EVENING LEDGER-PHILADELPHIA, THURSDAY, FEBRUARY 4, 1915:

TIT FOR TAT IN WAR **OFSTARVATION; FEAR** FOR BRITAIN'S FOOD

A.

Warning That New Declaration of Contraband on Foodstuffs May React. Possibilities of Blockade.

LONDON, Feb. 4 - While Germany's Duplied threat of a blockade of both the British Isles and the west coast of France is not regarded seriously here, the question of food imports, nevertheless, is giv-Ing pause to the populace, if not to offistaldom. It is conceded that the German submarine menace to British shipping is not to be disregarded. And now that Great Britain virtually has declared foodstuffe contraband of war, it is pointed out that there is possibility of that policy reacting against this country.

Britain's food supply is sufficient for no more than 60 days, according to the best expert estimates, and the German baast of a submarine blockade, to a detree menacing to the food supply of the country, is not considered altogether idle.

SUBMARINE BLOCKADE.

Operations of the German submarine flotilla have demonstrated clearly their wide radius. Almost encircling the Britinh Isles is a trail of wreckage, victims of the "undersea Emdens" of the German navy. Five merchant ships already have been sent to the bottom off Brit-

have been sent to the bottom off Brit-ish shores. Others have been pursued, and the boldness of the raiders has given the people here concern regarding the avenues for Britain's food supplies. Thus far Great Britain has found no craft or device effective in combating the submarine. The undersen machines have Milicted the greatest damage suffered by the navy and by British commerce, while the raiders themselves have the locat the raiders themselves have been the least sufferers. Now the Admiralty is gather-ing a huge fleet of steam fishing trawi-ers, known as the "mosquito fleet." in

ers, known as the "mosquito fleet," in an effort to protect its ships. The worth of these craft, beyond mine-sweening operations, is yet to be proved. More than 500 of these vessels have been requisitioned for this work. While the submarine is really feared, the threat of a blockade can scarcely have any foundation, in the general opinion here. To declare such a block-ade Germany must show a fleet sufficient in strength to conduct its operations after eliminating the British fleet. It is known no such strength can be mustered. The Powers would not recognize a "paper blockade," such as Napoleon attempted. The United States must be convinced, and the present status is far from convincing. The United States must be convinced, and the present status is far from convincing. Admiralty assurance are to the effect that the seas are free from German in-terference and that Britain stands in no fear of suffering even curtailment of its food supplies. Testerday in Paris Sir Winston Churchhill, First Lord of the Admiralty, said: "German commerce is ruined. Those of

German commerce is ruined. Those of

"German commerce is ruined. Those of their ships which have not fallen into sur hands have taken refuge in neutral ports, where they have been disarmed, and now the sea is free. "Thanks to this freedom of the seas, almost the whole of Asia is open to us and our allies as an inexhaustible source of supplies. We can say the same of Australia and Africa, and that means four fifths of the world."

CONTRABAND POLICY.

These assurances appear convincing enough, but now that Britain has taken the stand that foodstuffs are contraband articles, the people generally are less confident. There is no doubt here that Germany intends fully to carry out Admiral von Tirpitz's threat of using the submarine in his campaign to starve Britain, already seriously launched. The press of London in the last few days has issued velled warnings, one journal going so far as to state candidly that

CZAR'S FRONT FROM BLACK SEA TO BALTIC

To the north of the Lys there was an artillery combat yesterday, this be-ing particularly violent in the region of Nieuport.

At Notre Dame de Lorette, south-At Notre Danne de Lorette, south-west of Lens, a German attack launched on the afternoon of Fehru-ary 3 was driven back by the fire of our artillery, which likewise arrested a bombardment directed against the road between Arras and Bethune. In the region of Albert and of Quesnoy-en-Santerro we destroyed several blockhouses. blockhouses.

Throughout the valley of the Alsne there was an artillery combat, in which we gained the advantage.

