

MILLVILLE EPIDEMIC GROWS; FOUR NEW SMALLPOX CASES IN CAMDEN; VICTIM MISSING

Seventy-five Cases Believed to Have Developed in Millville. Criticise Authorities.

No Adequate Quarantine as Yet Established, as Physicians Have No Way of Enforcing Necessary Precautions Under the Present Laws.

From a Staff Correspondent.
MILLVILLE, N. J., March 25.—Five new cases of smallpox had developed here this afternoon before 1 o'clock, and citizens openly criticized the authorities for what they called lax methods of dealing with the situation.

So far no adequate quarantine has been established, as there is only one man on guard in each city ward to see that victims of the disease stay in their homes. Health authorities here absolutely refused to give out definite figures on the number of cases discovered. From statements made by a majority of those working to check the spread of the epidemic, it is apparent that a conservative estimate would be 75 cases.

MANY OPPOSED VACCINATION.
Tetanus cases following vaccination in a light epidemic five years ago created a prejudice in Millville against vaccination, according to the statement of Dr. J. H. Wade, chairman of the Board of Health. Doctor Wade said five cases of lockjaw developed at that time. One of the victims died.

The medical inspector, Dr. C. Bowen, who arrived here today, has sent for two assistants. He declared the task of establishing and maintaining anything like a quarantine was much too big for one man, even with the assistance of all the local authorities.

There is no compulsory vaccination law in New Jersey, and the authorities have had to resort to the compulsory education law to get the school children vaccinated. All parents of pupils are being notified that their children must be vaccinated or kept at home. If they keep the little ones at home they will be protected under the education laws.

TO VACCINATE R. R. MEN.
Two physicians from Camden have been sent here by the West Jersey and Seaboard Railroad Company to vaccinate railroad employees who came in contact with E. B. Goodwin, the railroad brakeman, who is suffering with smallpox in the Camden Municipal Hospital.

So far the authorities have refused to take any action on the demand voiced last night by citizens at the mass-meeting that the schools and moving picture places be closed. The schools are still open today. So are the moving picture houses.

Goodwin, the railroad brakeman, was on an excursion train going to Stone Harbor last Sunday. It was learned today that the school and moving picture places be closed. The schools are still open today. So are the moving picture houses.

Inspector Bowen decided today that any family visited by a member of another family in which there is smallpox must submit to vaccination or remain under quarantine. He is at a loss how to enforce this.

Doctors of the City Across the Delaware Prepare for Spread of Disease.

Patient Who Left His Home Sought by Police of Camden and Philadelphia—All Coming From Millville Are Warned to Be Vaccinated.

Four new cases of smallpox, it was learned today, have developed in Camden, and one of the persons infected with the disease is at large in that city or in Philadelphia.

As a result, the Camden authorities prepared to head off an epidemic similar to that in Millville, N. J. The police of both cities are seeking the man still at large, in whom the disease is said to have developed to the malignant stage.

The four cases bring the total under treatment there up to five. The three daughters of William J. Smith, Sr., and his son, William J. Smith, Jr., 20 years old, of 204 Watson street, have smallpox. The latter is missing. Another son, so far has escaped infection. The Smith sisters are still in their home in East Camden, which is under a strict quarantine. Policemen are guarding front and rear entrances.

The other case in Camden is that of Eugene B. Goodwin, a Pennsylvania Railroad brakeman from Millville. It was through the diagnosis of his ailment as smallpox that the real nature of the disease in Millville was brought to light.

HOSPITAL QUICKLY FITTED UP.
Camden's old Municipal Hospital is being fitted up to handle the smallpox cases. Cots and medicines are being installed. The Camden authorities have secured a number of nurses, and Dr. L. H. Davis, president of the Camden Board of Health, said this afternoon that the hospital is ready to handle every case that is discovered.

Dr. H. H. Davis, president of the Camden Board of Health, said this afternoon that the hospital is ready to handle every case that is discovered. He said that the city is responsible for the spread of the disease.

description of Smith has been given to every policeman in Camden and also has been sent to the city. Members of his family told the health authorities that his last case was covered with a heavy rash. They did not know where he intended to go when he left the home this morning.

The Smiths moved to Camden March 23. Concluded on Page Two

MOTHER CRAZED BY
DEATH TRIES TO DIE

Throws Herself Before Trolley Car When She Learns Child Was Killed by Wagon.

A distracted mother attempted to commit suicide beneath the wheels of a trolley car at 15th and Jackson streets this afternoon after she learned that her baby boy had been killed when the wheels of a heavy wagon passed over his body.

The boy is Charles Lettierello, three years old, of 125 1/2 1/2 street. He was crushed and chest was crushed. Physicians said death had been instantaneous.

