PLANS COMPLETED FOR EVANGELISTIC **CAMPAIGN IN STATE**

Sunday School Leaders to Hold Twenty-five Massmeetings in Pennsylvania Cities.

Led by W. G. Landes, general secretary of the State Sabbath School Assoguation, and the Rev. Charles A. Oliver, of York, one of the leading Sabbath enheol workers of the country, two groups of men and women will tour Pennsylvania during February to scatter seed for evangelism among the schools in avery part of the State.

The movement, which was authorized at the November meeting of the board of directors of the State Sabbath School Association, it is believed will do much to increase the Christian men and women in the churches in future years. It is thought by officials of the association that the best fine to convert the young people is during their years in the Sab-bath schools, and it was because of this belief that the campaign was authorized.

The tours are to take in every section of the State, and there will be 20 monster mass-meetings in as many cities, at each of which the members of the groups making the visit will speak. The meetings have been arranged as follows:

TAYLOR URGES HIGH-SPEED **LINES FOR REMOTE SECTIONS**

Rapid Transit Plans Explained to Residents of Northern Suburbs.

Residents of Northern Suburbs.

Figures and facts presented by Director Taylor last alght at a transit mass-meetlog in St. James Methodist Episcopal Church, Taber road and Water street, thowed the need of high-speed lines in the northeastern part of the city. Great areas of vacant land would be made available for development, the Director contended, when the high-speed system is extended to that part of the city.

An early start upon the construction of the proposed lines was approved by those present, who also decided unanimously to participate in the rapid transit demonstration at the Academy of Music, on January 14. The meeting was held under the auspices of the Wyoming Citizens' Association and the Tabor and Oney Improvement Associations.

RICH MAN'S CHARITY CAPITALISTIC CLOAK, **CONGRESSMAN SAYS**

Representative Buchanan, 'Labor' Member of House, Viciously Opposes Rockefeller, Sage and Carnegie Foundations.

WASHINGTON, Dec. 19,-Representaive Buchanan, of Illinois, "labor" memper of the House, charged today that the foundations of Rockefeller, Sage and Carnegie merely give "air of respectabillty" to what he considered a victous capitalistic system.

Apropos of the proposed investigation into these organizations, he said he was opposed to them because they concentrated huge wealth and sought to pass out charity rather than to give the workingman a chance in life.

"Why does the Rockefeller Foundation send food to Belgium," he said, "when they ought to be sending it to Colorado to the minera? Why doesn't the Carnegle Foundation pension the widows and

orphans of men in the employ of his watered stock system?"

"We ought to have a complete investigation of these foundations." said Representative Keating, of Colorade, another labor member. "If they are on the level" we ought to know it, and if they're not we ought to know it. It seems to me such concentrations of wealth give an appropriative for a measure of the state of the sta wealth give an opportunity for a mas-ter mind to influence a nation's mind for good or evil."

Beggars, "Down and Outs" and Proud Victims of Conditions Get Aid at Inasmuch Mission.

More than 200 men, some of them shufing, beaten men, and some with gaunt, starved faces, but heads held high and sunken eyes that glared defiance, lined up outside the Innamuch Mission before dawn today to accept bread and hot coffee at the expense of Mrs. George W. Childs Drexel, of Bryn Mawr.

The bread line was the first in the hismy of Philadelphia and, according to he mission authorities, it instantly justifed its existence and proved beyond doubt that it is a necessity.

The windows of the Inasmuch Mission and its sidewalks and floors are more and its sidewalks and floors are more spick and span today than ever before because some of the men in the line were not yet beaten. They are "In hard luck," as they put it. Some had not eaten for many hours and had spent months in this and other cities seeking work, but some unquenchable spirit still burned in their weakened frames and they would not be objects of charity.

The mission officials asked no questions. If a man in line thrust out his chin and

It is believed the wire is to be used on the coast defenses of England to retard the Germans should they try to invade the English Isles.
