No attempt was made to work on the steamship Caterino, which is lying at Girard Point, as the isolated position of the place invites trouble.

The demands of the men for 60 cents an hour instead of the 50 cents now paid is extortionate, according to the employers of the longshoremen. In addition to this the men want 20 cents an hour for overtime and \$1.20 cents an hour for sunday work. This would give the longshoremen \$12 for work on Sundays alone. Yew men would report for work during the week, it is contended by the stevedares, if this scale was granted. Other ports along the Atlantic coast pay less than the wages paid here, it is said.

A leader of the strikers, said to be prominent in the Industrial Workers of the World, declared the men would remain out.

"Taking advice from my counsel," he said, "I deem it necessary at this time to set forth one or two essential facts. I do not detest Bishop Rhinelander as a man, but fall to agree with him on several points relating to ecclesiastical leader-ship."

The Rev. Dr. Richmond praised the Bishop for his statement regarding neu-trality. The accused rector said he felt

a "thrill of pride at such a noble utter-ance" from his Bishop, "Secondly," he said, "I regret my Bishop did not call me to see him, as is the custom in a democratic church, before he gave consent to the presentment. Further, the Bishop has indicated no line of action or retraction for me to make." It is probable Doctor Richmond's case will go to trial tomorrow. He must first enter an appearance and a plea.
