Inecial Correspondence Evening Ledger. FINE NOTCH, N. J., Feb. 27 .- Newton sail had filled the mysterious order for two dozen boneless eggs, notwithstanding the protestation of his brothers, the mil twins. The twins are sticklers for nets and, above all things, pride themselves on their old-fashioned business territy. It had taken them years to solid up an honored specialty in dill pickles, and one of the immutable rules they followed was "Never fill an order that you are not positive-gosh-darn-certain about.

"I don't see where that fits into this here case." News Bull shot back. "I'd do the same if I got an order for hump-back eggs. This order o' mine calls for backers of the same if I got an order of the same set of the same eless eggs, an' its a special hurry-order by parcel post or express. As chairman of the hard questions committee o' the board, I'll take that matter up and put it through so that

there won't never be no doubt hereafter regardin' jest what a boneless egg is." "Well, what is it?" cried the Bull twins in eager chorus. "That'll be for the majority members of

"But supposin' they don't vote on the defly shifting that covers the eggs you sent out in such an all-fired reckless hurry?" asked Bob Bull, "That'll put you into a mean hole so far as business honesty is consarried, an' business hon-strip her a family poten of the Bulls sty's been a family notion o' the Buils ever since great-granper settled into Pine Notch. was concerned. When old Doc Smother got to the house he found the venerable Mr. Bull recumbent in his grandfather's wing chair, rather a bit all in after hav-ing torn out his telephone by the roots. In his rage he had forgotten the simple elementary principles of electricity, wherefore he had acquired a severe shock that had hurled him through the sitting room door in such a manner, according to the cook, that he had turned two complete somersaults before landing neatly into the chair in which he sat, foaming a light at the lips and mumbling incoherently the old nursery rhyme:

Tiggy-tiggy-touchwood, my black hen. She lays eggs for gentlemen. Sometimes The and sometimes ten, Tiggy-tiggy-touchwood, my black hen. Old Doc Smother worked over Zedeklah Bull for two hours before he brought him round and got him to bed, and out of re-

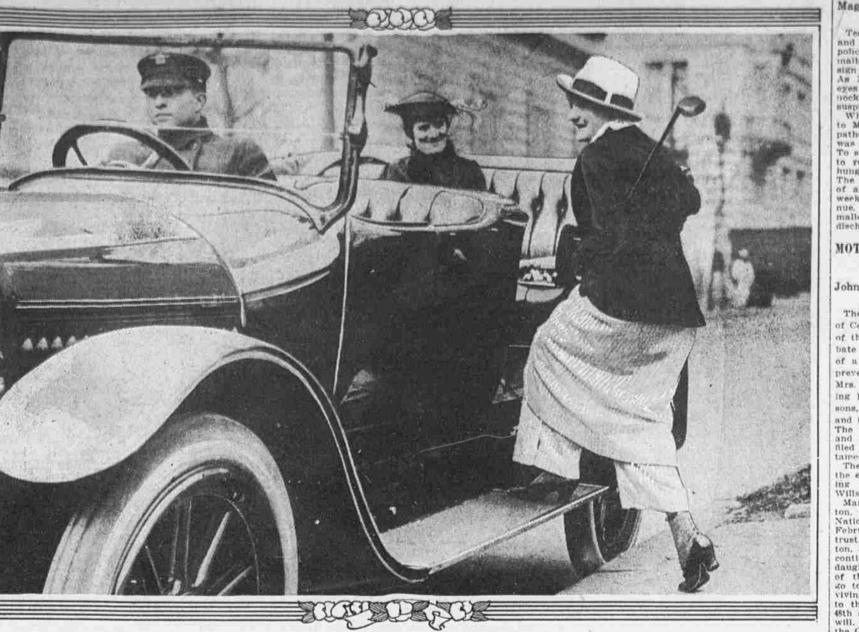

spect for his father's indisposition Newt Bull has been compelled to postpone the second regular meeting of the Pine Notch Board of Poultry Trade for several days. When it does meet, however, big things are looked for.

Rev. W. A. Warner Blames Economic Injustice on Men Who Do Not Think.

Men who do not think were held responsible by the Rev. W. Arthur Warner in his noonday Lenten sermon today at SL Stephen's Church, 10the street above Chestnut, for housing evils of Philadelphia "that first make children fight for life and then provide the environment that is a trap to ensnare the soul." He said that economic injustice enslaves too many, "They are bound," he said, "not only

When Ben Pintson isn't in a hospital or a police station he spends his spare

Several motormen saw the light swinging, and stopped their cars. When they made in-quiry, Ben replied by singing, "I've Been
