UNLIMITED DEALINGS WILL BE ALLOWED IN N. Y. TOMORROW

Special Committee Lifts Ban on All Stocks-Copper and Railroad Shares Led Market Today.

NEW YORK, Dec. M .- Unlimited trading will be permitted on the New York Stock Exchage beginning tomorrow, Up to the present time trading has been permitted only in certain stocks named by the special committee of five, which ruled out such stocks as United States Steel and others, in which heavy speculating might influence the market.

The announcement that the ban was Mfted on all stocks came this afternoon, when Secretary Ely, of the Stock Exchange, issued the following statement:

"The special committee of five rules that beginning tomorrow, December 15, all stocks now being dealt in through the Committee on Clearing House will be admitted to dealings on the floor of the exchange, at or about the minimum prices heretofore established by the committee and under the provisions of rule No. 34." Copper shares vied with railroad stocks for leadership of the market today, with the balance in favor of the former. Amal-gamated Copper was the most active of the group, advancing 4% to 55% from Saturday's close. American Smelting advanced to 59, up 2½; Nevada Consolidated 2 to 14; Ray Consolidated 1% to 17%; Tenessee Copper 2 to 25, and Utah Cop-

per 3 to 51%.
Shorts are on the anxious seat in Wall street and the uneasiness on the part of those operators who were committed to the bear side on a large scale in July was reflected in urgent efforts to cover stocks today. There was a general demand for the return of borrowed stock on the part of lenders, who now find little trouble in obtaining money accommoda-tions at low rates. In some stocks these

tions at low rates. In some stocks these efforts became frantic when it found how scant the supply was.

This was particularly the case in Amaigamated Copper, in which bear operations had been heavy during the period the exchange was closed. In October these generators and Amaigamated tober these operators sold Amalgamated as low as 37 on the New street curb immediately after the dividend reduction in

October, but then copper metal was like, a pound against like, today. There is a good deal of gossip here to the effect that all through July Amalgamated had been bought for what is re-ferred to as the syndicate, and the stock sold in October is also said to have been accumulated for the same interest. In certain independent quarters these stories find credit and it is assumed that other copper stocks were also accumulated both on the board in July and on the

street in October.
Sales of United States Steel were made through the Clearing House at 54, which compares with a minimum price of 48. Strength in this issue was attributed to the optimistic comments of President Farrell, of the corporation.

He mays:
"To look for improvements after the opening of the new year. I am of the opinion that there will be a demand for iron and steel products after the railroad rate question is decided. I believe we are to experience a considerable demand for iron and steel for shipbuilding, but that we have true in developing."

that may be tardy in developing."

Led by Lehigh Valley, eastern railroa shares made further advance. Lehig Valley jumped four points to 138; Reading 3% to 150%; Eric, 1% to 23%; Pennsylvania, I to 199. In the early tradin.

Pennsylvania went off fantically, bu

The strength in these issues was base on the report that the Interstate Commerce Commission would grant the carriers an increase in freight rates. Som said that the decision would be hande down tomorrow, while others were of the belief that it would be given out probable on Saturday. ably on Saturday. Money loaned at 31/2 per cent.

RAPID RISE IN STOCKS SOUNDS NOTE OF CAUTION

War Is Not Yet Over, is Warning Dealings Large,

NE WYORK, Dec. 14. The Evenin Sun, in its financial review, says: About the only point of objection t the day's session was a feeling held i some quarters that prices were advancing too rapidly. In view of the fact that trading has been suspended for mor than four months, this is a rather strang commentary upon the market movemen but it is worthy of consideration, for th European war, which caused the closur is far from settled. The outstandin feature of Saturday's dealings, namely the apparent actual dearth of stocks was again in evidence and influence very sharp advances between limite sales, especially in the Copper shares.

WHEAT IS STRONG TODAY ON HEAVY SALES FOR EXPORT

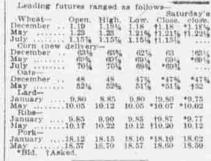

Pronounced Strength Abroad Makes Sentiment Bullish. 8,893,000 Bushels Sent Abroad Last Week.

CHICAGO, Dec. 14.—Wheat was strong this morning, with sentiment bullish on confirmation of heavy sales for export at the close of last week and on pronounced strength abroad. The Greek movement has bought nearly 2000 bushels of cash wheat from the Armour Grain Company, and the Swedish Government has taken more than 75000 bushels. more than 750,000 bushels.

Foreigners bought futures this morning, and there were said to be additional orders from Greece and Inquiries from Italy. It appears that foreign agents who have been holding back in the hope of lower prices are now actively engaged. The import requirements of Australia, where the import duty has been removed, are placed at \$,000,000 bushels. Shipments of wheat from North America for the week wers \$893,000 bushels, of which 3,031,000 oushels went to Italy. In Argentina, where conditions were

in Argentina, where conditions were unfavorable because of rain, the weather was fine and cold today. There was free buying at Liverpool, where the undertone was strong. Private advices have been received from Argentina that the recent low temperatures caused gone deterforation in the crop. Some chees. at Liverpool was up 3d. and flour 5d.
Corn was stronger on commission buying. The selling was led by local traders.
Weather conditions were excellent for
heavy feeding. It was estimated that
Saturday's every sales would seek Saturday's export sales would reach 1,000,000 bushels. Shipments from North America for the week were 645,000 bushels. The market at Liverpool was strong with

Oats were higher, but not active. Local traders sold. Shipments from North America for the week were \$21,000 bushels. Provisions were higher on light offeringa.

LOCAL BANK STATEMENT GIVEN IN NEW FORM

Philadelphia Institutions Report \$22,045,000 Surplus Reserves.

The Philadelphia banks for the first time today issued their weekly statement in the new form. It was impossible, therefore, to make adequate comparisons of differences with previous weeks. The surplus reported was \$22,045,000, an unusually large amount, due of course to the reduction in the limit of reserves required. Loans were greater than at this time last year. Below is given the new form of statement and also the old form for the corresponding periods in 1913 and 1919. 1913 and 1912:
