### HORSE CAUSES STIR

Runaway Rouses Neighborhood by Stunts Around City Hall.

Jitneys, automobiles, policemen, com-muters and trolley cars were mixed in a mass for fully half an hour today around City Hall on account of the antics of a horse attached to a bakery wagon, which started out for a run while its driver was absent. The horse suddenly started from the west side of City Hall on a run, and a bediam of jitney bugles only added to its speed. Unlike other runaway horses, this animal followed a square course

around the hall.

Automobiles and other vehicles gave it a wide berth, for the horse apparently imagined it was in a race. Its speed in-creased with every lap. A squad of guards tried to cut it off by darting through the courtyard, but failed. The animal was finally captured by several passers-by. The wagon to which it was attached bore the name of C. L. Vollotti, 633 Fitzwater street.

Parental Forgiveness Gained by Elopers, Now on Their Wedding Journey.

Prince Ludovico Pignatelli d'Aragor and his runaway bride, who was Miss Ruth Morgan Waters, society girl of this city, New York and Palm Beach, are on their wedding journey to Hot Springs, while Philadelphia fashionables, who knew them well, are talking of the elopement as they seldom have occasion to

talk.

In their words, it is one of the "real romances of real life," this marriage of a nobleman, who claims relationship with the King of Spain, to a beautiful young woman who flew in the face of her par-ents' wishes to become his wife and then so smothered parental opposition with smiles that father and mother say to interviewers today:

"The young people loved each other so much that we just had to let then

## THIEF IMPERILS LIVES **CUTTING SIGNAL WIRES**

Ties Up Railway Traffic on Chestnut Hill Line by Stealing Equipment.

Lives of passengers on the Chestnut Hill branch of the Philadelphia and Reading Railway have been endangered by a thief who climbed telegraph poles and cut down live wires carrying signals. This only became known today, when the police arrested Frank Foster, of 2 Tull's court, believed to have stolen the wire.

He was arrested in a patch of woods at Chew and Cliveden streets this morn ing while placing bread and rolls in the hollow trunk of a chestnut tree. Policemen Richardson and Brown, who made the arrest, think the tree was used as a temporary hiding place for stolen goods and that the food was taken from a store of Mrs. J. Gowen, Sharpnack and Chew streets, today.

He was held in bail for court and for further hearing on three larceny charges by Magistrate Pennock, in the Germantown police station.

Several times within recent weeks some one has mounted telegraph poles along the Reading tracks above Walnut lane station, hacking down telegraph wires and signal lines. At the hearing, it was testified by railroad detectives, Shuck and O'Donnell that service on the whole line has been held up a number of times, because the depredations blocked the signal system, and made it unsafe to run trains until the damage could be repaired by linemen. Foster will have a further hearing tomorrow morning on the railroad's charge, which is being pressed by the detectives.

The prisoner has been wanted by the police on larceny charges some of which date back two years. Recently, following the railroad complaint, a drag net was thrown out for him.

He was held for court today, accused

of being the man who last October, stole clothing valued at \$39 from a Germantown boardinghouse after getting two days' free board and attempting to induce a pretty girl living in the house to elope with him to Rhode Island.
