WHEAT RALLIES AFTER EARLY DECLINES TODAY. May Closes at \$1.61 1/4, and July at \$1.33 1/4—Europe Takes Heavily for Export.

CHICAGO, Feb. 18.—The heavy trading of wheat in all positions for export probably was the strongest factor on the Board of Trade today. These takings were estimated at 3,000,000 bushels by England, Holland, Italy and Greece.

The highest price for May wheat was \$1.61 1/4, and for July, \$1.33 1/4. These prices showed seasonal advances from the lowest points reached and were net gains of 1 1/2 cts. for the day.

Only 23,000 bushels of cash wheat were taken here for milling purposes. The market closed at \$1.61 1/4 and July at \$1.33 1/4.

Foreign news today was rather conflicting regarding the unsettled market here. Reports from Italy show that millers have thus far bought sufficient wheat for the remainder of the season.

NEW YORK, Feb. 18.—The position of the stock market today was a peculiar one. There was the same hesitating tendency in evidence for the last several days because of certain diplomatic developments and the blockade of the British Isles by Germany was again present.

These sales were thought to be principally for German account, and included many of the standard issues. Numbered among the securities sold were Southern Pacific refunding 4s, Rock Island refunding 4s, Northern Pacific 4s and 3s, St. Paul 4s and Central Pacific 4s.

MINNEAPOLIS and St. Louis securities, which have been strong for the last several days on the report that the road would be taken over by the Government.

PHILADELPHIA MARKET IN STAGNANT MOOD. Rapid Transit Received Support—Northern Central Reported Sale of Treasury Assets.

There was little worthy of discussion in the day's dealings on the Philadelphia exchange. Price changes were insignificant except in the stocks with a market in New York.

Electric Storage Battery hardened in response to the declaration of the 1 per cent. quarterly dividend.
