DISEASES OF EYE **CAUSED BY FILTHY** HOUSING IN CITY

Dr. H. S. Weaver Ascribes Many Troubles to Insanitary Living Conditions Which Poor Must Tolerate.

Trachoma, which sometimes results in blindness and other external diseases of the eye, in the opinion of Dr. H. S. Weaver, of 1433 Spruce street, a promiment eye specialist, is often due to living in small dark, filthy and unventilated

Doctor Weaver said many patients applying for treatment at the various eye dispensaries are products of the tenement house section. Better ventilated Fooms with larger windows and more light, Doctor Weaver believes, would decrease the present large number of persons afflicted with eve diseases.

"I have found a large number of external diseases of the eyes," said Doctor Weaver, "often due to the present living conditions in the tenement house section. A dark room, where it is necessary to keep a kerosene lamp burning all day, the same with a damp room where the plumbing is poor. Very often the damp fooms in the tenement belt are respon-sible for various allments of the eye.

"The various dispensaries of this city are visited by many men, women and children whose homes are in the congested sections. It is nothing unusual, after examination of the eyes and getting the patient's history, to ascertain that the present tenement house evil was a factor in causing the allment."

NEED BETTER HOMES. "I believe if the poor had better homes, more heat, windows, and more light there would be less suffering from eye troubles among them. Among the persons who Visit our dispensaries are many who are suffering from inflammation of the eyes. This particular aliment, in many cases,

This particular aliment, in many cases, is due directly to filth, dust and unventilated living quarters."

"With sanitary rooms, into which the light could penetrate, sufferers of various aliments of the eyes would be able to find a great deal of relief."

Officials of the Philadelphia Housing Commission today denied that a canvass among the members of Councils' Finance Committee showed that the appropriations for the new Division of Housing and Sanitation would be refused.

BELIEVE COMMITTEE WILL ACT.

Prominent members and directors of the commission still feel confident that the committee will see the good that the new department could accomplish in these congested quarters of the city, which re-cently were referred to as "plague spots" by Archbishop Prendergast.

DR. HARTE FAVORS LAW. Some time this month Councils' Finance Committee will vote on the appropriations for the new division. The act which created the divisioon was passed more than a year ago and was signed by Governor Tener. Director Harte, of the Bureau of Health and Charities, has al-ready gone on record as being in favor of the enforcement of the act. He said recently that he would make a personal appeal to the committee on the day when the vote is taken.

\$37,000 NEEDED FOR BULKHEADS Estimate on Protection From Sea at Rehoboth Beach.

REHOBOTH, Del., Dec. 14.—Wilming-ton engineers today reported to Mayor W. R. Messick that an expenditure of \$37,000 would be required to creet bulk-heads here as a protection against further needs here as a protection against further inroads by the sea. The engineers recommended the building of a seawall extending a quarter of a mile into the ocean and an extensive system of jettying the heach from:

Last week's storm gouged the beach, ripping pilings and public works, to-gether with the beardwalk. There is a sheer drop of 15 feet where Surf avenue
