

U. S. STEEL AND CARNEGIE PENSION FUND GROWING Last Year's Disbursement \$511,967.90, an Increase of \$81,152.76 Over 1913. Aggregate of \$1,575,021.33 Since 1911.

PITTSBURGH, Jan. 27.—The fourth annual report of the United States Steel and Carnegie Pension Fund was made public today. The report shows that since January 1, 1911, when the fund was established, there has been a total distribution to retired employees of the Steel Corporation in pensions of \$1,575,021.33. In 1914 the total disbursement from the pension fund was \$511,967.90, exceeding the previous year by \$81,152.76, and the first year of the fund's existence by \$230,510.81. The average annual increase in the amounts distributed has been slightly over 4.00%.

The Pittsburgh district leads in the amount paid out. To retired mill operatives in the Pittsburgh and Valley Districts \$22,559.23 was paid during the year. Next \$20,365.96 was paid to the coke workers in the fields adjacent to Pittsburgh, making the total \$329,651.99. Cleveland and vicinity ranked next to Pittsburgh, the sum amounting to approximately \$400,000. In the Chicago district the amount was \$30,157.89; New England, \$20,555.56. The iron ore regions of the Northwest received approximately \$100,000 and retired employees on the corporation's various transportation subsidiaries draw \$14,057.57. Former employees of the Tennessee Coal, Iron and Railway Company received \$300,116. There are now 2321 beneficiaries of the fund. During 1914 there were 612 pensioners added and 153 discontinued through deaths. The average pension was \$20.40, the average age of the pensioners being 62.8 years and the average term of service 25.76 years. The fund from which the pensions are paid amounts to \$12,000,000, being made up from the Carnegie Relief Fund of \$4,000,000 and \$8,000,000 which was set aside by the Steel Corporation. No pension of less than \$2 or more than \$100 per month is paid. For each year of service the employee receives 1 per cent of his average monthly pay received during the last 10 years of service. All male employees who have been in the service 20 years or longer and are 60 years or more of age are eligible for pension. Women are eligible at the age of 50 years. The records show that a great many of those retired have taken up easier work and add good earnings to their pensions. More than 10 per cent of those on the pension rolls voluntarily requested to be pensioned. Only in cases where it is obvious that employees are unable to properly perform their work are they pensioned to retire. The plan embraces those employees who become permanently and totally incapacitated. If an employee is injured while on duty he is taken care of by the Voluntary Accident Relief Plan. All the time lost on account of disability, shut-down or lay-off, not exceeding two years' duration in any one period, is credited to employees as service. In cases where a pensioner becomes incompetent to handle his funds the pension is paid to his wife or to a legally appointed guardian.

WILMINGTON RIVER FRONT BILL IN LEGISLATURE Control of Lands Necessary to Resumption of Government Work. WILMINGTON, Del., Jan. 27.—On the passage of a bill now before the Legislature depends the question of whether Wilmington is to have a real front on the Delaware River. If the Legislature finds it can give the control of certain lands to the city, then the Government will continue work on the bulkhead begun years ago to improve the channel of the Delaware river. There will probably be a lawsuit, even if the bill is passed, before the city can get control of this river front, and there is a question in the minds of many as to whether it can ever get it unless it pays a large amount of money for it. The people of this city have voted, however, to obtain control of the land. Several years ago the Government decided to bulkhead along the river front at Wilmington. Behind the bulkhead it was intended to fill in, with the object of making several hundred acres of new land suitable for manufacturing purposes. This land would have been on deep water and to reach deep water from the present shore would be necessary to build a pier 1500 feet long. It was expected by the Government that the land owners whose property faced the river would assist in building this bulkhead. When it found they were not willing to do so the Government stopped work and it has never been resumed. It was said, however, by some of the officials of the Government, that if the city Government proper the land which the Government proper would assist in building the bulkhead the work would be completed.

SUFFRAGISTS START ACTIVE CAMPAIGN FOR THE CAUSE Numerous Meetings Arranged in City and Suburbs. Active campaigning is now being taken up in this city. Numerous meetings have been arranged by prominent persons in equal franchise circles throughout the city, suburbs and adjacent towns, and the Equal Franchise Society, 35 South 9th street, will have speakers on hand regularly to wage a campaign simultaneously and with equal force in all sections of the city and suburbs. The Rev. Thomas W. Ilman, of All Souls Universalist Church, will address a meeting of women in Ridley Park this afternoon at 3 o'clock, at the home of Mrs. Harry E. Vander. Mr. Ilman will point out that in order to have true democracy we must grant the vote to women. Mrs. Harry Lowenberg will deliver an address on Friday at Merchantville, N. J., speaking at the home of Mrs. D. L. Taylor. Mrs. Scott Nearing, wife of Professor Nearing, of the University of Pennsylvania, will urge the support of members of the Civic Club of Ridley Park on February 2. Requests have been made to the Equal Franchise Society that it send "Literature" to the members of the Delaware Legislature, before whom the suffragists of that State are presenting their case.

