The Greatest Ever

Colonel William Klem, umpire extraordinary, offers this testimony in regard to golf: "It's the greatest game I over tackled, bar none. After spending five minutes in a bunker I'm ready to cross languages with any ball player in the business."

Bill, however, can't see golf, as an old man's game. "I find," he says, "that I can't play golf in the morning and umpire in the afternoon. Every time I miss a short putt it takes a lot out of me and upsets my nerves too much to call the close ones right. But to make up for what I miss in the summer, I play all winter, regardless of rain, snow or anything else."

Lost Opportunity

John J. McGraw has lost an all-star opportunity to put one over to charge Bill with being a golf player in the first degree at every close one given against the Giants.

Then down in Havana, John J. himself was bitten by the Scottish germ and has a virulent case, thereby demolishing all golf rebuttal.

Makes Willard 2-to-1 Favorite Sir-In a war with Germany, Amer-

ica would last about as long as Willard will last against Jack Johnson. And not a round longer. H. G. G.

Here's a tip to the promoters of the Johnson-Willard fight-why not stage it in East Prussia midway between two charging hordes of Cossacks and Unians? If this suggestion is adopted all we ask is 10 per cent. of the net recedpts.

We could better sympathizs with Germany's battle for "a place in the sun" if the Tentonic intention was to establish a number of new golf courses or training camps for ball clubs. Butsince Germany at home doesn't go in for either, we fail to see just where her althi holds up.