The three attacks reported list night against our trenches in the region of Perthes. Mesmil des-Hurlus and Massiges were made by forces of the en-omy equal to a battalion at each point. The troops engaged in the first two were dispersed under the fire of our artillery. The third, to the north of Massigns, took advantage of the exployion of a mine to force itself for-ward. The entire position was retaken by us. New trenches were built by us at a distance of several yards from those which the German mine had wrecked and which had become uninhabitable

GERMAN

On the front between the North Sea and Rheims there were only artillery duels yesterday. Renewed French at-tacks near Perthes were repulsed with losses for the enemy.

losses for the enemy. North and northwest of Massiges, northwest of St. Menchould, the Ger-mans attacked yesterday. They stormed three successive trenches, one behind the other, and occupied the main French position on a front of two kilometres (about 11-5 miles). All two anometres (adout 115 miss). At the French counter-attacks which con-tinued during the night were repulsed. Seven officers and 601 solidiers were taken prisoners. Nine machine guns and nine smaller guns and much ma-terial were also taken.

RUSSIAN

The Russians in East Prussia have occupied fortified positions at Gross Medunishken on the left bank of the Angerap, which our troops have auc-ceeded in crossing after obstinate re-sistance. Fighting is becoming more frequent there and also more exten-

sive. On the right bank of the Vistula (northern Poland) fighting is pro-ceeding on the Lipno-Blesun front. The Russians have captured Skempe and repeiled the enemy from Blino with heavy loss. We captured the commander of a German battalion, three other officers and 100 men. Vigorous fighting is in progress on the second Vistula front, which runs through Borshy, Goumine, Wolksyzethrough Borzhy, Goumine, Wolasyze-Lowiczka, Tartak and Bolimow (west and southwest of Warsaw). The enemy's first line here consists of more than 14 regiments (42,000 men), together with large artillery. The heavy artil-lery is shelling our positions day and night,

AUSTRIAN

Russian attacks, continuing even during the night to the east of Beskid Pass, have been repulsed with heavy Russian losses. The fighting in the middle of the wooded mountains is taking a favorable turn.

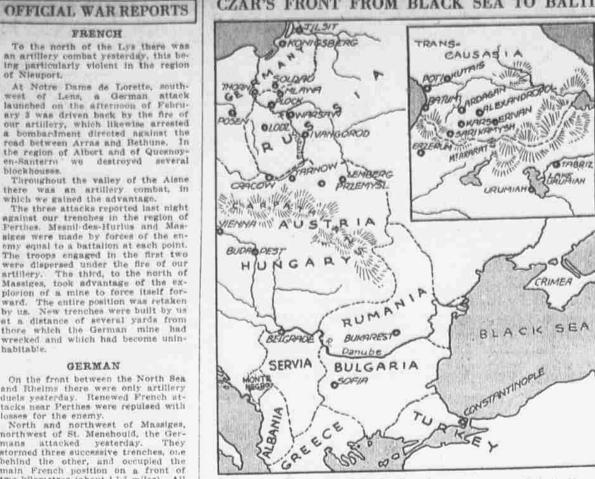

We and our allies yesterday captured a thousand prisoners and several ma-chine guns while winning heights which were stubbornly defended by the enemy.

BRITISH

During Tuesday night the enemy attempted to cross the Suez Canal near Toussoum, 15 miles north of Suoz. They were permitted to bring bridging material to the bank of the canal un-molested, but directly they started bridging operations our troops attacked, and the enemy fied in disorder, leaving all the material in our hands Several of the enemy were drowned The enemy also attacked on the El Kantara front, 40 miles south of Fort Said, at daylight today. They were easily repuised, losing 16 killed or wounded and 40 prisoners. Our cas-ualties were three men wounded.

OBREGON ENTERS ON

CAMPAIGN TO DRIVE

Scattering of troops and dissipation of energy have marked the Russian campaign during the first six months of the war. At present the front varies very slightly from that of the early days of hostilities, excepting for the addition of Transcaucasia to the fighting zone. At various times in the past drives have been launched at Koenigs-berg, Thorn, Graudenz, Cracow, Przemysl and Budapest. These still remain the Russian objectives, as lack of concentration has frustrated successive moves directed toward East Prussia, Galicia and Hungary.