When Mrs. Antonio Lettierello, the mother of the little fellow, was told by a neighbor that the boy had been killed, she became hysterical. She dashed down the street and hurled herself in front of an oncoming 15th street trolley car. The motorman applied the brakes and brought the car to a stop before the wheels had touched her body.

Neighbors dragged the woman from the tracks, and she was then taken to the Methodist Hospital and led by nurses into the room in which the body of her boy lay. Mrs. Lettierello swooned. When she revived she called repeatedly for her child. Nurses and physicians wept. Antonio Bell, driver of the wagon, ran away after the accident happened. He was arrested by the police today. He is employed by Peoples Brothers. He disappeared in the lots at the extreme end of the city. Acting Detectives McCullough and Dean, of the 15th street station, are making a search for him.

LEADERS BOW TO WILL
OF GOVERNOR BRUMBAUGH
Organization Chiefs Agree to Support Executive's Bills.

From a Staff Correspondent.
HARRISBURG, Pa., March 25.—"The Republican Organization leaders have agreed to support my child labor and workmen's compensation bills," said Governor Brumbaugh, in an interview today. He was asked whether he expects his workmen's compensation bill to be passed by the Legislature.

"Not only the workmen's compensation bill, but also the child labor bill will be passed," he said. The Republican leaders have agreed to support my child labor bill?" was another question.

"They have," answered the Governor. The Governor's statement that the leaders will support his child labor bill means that they have retreated from their position since the conference in the executive mansion last Monday night.

At that conference the Reynolds bill, which the manufacturers of the State were backing. Since then, however, they have shifted their support, apparently, to the Cox bill, which was drafted by the Governor himself, and will pass the measure with a few modifications.

The Governor will discuss his child labor bill with manufacturers of the State in the Bellevue-Stratford Hotel, Philadelphia, next Saturday. They have requested him to meet them and discuss personally all or all of the provisions of his proposed act.

POLISH CITY TO WHICH GERMANS APPLY TORCH OF REVENGE

Suwalki, capital of the province of the same name, has been set afire, according to dispatches today, in retaliation for the alleged depredations of the Russians in the German town of Memel. The picture shows one of the prominent thoroughfares through the city.

BRITISH DESTROYERS DASH PAST TURKISH FORTS, RETURN SAFE

Slip by Dardanelles Defenses Under Cover of Heavy Bombardment. Report Guns of Fleet Caused Great Damage.

LONDON, March 25.—Dismissing the part of the British destroyer Anson, two British destroyers can be seen in the Turkish straits at the entrance to the Dardanelles Narrows yesterday, according to a short distance from the British fleet, according to dispatches today from Athens.

The destroyers accompanied a flotilla of Anglo-French warships that entered the straits and shelled the forts at one time. Almost unnoticed they approached the narrow entrance and dashed by the forts. On their return they were greeted by salvoes from the Turkish batteries on both sides of the entrance, but escaped unharmed. Their observations, according to Athens, confirmed reports of victory that the Turkish forts suffered heavily from the bombardment one week ago.

More destroyers have been steadily engaged inside the Dardanelles and in the last four days have removed 20 floating mines of the type that destroyed the British battleship, the Ocean. From the Turkish positions on the hills great machine guns were kept firing at the British fleet, but the British ships were not hit.

The British fleet is now in the straits, and the Turkish fleet is being driven back. The British fleet is now in the straits, and the Turkish fleet is being driven back. The British fleet is now in the straits, and the Turkish fleet is being driven back.

WILL BURN FLOOR OF STORE TO RECOVER GOLD FILINGS

\$200 Worth of Dust Scattered in Crevices During Fire.

The floor of a jewelry factory at 8th and Sanson streets will be torn up and burned to recover gold filings which were scattered about by water this morning in extinguishing a fire that caused \$100 damage. The factory, owned by Samuel Z. Koff, is located on the second floor of the building at the northwest corner of the two streets. Koff estimates \$200 as the value of gold dust which was in work benches in the place.

The fire was started by the lighting of a gas lamp, which caused an overheated gold-smelting crucible. Gold workers left the crucible burning after the fire. The fire was discovered early today by Edward Bell, whose father, Andrew Bell, has a fruit store on the ground floor.

GERMAN TORCHES FIRE SUWALKI GOVERNMENT BUILDINGS IN REPRISAL

Swift Retaliation Reported for Alleged Slav Outrages in Memel—Provincial Capital in Terror as Berlin Fulfills Threat.

PETROGRAD, March 25.—In retaliation for Russian occupation of Memel, the Germans have applied the torch at Suwalki, capital of the Polish province of that name, according to dispatches today from Berlin.

German aviators brought word to Suwalki that every Government building in Suwalki had been set afire and that the flames were still burning. It was claimed that this was due to an attack by the German warships cooperating with land forces.