OLD DANCES TO HOLD SWAY A costume party and dance, at which the dances will be seen, will take place tomorrow evening in the Catholic Lyceum, at Broadway and Federal street, Camden. The affair will be held under the auspices of the Catholic Lyceum Association of Camden. One of the features of the entertainment will be a whimsical Chinese pantomime by Theodore Hyland. A Japanese garden has been erected in the auditorium of the Lyceum, where supper will be served.

EIGHT TEAMS WILL CONTEST AT BOWLING Marathon Tournament Starts Today on Casino Alleys. Eight two-man teams will participate in the eight-hour marathon bowling tournament starting at 4 o'clock this afternoon at the Casino Bowling Alleys, Chestnut below 10th street, under the supervision of George M. Moss. The event will end at midnight. The sixteen bowlers who will compete in the event are among the leading bowlers in the city. The participants have been practicing for today's affair for the last fortnight and have announced themselves in the best of shape for the lengthy match. The teams will be composed as follows: J. Trucks-Floyd, C. Trucks-Johnson, Hancy-Satterthwaite, Strack-Hartley, Fehr-H. Price, Cox-Lake, McLachlin-Kinsmuller and Ratcliffe and partner.

DAINTY MAID NOW DERIES PRANKS OF WIND WITH LEGGINS Modesty and Comfort Unite to Mock at Mischief Threated by Short Skirt of Fashion.

The northeast corner of Broad and Chestnut streets; a high blustering gale such as sweeps across the Franklin Bank Building on a bleak day; a pretty little Philadelphia dandy girl and wind-tossed, her smart skirt, which fashion has decreed must stop above her shoe tops, flapping merrily in the breeze. And what has the combination produced? A leggin is the answer. If you would be smart, if you would be warm, if you would be modest, you must wear leggins this winter. The modern woman, like the little fly upon the wall, in the nursery rhyme, no longer has a "petit-skirt." Last year she wore in consequence, this year she will wear leggins. And more comfortable she will find them too.

"Are we going to put in a supply of leggins?" the shopkeeper asked a supercilious eyebrow and his eyes looked at the lady's feet. "No, because we already have put in a large supply of them. Of course Philadelphia women are going to buy them. As a matter of fact, some have made their purchase, and others are having them made to order. "It's an open question whether the women are taking to them because the skirts of the winter are to be so unbelievably short that the legs remain in a sort of exposure, because the war has given rise to a demand for clothes of a military cut. "The leggins which our women will don start at the instep just as a soldier's do." He got out a long black legging of silk jersey with shiny black buttons running at regular intervals from top to top. "And," he continued, "they will continue all the way up to the knee. "You know," he went on with enthusiasm, "doctors have always said that the knee is most sensitive to the cold, therefore I think this custom of wearing leggins an eminently reasonable one—much more sensible than most of the fads which the average woman indulges in." The leggins which Philadelphia shops are carrying in their regular stock are either of black knitted jersey, or of velvet, however, they are taking orders for any shade desired. Suppose, for instance, you are a woman planning a brown velvet suit for the piece de resistance of your winter wardrobe. The leggins should match. Simply take a sample of your velvet to the shopkeeper and presto! in a week or so the brown velvet leggins are yours. Once on a winter's last winter, old Father Penn up on top of the City Hall cast his starboard eye down to the corner of Broad and Chestnut streets to see that his children were coming along all O. K. in that direction. The night that he looked upon was such that he almost fell off his perch. Remember it was a windy day, and leggins were not in vogue then. However, if the fashion makers are to be believed, the good old Quaker may look where he lists this winter with never a fear of being shocked, for leggins have come to town.

MACFARLANE TO GIVE ORGAN RECITAL FOR MUSIC SCHOOL Will Be Heard Tonight at Home of Cyrus H. K. Curtis. Will C. Macfarlane, municipal organist of Portland, Me., will give an organ recital at the home of Cyrus H. K. Curtis, at Wynona, tonight at 8:15 o'clock, for the benefit of the Settlement Music School, 47 Christian street. The organ in Portland's new city hall is one of the finest and largest organs in the world, and was presented to the municipality by Mr. Curtis in memory of Hermann Kotschmar. Thousands of persons attend the Sunday free concerts which are given from November to May; besides these, other concerts are given which more than meet the expenses involved in maintaining the organ. Florence Hinkle and Paul Althouse, of Philadelphia, are among the artists who have appeared in these concerts. Mr. Macfarlane was organist and choir-master of St. Thomas', New York City, and of the People's Emanuel for 10 years. The organ, which is really six organs in one—great, swell, orchestral, solo, echo and pedal—contains 189 stops and pedals, controlling nearly 6000 pipes.

