Stove League Will Disband When Dooin Deal and Few Other Trades Are Settled-Managers and Players Getting Ready for Spring Training Trips.

Welcome Spring

Tunne Spring is on the way to us. When play our time will claim again, When every breeze will say to us, "Ob, come and see the game again."

If you do not believe, his you to Frank-in Field. They've called out the track quad. As a havbinger of apring, this an-cial custom has the first ohirp of the lat rabin redbreast beaten by several methe

Baseball can't lose anything by the old "play ball." That will do away with the Winter Lengue: with its inside dops of trades and sales, some of which are on the level and some of which originate in the brains of persons who need the space money. Squabbles then will be secondary to the main issue, the pennant races.

That Collins Case

Philadelphians, especially his large fol-lowing of personal admirers, were no doubt glad to learn Eddle Collins didn't say he was glad to get away from 'illa-delphia; that he feels genuine regret in the discussion Whenever we hear that familiar old

crash When the swift speeding horsehide is met by the ash: When we hear of a liner pulled out of the air We'll have a big hunch that E. Collins

is there

"Made in the U. S. A."

This label probably will be tacked on nearly every athletic record made this year, unless Europe gets tired fighting. The outlook for international sport, on the whole, is rather dismal for 1215-from the whole, is rather dismal for 1215-from the viewpoint, that is, of those who want to see the matches regardless of the re-sults. But there is many an athlete of this grand old land thirsting for revense for last year who won't mind thirsting supther year on on our showing in 1914 another year or so. Our showing in 1914 was distinctly flat.

Unsent Telegrams

To Mister Baker: Please settle that Dooin matter; the suspense is frightful.

Highly Improbable

Big salaries, apparently, were only drop in the bucket. The Federal League was just getting warmed up to some real spending. Witness the latest move that drags organized ball into the courts. Now words of the lawyers will begin to under the inspiration of Fed dollars. Our idea of one way to settle the whole scrap would be to have a world's series of all-star teams from each side.

It's Overdue

Now that the Phillies are nearly through disposing of their stars, has any one pulled that famous old refrain, "Wait till next year"?

The question of professionalism is occu-pying more and more space in the sport-ing pages. Nearly every sport there is seems to be cleaning house.

Flip-flop Repeated Scholastically

Northeast High School's student body was greatly surprised and likewise de-lighted when gossip carried the report through the classrooms that Sam Wilson, better known as "Mike," had returned to real serious the Red and Black. It is remembered determined.

that Samuel repeated a Walter Johnson leap to Allentown Prep following the hol-idays. The Washington star slabster has nothing on Mike, for the latter went right through a repetition of Walt's ex-tended jump by resuming the flop back. Incidentally the football team for 1915 will not have to worry about electing a cap-tain, as Sam is captain-elect. No Grass Under Willard's Feet

Jess Willard is starting early. With the proposed Willard-Johnson world's heavyweight championship match all but consummated, the big cowboy is drilling in the fundamentals of the knockout without hurting himself. He's demon-strating the knockout flop before the films.

The Cat Out of the Bag

We have finally got on the inside of the Welsh-White fight scheduled January 26. Just as predicted in this column recently, the lightweight champion was the individual to select his opponent. How do we know? Why, Freddle wasn't the least backward in admitting it. He figures the Chicagoan easier game than Shugrue.

Carey Is a Wonder

One of the athletic marvels of the present day is Jesse Carey, who at the age of 43, ranks as one of the best roller skaters in the world. Carey has been skating for more than 20 years, and he seems to be just as good today as he was when in the prime of his youth. One of Carey's most remarkable per-formances was that in Paris in 1910, when he covered 290 miles during 24 hours. he covered 250 miles during 24 hours. He skated continuously, never leaving the track for a minute during the entire 24 hours. Other contestants, much younger than Carey, were forced to take fre-quent rests, and the result was that Carey finished many miles ahead of his nearest competitor.

nearest competitor. In Brussels Carey defeated nearly 50 contestants in an unlimited race. He skated 43 miles without a stop, and by that time every other man in the race had been forced off the track. Carey holds every European roller-skat-ing record for one mile up to 24 hours. Carey mingled in the recent 24-hour roller-skating contest in New York, and at the finish was fresher than any of the youths who were able to stand the grind.

youths who were able to stand the grind. Carey was born at Pittston, Pa. He is a triffe over 5 feet tall and weighs 115. Though a skeeter in weight, he is a w der.

Ives' Face Paralyzed

Nort Ives, of Detroit, star baseball and football player of Trinity, was unable to return to college for the opening of the term, and it is uncertain at present how long it will be before the popular athlete is able to get back. Ives is suffering from paralysis of the face, and the attack has been growing worse daily since he went home for the vacation, it is stated.

In the Trinity-Wesleyan football game last November Ives was kicked on the head while playing without a headguard. and for a time continued to play abso-lutely stunned. He complained of severe headaches following the game, and they continued until he went home, when the paralysis first became noticeable in an inability to close his right eye. The paralysis exptended to the left side of his face, and now the muscles of that side are said to be completely paralyzed. Ives is being treated by one of the best

specialists of Detroit, and it is hoped that a complete cure may be effected, but the real seriousness of the case has not been