It was admitted today that Memel, the German Baltic seaport, had been evacuated by the Russians. It was claimed that this was due to an attack by the German warships cooperating with land forces.

OSBORNE'S ACUSER HELD FOR GRAND JURY

\$50,000 Breach of Promise Plaintiff Finds Tables Turned.

NEW YORK, March 25.—Miss Rae Anzures, plaintiff in a \$50,000 breach of promise action against James W. Osborne, former District Attorney, was today bound over to the Grand Jury on a charge of using threats to defraud by United States Commissioner Houghton.

This action climaxed a morning of sensational evidence on each side of the case. Miss Anzures was held for the Grand Jury on a charge of using threats to defraud by United States Commissioner Houghton.

GIRLS SPIRITED AWAY CAUGHT IN THIS CITY

Government Anti-saloon Witnesses Arrested in Zeiss's Hotel.

Two girls, believed to have been spirited away from Washington, D. C., because they were to have appeared as witnesses against saloons in that city, were found in Zeiss's Hotel, 29 Walnut street, this morning. Detectives Fletcher and O'Connor took them to City Hall, where they were questioned by Captain Cameron.

LATE BULLETINS

FOUR HUNDRED CHILDREN VACCINATED
Four hundred children of the T. H. Dudley Public School, 23d and High streets, Camden, were vaccinated this afternoon by a physician of the Health Department. William Smith, who, the police say, has been roaming about the city with smallpox, has been sent to his home, which has been fumigated.

TWO HUNDRED CIGAR FACTORY EMPLOYEES ON STRIKE
Two hundred men and women employed in Bobrow Brothers' cigar factory, at 114 South 2d street, are on strike as a result of a reduction in wages.

KILLS HIMSELF IN FRONT OF WIFE'S HOUSE
Jacob Andrews, 55 years old, 334 Emerald street, shot himself in the mouth with a revolver on the pavement in front of his wife's home, 3467 Emerald street, this morning. He died a few minutes later.

M'NICHOL CAMP IS IN CONSTERNATION WHEN VARE LAUDS GOVERNOR

Senator Pledges Allegiance to Brumbaugh and Supports His Program. Praises Child Labor and Compensation Bills.

HARRISBURG, March 25.—Senator Vare's statement that he is behind Governor Brumbaugh, and that he would work for the enactment of his program of social legislation has spread consternation in the M'Nichol camp because of the importance Senator Vare's attitude has upon the coming mayoralty contest in Philadelphia.

Senator Vare openly aligned himself with the Governor on every issue, except local option. He was silent on that question, but his silence in reality supports the Governor, because it continues to leave it up to the Vare members of the Legislature individually to vote as they wish, and gives the Governor about six more local-option votes than he would have if Senator Vare were fighting against local option.

Governor Brumbaugh was informed Senator M'Nichol and Senator Crow, that it they fight against the passage of his local-option bill, he would enter the mayoralty contest in Philadelphia this fall. With Senator Vare aligned with him in that campaign, the chances of Senator M'Nichol, even with the assistance of Senator Penrose, being able to name the next Mayor of Philadelphia would go glimmering.

Senator Vare has been the keynote of the situation since the break between the Governor and the Republican Organization leaders occurred at the conference, held at the executive mansion last Monday night. Reading between the lines of his statement he is now with the Governor just as strongly as he was with him during the campaign and in the speaker's hall. In his statement, Senator Vare said:

"Governor Brumbaugh has had passed Concluded on Page Two

LITTLE ITALY IS AGOG OVER KIDNAPPING CASE

Many Wagers That Girl Will Not Testify Against Her "Hero," Arrested Today.

The high cost of living, reports that Italy may join the Allies, and the time of the "Garibaldi March" played on a hardy, curly, suddenly were forgotten today in Little Italy, when it became known that Salvatore Pasconi, of 11th and Reed streets, had been arrested.

Pasconi, who is 21 years old, is in a cell on the charge of "kidnaping" his sweetheart, Addolinda Merciera, 1215 South 11th street. He is accused of spiriting Miss Merciera away in an automobile a week ago to Chester, where she was detained by a disreputable uncle.

Pasconi and Miss Merciera faced each other in Central Station today. The police presented evidence showing that Pasconi had "kidnaped" his sweetheart when she refused to marry him.

Everybody who heard of the case was eager to hear the outcome of the case. Pasconi was arrested by Special Officers Patterson and McCorkle in a house at 117 South 15th street. He made no resistance and went along willingly.

It was about a year ago that Pasconi first met Miss Merciera. She agreed to marry him. The girls, when awakened, at first refused to admit their identity. In their baggage, the detectives say, they found newspaper articles bearing the anti-saloon crusade.