"FAR FLUNG BATTLE LINE" BARRIER TO SLAV SUCCESS

Czar's Numerous Drives Lack Force Needed for Decisive Results, as Concentration Is Impossible in Vast Area Covered by Campaigns.

ment commensurate with the forces in the field, the resources employed and the energy expended.

The only advantage that fairly may be credited to the Russian General Staff in the first half year of the war is pro-In the first that year of the way is pro-tection of Warsaw from the several Ger-man campaigns directed against it and thereby prevention of a Teutonic sweep through Russian Poland with a possible capture of Peirograd last fall announced capture of Peirograd last fail announced as the goal of the Kaiser's ambition in eastern zone.

More than a hundred years ago mill-More than a hundred years abively of tary historians stressed the abively of the Slave in bereinve campaigns. Or this Napoleon's worsting in his Russian invasion and his disastrous retreat from Mosrow are proof. Repulse of the Ger-mans in their offensives from Mlawa and Silesia and of the Austrians from Galicia function budges of the Museo furnish modern examples of the Musco-

First-line troops have carried on the forays which have succeeded each other with regularity against alien fronts-against Cracow, against Koenigsberg, against Fosen, against Breslau, in all cases with the common factor of Berlin as objective.

But time and again possibility of at-taining the ultimate goal was lost, as desperate endeavor to push to the imrediate goal was thwarted. And back of each frustrated effort lay the same causecattered energy where concentration was Evidently those directing the Siav camnaign have learned little by the lessons of the past: by the defeat inflicted by Von Hindenburg at Tannenburg, at the time of the Czar's first plunge into East Prusof the Crar's first plunge into East Prus-sia last August; by the repulse of two drives which brought Cossack outposts as far as Miechow and Wielika in the Cra-cow operations; by the November raid which carried the Russian vanguard to Pieschen over the border of Posen, and threatened both Fosen and Breelau; by the overflow into the plains of Hungary last October, and by divers movements directed against the great Prussian stronglirected against the great Prussian strongdirected against the great Prussian strong-hold of Thorn. For Slav war history continues its repe-titions. At present oft-traced paths are again trod by Russian corps. Late last week a new drive began against Koenigs-berg, by which it was hoped to gain the East Prussian capital by way of Tilsit. This apparently has been checked. Most enoctacular of Eusting drives has

taken

daily

The Czar's "far-flung battle line," been that against Cracow, and on two stretching, with few gaps, from the Bal-tic to the Black Sea, appeals more to the poet than to the practical mind of the military strategist, as its very length makes for diffusion of effort over a wide range, and a consequent lack of achieve-has been held at Tarnow and along the Donajec River, while that proceeding against Cracow through southwestern Poland evidently has ceased operations as a separate campaign. Advantages won but not held in Galicia have left the net result of possession of Lemberg, toward the Czar's home territory, and of westera Galicia as a base of operations against the Austrian forces, strengthened by Germans in the Carpathians

A sweep of Hungary through the mountain defiles, the logical consequence of mastery of Galicia, and a definite menace of Budapest and even Vienna.

Entry of Turkey Into the war furthen dissipated Russian energy. The first Ar-menian drive falled and nothing decisive is to be reported now from this Oili re-cion. South of Batum, in the Ardagan fighting, it is not yet certain that a sig-

nal success has been won. The Russians have the advantage in the battle for pos-session of Tabriz. At home, in Poland proper, the Rus-At nome, in Foland proper, the Rus-slans are spread over several fronts, only one of which is accomplishing its purpose, that guarding Warsaw, from Novo Georgievsk on the north to Ivan-gored on the south. Here Marshal von Hindenburg's offensives, this time more tenacious, if leas ferocious, than that of two months are also around the of two months ago, also against the anital ha

BRITISH FEAR NEW DRIVE; **RUSH TROOPS TO FRONT**

Contingent of 47,000 Hurried Across Channel to Reinforce Lines. LONDON, Feb. 4.