IS TROLLEY MERGER PLANNED? Wilmington Is Trying to Establish Truth of Rumors. WILMINGTON, Del., Jan. 27.—Financial circles here again are interested in rumors that the street railways are about to be combined. For a number of years, the Wilmington and Philadelphia Traction Company, which controls the older line and the electric light plant, has been trying to purchase the line of the People's Railway Company, owned by the estate of John Dohson, in Philadelphia, and J. W. Crook, of his city. It is understood, however, that the company was unwilling to buy the line because of the People's Railway Company. The rumor that the People's line was to be sold was revived recently, but later there was talk that the People's Company had turned the tables and made an offer for its old rival. Both companies refuse to confirm either of these rumors.

ITALIAN ENVOY MEETS GREY Mobilization Completed, Conference Regarded as Significant. LONDON, Jan. 27.—The Marquis Imperiali, Italian Ambassador; M. Missa, the Rumanian Minister, and M. Boskovich, the Serbian Minister, called at the Foreign Office yesterday and conferred with Sir Edward Grey. His statement was made regarding the purpose of the conference, to which much significance is ascribed, because it comes at the completion of the mobilization of Italy and Rumania.

DISHONEST DEALERS, GOBLINS 'LL GET Y' IF Y' DON'T LOOK OUT Housewives See How They Are Cheated at the "Learn to Buy" Show, So Beware!

Dishonest tradesmen, beware! The goblins, in the shape of newly enlightened housewives, will get you if you don't watch out. They've "got your number" now, and if you don't believe it, take a little trip to the Learn-to-Buy exhibit which opened in the City Hall courtyard last night, and hear some of the conversations that the display of fraudulent weights and measures is calling forth from Philadelphia's astonished housewives. "My land," said one interested little woman, holding in her hand a half-pound measure, "who would have thought to look for anything like that?" Viewed from the exterior, the measure seemed a perfectly normal sized recep-

Navy blue, maroon and dark oxford gray. SPORTING GOODS DEPARTMENT, THIRD FLOOR

COAL FIRM SEEKS TEST Weaver Company Wants Refusal of Bid Considered. Announcement was made today by the coal mining and shipping firm of J. H. Weaver & Co., of this city, that it would ask the Bureau of Mines to make another test of coal to be used on the canal zone. Acting on a report submitted by the Bureau of Mines, Secretary of War Garrison yesterday rendered a decision which prevents the concern from obtaining any of the contract for 500,000 tons of coal. "We feel certain that if the most vigorous tests were applied from every point of view," said a member of the firm, "not only as to comparative heat and other features, Pennsylvania coal would surely stand the test." J. H. Weaver & Co. bid \$5.25 a ton for Colver coal, to be delivered at Tidewater, while the Virginia contractors, W. C. Atwater & Co., who were successful in receiving the award for 20,000 tons, bid \$2.70 a ton.

JUVENILE GLADIATORS HELD Police Put a Stop to Fierce Combat on Street Downtown. Scratched about the face, minus their hats and with hair disheveled, five boys stood before Judge Gorman, in the Juvenile Court today, charged with fighting on the street. They were arrested at 3d and Carpenter streets, by Police Sergeant Montgomery, of the 7th and Carpenter streets station. Dominick Jerome, 13 years old, of 214 Hall street, who appeared to be the spokesman, told Judge Gorman that for several weeks he and his pals had been on the lookout for a rival gang. The boys were on their way to school when they came face to face with their "enemies" as young Jerome expressed it. Books, pads and pencils were thrown into the gutter. Stones were exchanged between the five prisoners and their rivals. A storekeeper at 3d and Carpenter streets telephoned to the police. Sergeant Montgomery arrested Jerome and four other boys. The opposition faction escaped. The prisoners, Joseph McAllister, 13 years old, of 297 Hall street; Samuel Waldman, 13 years old, 294 Carpenter street; Joseph Wincock, 8 years old, and Harry Lane, 13 years old, of 216 Hall street, were held for a further hearing.

STRANGER IN CITY ROBBED Victim of Theft Also Loses Fur Coat and Other Clothing. "He was a stranger and they took him in." Then, in the middle of the night, a man who took the stranger into the fringed Mission got up, donned the stranger's clothes, including a valuable fur coat, presented the stranger's receipt for \$20 to the desk clerk, obtained the money, and, passing through the door, disappeared in the night. The stranger, who is Samuel Schmidt, of Texas City, Texas, four years in this country from Russia, awoke this morning to find himself in possession of a tattered old suit, a sweater too small and too dirty to wear and a searotter hat. With such of this attire as he had to wear to conform with police regulations, he went to the Detective Bureau at City Hall and told of his loss. "Shall I hang myself?" he asked the detectives, and then again, "shall I hang myself?"

Wants Darning Taught in Schools NUTLEY, N. J., Jan. 27.—William J. Kinsley, a member of the Board of Education, is urging that darning be added to the course of studies in the local schools, a matter which has been referred to the Teachers' Committee.
