### MYSTERY SHROUDS FATE OF VOYAGING GROUNDHOG

Disappears on Enforced River Trip From Reading to Philadelphia.

A groundhog is sleeping peacefully today somewhere along the muddy bosom of the winding Schuylkill or the Delaware. Either that or he is dead, and it may even be that he has reached a haven along shore somewhere between this city and Reading and has set up a new home. The little animal was sent on a journey down the river from Reading yesterday in a big packing box, according to a telephone call to W. S. Gulles, superintendent of Flat Rock Dam. The Reading experi-menter said he wished to test the velocity

of the flood waters in the river.
All day yesterday and all night a watch
was kept for the box with the groundhog, but so far it has not been seen.
Several theories have been advanced today as to what hapened to it.

One is that the groundhog paddled ashore: another that his boat was smashed and he was drowned, and still another that the box eluded the watchers at the dam and is now well on its way to the sea.