Within the last three days the British War Office has sent about 47,000 fresh British troops across the Channel to meet a new offensive movement which the Germans are expected to make all along the line in west Flanders and northern France.

General Joffre, Commander-in-Chief of the Allied armies, and Field Marshal Sir John French, commander of the British expeditionary forces, learned through spiss and the alled aerial services that the Germans have been massing men and artillery along the northern front for about 10 days.

FRENCH AIR RAIDERS SHELL ADRIANOPLE IN FLIGHT FROM AEGEAN

Sortie From Entrance of Dardanelles to Bombard Turkish City-"Effective Execution" Reported.

ATHENS, Feb. 4.

French aviators, operating from the international fleet over the western entrance to the Dardanelles, have bombarded the Turkish city of Adrianople, where they did effective execution, according to a wireless dispatch from Salonika.

Adrianople is about 120 miles from the point in the Aegean Sea where the French and British warships are carrying, on their bombardment. It would be easy for the airmen to keep over Turkish waters and Turkish soil in making the flight without menacing the neutrality of Bulgaria, whose soil now extends south to the Aegean Sea.

GERMANS TAKE THREE LINES OF TRENCHES AT MASSIGES

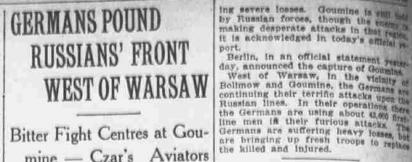

Capture of 608 Prisoners Announced in Berlin.

BERLIN, Feb. 4.

The capture of the main French position north and northwest of Massiges, in the Champagne region, is announced in an official report from the German General Staff issued here this afternoon. It states Stan issued here this afternool. If states that there successive French trenches were captured by the German troops yes-terday along a front of more than a mile, and that these have been held, despite the continued counter-attacks of the

the continued counter-attacks of the French soldiers. The report declares that in the fighting around Massiges the Germans captured seven officers, 601 soldiers and 18 guns, together with a large quantity of war material.

(The French reports today admit the loss of trenches at Massiges, but say they were afterward retaken.)

Bitter Fight Centres at Goumine - Czar's Aviators Drop Bombs on Foe's Concentration Camps.

All Foland, from Warzaw to the Prus-sian frontier, is now a bloody battle-ground, Official dispatches today reported furious German attacks along the Baura. Southwest of Warsaw the Czar's aviators rained bombs with deadly effect upon German concentration camps at Rawa, Brzezimy and several other points along he railroads.

the railroads. Many German soldiers were killed by the aviators in their aerial bombardment of the positions held by the Kaiser's troops southwest of Warsaw. Official an-nouncement of the successful operations

nouncement of the successful operations of the aviators was made here today. Hundreds of wounded Russian soldiers and many German prisoners are arriving in Warsaw daily. Most of these are from the Bzura region, where the most des-perate fighting has been in progress for a week. The trenches near Borshymow are now so clone together, they reported, that rifle fire scarcely ever ceases. All night German artillery plays upon the Russian trenches. Russian trenches. Stubborn hand-to-hand fighting contin-ues at all hours, with both sides suffer-

EVENING POST

The Pinch of Poverty

THE whole world is feeling the pinch of hard times. Thrifty people are cutting off luxuries and are trying to get out of debt. Even the richest corporations are keeping down expenses and are postponing expansions. The railroads are merely living from hand to mouth. Why shouldn't the National Government fall into line and put the soft pedal on all needless expenditures?

Economy and Efficiency in the Federal Government

By Former President Taft

N two notable articles, bristling with common sense and exact information, Mr. Taft tells how to save a million here and a million there until a vast total has been reached. The means he proposes are specific and practical and were first proposed by a non-partisan committee that made a profound study of national finances during the Taft Administration. The first of these articles appears this week.
