When, at its conclusion, he saked the people if they would support him in the effort to ob-tain a high-speed system for the whole city there was a hearty response in the affirmative.

DIRECTOR TAYLOR'S ADDRESS. The Director spoke in part as follows: "I shall speak with particular referonce to your traffic section, which is designated as No. 129 by the Department of City Transit. It is one mile square and is bounded by Warrington avenue on the northwest, the Schuylwill River on the southeast, 43d street on the northeast and 54th street on the southwest. The population thereof in 1913 WAR 18,400.

of your traffic section will be saved 124,000 hours per year in time by the recommended high-speed system under the terms of the transit program, which time valued at 15 cents per hour would aqual \$15,600 per year."

Thus a great number of the residents of your district will be enabled to save from per day, which they now waste in traveling by facilities which are obsolete for proper service of long-distance travel.

In arranging the co-operative program with the Philadelphia Rapid Transit Company, I had in mind the disand other acctions of the city. That program provides that they shall be climi-

mated.

The Director then gave a number of examples to show that West Philadelphia had been discriminated against.

"Work must be started, on the construction of the high-speed system by the close of the winter, unless your interests are to be jeopardized and impaired by unnecessary delay. Until a special election is held for the purpose of authorizing an increase in the city's fendsbtedness to pay the cost of transit development, no contracts can be lef.

Her husband had a political office in Lassigny, and can get nothing to do bete. The whole family is living in a 15230 one-story shack a mile from here, and sleeping on straw on the floor.
