford and Cambridge this year or next unless the war comes to a conclusion much sooner than is expected. Two-thirds of the usual number of men in residence have joined the forces in some capacity or other. Of second and third year men there are practically none left in resi-dence, unless they are physically unfit to

take part in the war. Nearly all the athletic "blues" at Ox-ford and Cambridge are drawn from the seniors, and freshmen, as a rule, stand very little chance of obtaining their colors. There will be no intervarsity Rugby match this year and no soccer match. Captains of all games at both universities have received commissions in the army. The Oxford-Cambridge boat race was instituted in 1840 and rowed continuously since 1856. As a rule at this time of the year the weeding out process for the varsity eights is well under way. but no attempt has been made to form trial eights, nor will any attempt be made to do so. Englishmen are too busy to give any attention to even so an important event as the boat race. So there is hardly any likelihood of the race being held next spring.

# PENN BASKETBALL PROSPECTS BRIGHT, MATERIAL PLENTY

First Game Will Be Next Saturday, Against Muhlenberg College - Final Line-up Not Yet Selected.

Easketball prospects are brighter thas isual at Pennsylvania this year. Coach Jourdot, former captain of the Red and Blue, has a squad of more than 60 candates from which to choose. The ma terial is exceedingly fast, and there is a great opportunity to pick a quintet that will match with any in the League. Among last year's regulars who are in miform 'are: Wallace, guard: Hard-vick, guard, and Bullitt, forward. Captain Seelbach is taking a rest after the football season, and perhaps will not get in either of the first two games. Of the 1917 team of last season, McNicho' and Evans are showing the most prom-ise. McElora, Gallien and Altman also are playing a great game for second-year men. From last year's varsity squad are McAfee, Stokes, Williamson and Chandler. Besides these men there is a wealth of unknown material of which

much is expected. much is expected. There is much speculation as to the initial line-up. From the combination used in ecrimmages it is certain that Coach Jourdet is pleased with the play-ing of McNichol and Evans at forwards. In six shows recently held in Milwaukee the total receipts amounted to \$160,504. Of this, McFarland and Britton drew \$9125; Ritchie and Wolgast, \$49,755; Ritchie and will start them in the first game and will start them in the first game. These two second-year men are the clev-crest and fastest men in the squad, and prove a great scoring pair. As this will be their second year of playing with each other, great teamwork is expected to be developed around them. Bullit, who developed around them. Bullit, and White, \$14,632; Wolgast and Rivers, \$12,245; Wolgast and White, \$6500; and Weish and White, \$24,517. A few people have criticised Connie Mack for selling Eddle Collins to the White Sox, but the vast majority of fans realize that Philadel-phila has not supported the Athletics in the way it chould. There han't a man in this city who is engaged is business that would not sell all or a part of it out if he saw that he would gain by selling. That is just what Connie Mack has done. He has had the evi-dence presented to him that this city either will not or ennot support a world's champion-ship baseball citub. No matter what the causes, the fans here haven't supported the Athlitics and probably will not until the team is reorganized. This reorganization will take some seasons to be rounded out into a win-ning team. Mack has said himself that it takes five years to develop a winner. Of course he will begin his new machine with a lot of cond material, but the hig gaps which are sure to be in the Athletics ranks in 1915 will not be filled as they have been for a jong while. By the time they are filed as they should be, the baseball fails what the greatest canond combination ever gaithered together. who developed into a good forward last year, has been made first substitute by the fast work of this pair. McNichol will toss the foul goals this year. In practice he has been making 10 out of

12 tries. Wallace will play guard and act as captain until Seelbach returns to the lineup. At the other guard will be Hard-wick. These two men watch the ball ex-ceedingly close and few baskets are ever

registered against them. If they can de-velop greater shooting ability they ought to make two of the best guards in the league. Several candidates are contesting for

The games scheduled in the East Side Church League of Camden for tonight have been postponed. They will most likely be played on Saturday night. Harry Anderson, of Emerson, is leading the Camden City League in Individual scoring, having talled 15 field points in six games. De Maris, of Parkels, is second, with 90 points scored in six games, while Creeley, of Forest Hill, is third, with 66 points scored in five games. Several candidates are contesting for understudy to Captain Scelbach, to start the first game. Of these, McElmea is showing up best, and will probably be given a chance at the pivotal position. Stokes, of last year's freshman tenn, In Chicage the purchase of Collins by Com-lakey means the beginning of a new era in basehall. The Windy City is naturally the best basehall, the White Sox in splendid fashion, although there has not been a pernant flying from a South Side flagpole since 1906. It is no uncomhon occurrence for Comktakey Park, which accommodates over 25,000 spectators, to be packed on Saturday and Sunday. Several times during the last two years the Athletics have drawn capacity crowde in Chicage when there was nothing hinging on the result. is second choice, and may get into the game for a few minutes.
