WASHINGTON, March 24. With the destroyer Warrington, from Guantanamo, either strendy at San Juan, Porto Elico, or rapidly nearing there, and the revenue cutter Algonquin following as fast as its more moderate speed capacity will permit, officials were confident today that there would be no further breaches of neutrality there.

It was expected by the Department of Justice that the German steamer Odenwald, which tried to run to sea Sunday. would be libeled today. Orders to secure the necessary court action were sent to the District Attorney at San Juan by Attorney General Gregory last night.

"Lightship" in French, the language is which the message was sent, is "batteau-leu," meaning literally, "ship of fire." Some one whose knowledge of French was attained in six easy lessons, got hold of the marconigram and translated it to mean that the Champlain was passing a ahip on fire.

The mistake was rectified before the Champlain reached her pler. PORT OF PHILADELPHIA

#### WAGES OF SIN CERTAIN

Lenten Preacher Says The Payment Is Just and Inevitable.

The law of the Lord is just as exact as the laws of business, and sinners and workers in inequity will receive their pay in wages-the pay of sin-while the wages of God are life, said the Rev. Dr. Charles Smith, of Trinity Lutheran Trinity Lutheran Church, of New York, in a hoonday Lenten sermon at St. John's Lutheran Church, 5th and Race streets. "Commercial

Trust, who poisoned her husband three years ago. I have taken a personal interest in her: I even called on her at the Taking as his subject "Commercial Law in Religious Life," Mr. Smith said: "The foremost problem in the minds of ployer and the worker are all deeply interested in it. The worker is the largest most important part of Morally every man is a wage-earner He works in sin and is pald in sin. Sin is one of the most bideous things in the world and pays wages in its own hideous form. It is never bankrupt.

"The wages of physical sin are broken and decrepted body, diseased painful and full of anguish. The wages of intellectual sin is a beclouded vision of life, loss of happiness, moral failure, and the sin against God's law draws wages which are always paid.
"The Lord's law is just as exact as

When pay day comes the workers of inequity must step up and In 1850 be opened a paperhanging store at 408 Arch street, and kept it until the Civil War. These are God's best gifts, and they are legal tender in Heaven."

## BISHOP RAPS REVIVALISM

Lenten Speaker Also Attacks Sentimental Devotionalism.

Bishop John N. McCormick, speaking at a noonday Lenten service in the Gar-rick Theatre today, continued his dis-course on the First and Second Com-

mandments begun yesterday.
"I wish to show today that the only true religion is that which comes from the heart," he said; "but I also wish to show that people who do worship from the depths of their hearts have two extremes to avoid; namely, sentimental devotionalism and revivalism.

"When God speaks to the heart and soul and mind He does not speak in the terms of science, but uses the com-mon language of every-day life. So should our appeals to Him be simple and direct and our attitude that of the child to the parent."

# Hupmobile

Ask the Woman Who Drives

One woman who drives a Hupmobile, spoke for all others when she said: "I feel when I am driving the Hupmobile as though I were a part of the car—or as though it were a part of me."

She meant, of course, that the Hupmobile responded immediately to every impulse or direction she gave it. She meant that it is always as easily and complete-

ly under her control as her own movements. She meant that she always feels safe and sure and secure, because she always knows exactly

what the Hupmobile will do under any and all circumstances. A woman knows, for instance, that the Hupmobile motor will not stall-and because it can not, therefore it's safest.

She knows the turning radius of the Hupmobile is remarkably small for a car of its length. That makes it easy to handle. With a wheelbase of 119 inches, the Hupmobile will circle

in a 40-foot street. The motor is so flexible that she gets along with a minimum

of gear shifting. The steering is so easy that a child can guide the car almost without effort.

The driving seat is made with a scientific regard for her comfort—with a high, restful back, and the seat cushion tilted at precisely the right angle.

She gives no thought to emergencies which might require repairs, because she knows that repairs are so few and far between that they can safely be forgotten.

The Hupmobile is always a source of pleasure to the woman who drives or the woman who rides.

That's why in every Hupmobile home there's a woman who is a Hupmobile enthusiast.

Let us give the Hupmobile merit-test at your convenience.
