HIGHWAYS ENGINEER IS ASKED TO RESIGN; **UHLER MAY GET POST**

Philadelphia Official Probably Will Succeed Foster. R. J. Cunningham, of Allegheny, Expected to Receive Bigelow's Place.

Gibson Introduces Bill in House Providing for "Weeks Plan" of Expending All Highways Funds - Governor Said to Support Measure.

PERON A STAFF CORRESPONDENT. I RARRISBURG, March 3L.-The resigns tion of Samuel W. Foster, of Alleghen; county, chief engineer of the State High way Department, was requested by Governor Brumbaugh today. No announce ment in regard to the selection of his successor was made, but William D. Uhler, assistant engineer of the Bureau of Highways and Street Cleaning, Philadelphia, most prominently mentioned for the

Foster has been the right-hand man of Mard M. Bigelow, who retires tomor-row as State Highway Commissioner, and was in charge of most of the engineering work done by the State Highway Depart-ment under the Bigelow administration. Robert J. Cunningham, deputy con-Robert J. Cunningham, deputy controller of Allegheny County and former State Senator, as the new State Highway Commissioner, will be at the head of the reorganized State Highway Department, according to authoritative information today.

Governor Brumbaugh's plans for the

reorganization of the department are ex-pected to be made public within a short time. The reorganization will be comtime. The reorganization will be com-plete. In preparing his plans the Gover-por has familiarized himself with every mile of the State highway system, and has made a thorough study of road build-ing, so that he has approached the task of reorganizing the department with a thorough knowledge of the conditions in the State and the problems which the

separiment must solve.
The retiring Highway Commissioner, in a formal statement, asserted that the failure of the \$50,000,000 roads loan amendment at the polls two years ago is to blame for the failure of his administra-BIGELOW'S STATEMENT.

Mr. Bigelow, in his statement, said:
"I accepted the position of State Highway Commissioner with the distinct understanding that I was to organize the department, survey and plan 8800 miles of roads made State highways by the Legislature. I was to have \$50,000,000 to begin lature. I was to have \$50,000,000 to begin the work and, acting under the authority of the Legislature, I completed the surveys and plans and had them ready on January 1, 1913. Two sessions of the Legislature approved the \$50,000,000 bond issue, but the people defeated the measure and placed the State Highway Department in the position of being ready to go ahead with the work without money. "I believe the present Legislature, with the help of owners of automobiles, will have sufficient money to maintain the State highways in good condition during State lighways in good condition during the next two years, but no money for extensive construction work. As I did not take charge of the department for maintenance work, but to make a rand system for the State, suitable for the present and the future, and as there is no money in sight to carry out our plans, I respectfully retire."

WEEKS PLAN PUT FORWARD. Following the resignation of Bigelow, Representative Ralph Gibson, of Lycomics, introduced a bill in the House last night providing for the "Weeks plan" of expending all State highway funds. The measure has the support of Governor Brumbaugh, according to its sponsor.

The plan is that after 10 per cent. of the funds have been set aside for special work by the department, one-third of the remainder shall be expended in counties according to their ene-third according to the total mileage of county and township roads, and one-third according to population, countles in which cities of the first and second class are located being exempted. This last feature would eliminate Philadel-phia from benefiting from 39 per cent.

of the State highway funds.

The measure was drafted by the State

MEN'S LEAGUE PROMISES "PEP" IN SUFFRAGE FIGHT

Will Map Out Program for Vigorous Spring Gampaign.

Spring Campaign.

The Pennsylvania Men's League for Woman Suffrage took the first steps of its work in the present spring suffrage campaign this afternoon when it met at the headquarters of the Woman Suffrage party, 1721 Chestinut street, to elect new officers for the next year, who will carry on the league's activities for woman suffrage. The members have been working continuously for votes for women for several years, but during the present season will increase their activity.

For several years the longue has been in a sense dormant, but from now on it will take up the fight, and, as one of its members said. "the men are going to put 'pep' into the battle for votes for women as never before. We have left the burden of the fight to the women too long. Wa hope to rally together, by an untiring canvass of the city, enough men to make the Philadelphia vote for the amendment a strong feature in deciding whether women shall have the vote."

MANY JOIN CAMPAIGN FOR TRANSIT LOAN

Subcommittees Working in Wards Increased to Include 40 and 60 Men.

The educational campaign begun by the Citizens' Committee of 1000 last week to crystallize public sentiment for the support of the \$5,000,000 transit loan at the special election April 29, has met/with such success that instead of naming subcommittees of 15 mer

to each ward, as was originilly planned, the subcommittees have been enlarged to include from 40 to 60

The members of these ward committees have pledged themselves to canvass the neighborhoods in which they live in order to win all doubtful voters to the support of the loan. Particular effort will be directed to bring every voter to the polls on April 29. To facilitate the work of the ward committees they will be diided into subcommittees, one to each voting division.

A definite plan of action in support of the proposed loan is now being mapped out by the Executive Committee of the Committee of 1000. This will be made

public within several days.
Actual work on the Broad street sub-way and the Frankford elevated lines can be started promptly if the voters favor the \$5,000,000 loan. After the work has started on Broad street ordinances will be introduced in Councils to provide for the proposed subway delivery loop, which engineers have declared is the key to the comprehensive system of rapid transit de-signed by Director Taylor.

McNichol's Measure Found to Conflict With Shern Law.

I FROM A STAFF CORRESPONDENT. HARRISBURG, March 31 .- The Mc-Nichal bill prohibiting the police from making registration canvasses and from belonging to political clubs or paying political assessments was recalled from the Governor today to be amended so that it will not conflict with the Shern law. The bill went to the Governor last week, Attorney General Brown found sections which seemed to conflict with the Shern act. Senator McNichol held a conference early today with the Governor and At-torney General, and amendments were prepared which will eliminate the conflicting sections.

Civil Service Bill in House HARRISBURG, March 31.-A State Civil Service bill was introduced by Representative Marvin, of Tioga. It was prepared by the Civil Service Reform Asciation of Pennsylvania and has the indorsement of Governor Brumbaugh, hav-ling been passed upon in its final form by Attorney General Brown. The bill pro-vides for the appointment of a commission of three. There will also be a chief examiner, who will be secretary to the board. The principal offices will be in Harrisburg, with branch offices in various
