TOWN AROUSED BY MATERIALISM HIT IN LENTEN SERMON

Followers of Comte, Spencer, I N. J., Paper Follows Revival James, Eucken and Bergson.

Broad churchman or liberal Christians. who are under the intellectual domination of materialistic philosophers like Comte, Spencer James, Sucken and Bergson, were criticised today by the Rev. Dr. Carl E. Grammer in his noonday Lenten sermon at St. Stephen's Protestant Episcopal Church, 10th street above Chestnut.

The speaker mentioned no names, but let it be inferred that materialistic philosphy was behind the attitude which has been adopted by ministers of various churches in this city who opposed "Billy" Sunday.

"Churchmen under the sway of materialist writers.' said Doctor Grammer, "ascribe all progress to environment either intellectual or social and do not understand the phenomena of religious experience."

Other churchmen, he declared, accept the teachings of science as to nature, and of scholars as to sacred literature, but have learned from Wordsworth and Browning that spirit is superior to mat-ter. Hence they ascribe to man the power of creative energy like that of the Heav-enly Father. Mr. Sunday, the speaker asserted, is in

fundamental agreement with this, and regards his mission as proof of that spirit which can awaken spirits.

Doctor Fry spoke on "Serving Christ." No one, he said, was able to emulate the majesty of Christ, but in service there was an example for

every one. "Service is the outstanding feature of the life of Christ," he said. "It is pos-sible to be in daily, hourly and constant bonds of service."

The first of a noon-day Lenten series of sermons on "Studies in the Character of Christ" was delivered to a large audience at Old St. Peter's Church, 3d and Pine streets, today by the Rev. Harry D. Viets.

The speaker said that the goal of Christianity is the attainment of charchristianity is the attaination of character of Christianity is found in the person of its founder. The revelation of character in Christ is made effective, he said, as His influence is brought to bear upon the

SPIRITUAL VALUE IN FAST

Bishop Rhinelander Discusses It in Lenten Address.

The Rt. Rev. Philip M. Rhinelander, bishop of Pennsylvania, explained the necessity of fasting during the Lenten sea-son at the noonday service for business people at Christ Church, 2d street above Market, today. Continuing his sermon of yesterday moon, he said fasting is of immense spiritual importance to the body. "The motive," said the bishop, "is a display of respect, honor and reverence through the body for God. The object is to receive inward spiritual effect to over-

come the opposition of the body to the teachings of the Scriptures. There is an element of revolt on the part of the body and this weakness must be made strong "There are two points, the negative and the positive. The negative is to cut out all cvil opposition to fasting in order to

SERMON ON CONFESSION

Dean of Divinity School Says It Is Condition of Forgiveness.

"To be straightforward, definite and to intend to forsake sin is the way of for-giveness," said Rev. Dr. George C. Foley, dean of the Divinity School, in a Lenten service on the "Confession of Sin" at the Old St. Paul's Church, at 3d and Walnut

streets, this noon. "Confession is, indeed, a condition of forgiveness; otherwise there is no guarantee of a desire to get rid of it," he con-tinued. "Confession is more than the mere admission of the fact. We readily call ourselves 'miserable sinners,' but are call ourselves "miserable anners," but are reluctant to specify in what particular. St. Francis Navier, after hearing more than 70,000 confessions, said that not a penitent ever admitted the sin of covet-ousness. Confession is more than general acknowledgment. Pharoah, Saul and Ba-hear and d. have simed, but each hear laam said, 'I have sinned,' but each kept on sinning. Judas, at least, gave up the wages of iniquity. But David and the Prodigal meant by the same words that they were relinquishing sin."
