BOY SCOUTS

#### THIS DEPARTMENT IS PUBLISHED EVERY TUESDAY AND FRIDAY

The presentation of two gifts marked the stated meeting of the Philadelphia Essecutive Scout Council, held at the Art Club Thursday evening. One was a gavel to Dr. Charles D. Hart, chairman of the Executive Scout Council, presented by the council, and the other was a formal transfer of the copyrighted certificate of Dr. R Tait McKenzie's statue to the Philadelphia Boy Scouts. The officers and memebrs of the council were re-elected for the ensuing year.

Doctor Hart was surprised by the gift. which is of ivory and wood, decorated with silver and bearing the emblem of the Boy Scouts in gold and enamel. "I am glad it is a gavel," he said when Assist-ant District Attorney Charles Edwin Foz premented the gift. "I was afraid it

The statue, which is Doctor McKenzie's gift to the scouts as a member of the council, is now on exhibition at the Academy of the Fine Arts. It is 18 inches high. The statue is the first bronze American Boy Scout, the only other in the world being in France. Copies of it will be made of plaster and of bronze

and copper for distribution among the sconta of the United States. Doctor Hart was re-elected chairman; Director George D. Porter, scout commissioner; Orlando Creese, Jr., treasurer, and Roy Smith Wallace, secretary. The fol-lowing members were elected and appointed to committees: Executive Com-Orlando Crease, Jr., treasurer; Stanley R. Yarnall, Louis M. the heartwood out.

Hickory is the best firewood, whether green or dry. It makes a hot fire that lasts a long time and makes excellent coals. After hickory, the next best are post, bur, white, chestnut and red oaks, beech, agar maple, ironwood and dog-wood. All the birches make good fuel. torus is good for night wood, because it makes a slow-burning fire and leaves fairly good coals. Mulberry has similar qualities, White ash makes a good fire-wood while green. The wood is of so dry a nature that it ignites quickly, burns with a clear flame and burns burns than with a clear flame and burns longer than any wood of equal weight. The scarlet and willow oaks, cherry, white elm and slippery eim are the poorest of the hardwoods for fuel.

woods for fuel. Most of the soft woods are inferior as firewoods. Some of them make good kindling or quick-burning fires. Tuip poplar, red cedar, arbor vitae and willow are poor fuel. Seasoned chestnut, bass-wood, white pine, tamarack and spruce make hot, quick-burning fires. The best steen softwoods are white birch, paper birch, silver maple and cottonwood. For birch, silver maple and cottonwood, a quick-burning fire, free from smoke, the bark of dead hemiock, hickory, pine and sugar maple cannot be excelled. A good book that every scout should read on making fires is "Kephart's Book on Woodcraft and Camping."

## Fuel Value of Woods By EAGLE SCOUT EDWIN ARM-STRONG

Ashbourne Troop No. 1. Firewoods may be divided into two groups, hardwoods and softwoods. As a general rule the hardwoods burn well and

leave good coals, while the soft woods make a hot fire that soon burns out and heaves to coals. However, there are some exceptions to this rule. Some woods burn better when they are seasoned and son
