

SCENES IN DAY'S GRIST OF NEWS FROM HOME SOURCES AS CAUGHT BY THE CAMERA

SCENE ON COBB'S CREEK AT 56TH STREET, ALONG WHICH MUNICIPAL COURSE WILL BE LAID OUT FOR CITY'S 20,000 GOLFERS

**CITY'S PLAYGROUNDS FIRST TO HEAR DISTANT CALL OF SPRING**  
The present system of municipal recreation centres was authorized in 1911. Year by year the playgrounds have become more popular. Each has its supervisor and instructor, who enters fully into the spirit of the games played and sees to it that the children do not take unnecessary risks or overexert themselves. Who does not remember the thrill there used to be in sliding down the old haystack? Haystacks are few in a big city, but Starr Garden provides the next best thing, as the picture above reveals.

**THE SEE-SAW IS AS POPULAR AS EVER AT THE WECCACOE**  
This playground is on Catharine street, between 4th and 5th streets. The picture was taken on a cold day in mid-winter and proves that children have the craving for fun and exercise just as much in bleak February as on the warmest day in June.

**WIDE, OPEN SPACES PROVIDE ROOM FOR "JOIN-HANDS-AROUND" GAMES**  
The Weccacoe ground is situated in one of the most crowded sections of the city and one of the most populous in children. Almost all the sports most beloved of childhood can be seen going on at once in the hours when school is not in session. "Ring-around-a-rosy" is a big favorite here, especially with the girls, while the boys have plenty of room for the more strenuous games of football, baseball and basketball. If it were not for this ground, the youngsters would be forced on the streets.

REMOVAL OF OLD DWELLINGS MAKES POSSIBLE FROM WALNUT AND 34TH STREETS NEW VIEW OF UNIVERSITY OF PENNSYLVANIA CAMPUS IN WINTER
