HEBREW EDUCATION SOCIETY ASKS AID

T4 **

Funds for Instructing Immigrants Requested From City Board of Education.

The Board of Education was requested teday in aid the Hebrew Education Soclaty in defraving expenses in employing teachers for classes in English conducted by the society for the immigrant population of Philadelphia. The request was presented as a communication to the Board of Education at its meeting today at City Hall. The matter was referred to the Finance Committee of the Board. The Hebrew Education Society points out in its communication that the society was incorporated by act of assembly in 1549 to establish a school in Philadelphia to teach elementary branches of education, with science and English and other modern languages. It is asserted that the society has conducted its work among immigrants by establishing night classes attended by young men and women and that it now is in urgent need of funds to continue its work and provide for appli-

BABY BADLY BURNED IN FLAME-COVERED BED

Occupants of Building Narrowly Escape Injuries.

A 7-month-old baby was badly burned and a number of men, women and children narrowly escaped injury in a panic following the discovery of a fire this morning at 2560 East Somerset street. The blaze was in a three-story frame tenement at that address.

Mrs. Grace Deto, who occupied a sec-ond-story front room, became hysterical when the blaze was discovered. She a neighbor, ran through smoke-filled hallways to the second floor and found Mrs. Deto's 7-month-old son in a blazing

The child, severely burned about the body, was handed to M. E. Bader, of 1419 Mariborough street, a driver of a big automobile meat truck. He took the infant to the Episcopal Hospital. Other occupants of the house rushed for

the front door, and for a time the mem-bers of the four families who have apart-ments in the building got jammed in the hallway. Neighbors restored order and all escaped without injury. Firemen found the building so thick

with smoke that for some time they could not enter it. The damage is estimated at about \$500.

How Scouts Can Raise the Big-Winged Moths By G. W. J. CARR

A pleasure that may be enjoyed by all lovers of nature, yet one about which very little is known, is the raising of the beautiful night moths. In my own small way I have been very successful with them, yet can I call it "In a small way" when I have miles of beautiful woods and fields from which to gather my harvest of cocons. On cross coun-try walks I have counted and inspected sometimes as many as two hundred co-coons, so there need be no fear that your section of the country will not yield a few species.

WHERE TO LOOK FOR THEM

Promethea and cecropia moths seem to

The promethea coccoons hang from small branches by a strong silk band, making it a fortress against the winds making it a fortress against the winds and storme during the winter months. These cocoons may be found on small bushes and trees, a few of them being the spice bush, sassafras and wild cherry. These three usually are their most favorite food, but I have found them on sumach, button bush, alder and the tulip tree and would not be surprised to and them on ave kind of a bush tree or

find them on any kind of a bush, tree or After you have gathered a few of these cocoons, watch for those of the cecropia; these you will find attached to branches, tree trunks, old wooden fences and many other curious places. These codercis are easily distinguished, in thest instances, as they are from two to four inches in length, very baggy and attached length-wise to the branches. Some cocours you wise to the branches. Some coccons you will find beneath the trees upon which the caterpillars feed, such as the luna and polyphemus, both beautiful moths and well worth looking for. All cocoons should be tested to insure against parasites. This may be done by removing the cocoon with a small por-

tion of the branch. A good chrysalld will be heavy. If there is a rattling, like small seed, such a cocoon is no good and should be destroyed. Now is the time to gather cocoons, before the leaves appear, for after that

they are not so easily found. (To be continued Friday.)

The Big Parade

The parade on Friday, "Boy Scout Day," from Shibe Park, cast on Lehigh avenue and south on Broad street to Sus-quehanna avenue, was the biggest Scout turnout the city ever saw. At least 3500 scouts from the city troops, Delaware and Montgomery Counties and New Jersey were in the long procession, which was re-viewed by Dr. Charles D. Hart, chairman of the Executive Scout Council; Walter S. Cowing, Scout executive, and other Scout officials. Nineteen troops of county Scout officials.
